STEEL

The Metalworking Weekly

EDITORIAL INDEX

VOLUME 155

July 1 to December 31, 1964

Subject Index 3
Company Index 17

THE PENTON PUBLISHING COMPANY

Penton Building, Cleveland, Ohio 44113

SUBJECT INDEX

A

Accounting:
Accounting conference (Drop Forging) addressed by Ament: Spend money to save money, 9/28, p.33
Accounting conference (DFA): New concept, take guess out of guesstimating, 10/19, p.125
Lockheed's accounting system (SNAPO) (eliminates supplier invoices), 9/7, p.30

Activation Analysis:
STEEL Feature: New tool finds many uses, 7/6, p.40

Adhesives: See Joining

Advertising:
Marketing campaigns tie in with advertising, trade groups, 11/30, p.26
Put advertising manager on first team (association address), 7/6, p.17

Aerial Survey: See Photography

Aerospace:
See NASA
See Space Materials

Africa: See Foreign Markets

Aircraft:
Aluminum aircraft face corrosion problem, especially around fasteners, 9/7, p.17
Aluminum alloy for outer skin of Concorde (SST), built by French and British, 10/5, p.52
Business plane sales, 9/28, p.19
DC-9 at Douglas, 2-per-week rate by mid-1966, 7/27, p.47
DC-9 uses 45% lb titanium, 8/3, p.31
Helicopter climbs with power beamed to it via microwaves, 11/9, p.19
SST design, honeycomb-fiberglas, 11/23, p.35
SST jet engines, welding may cut weight, TO, 10/19, p.36
SST proposals submitted by Boeing and Lockheed, 11/9, p.18
Sports plane, low cost, at Bede, 7/27, p.51
United Air Lines' overhaul shop, rubberized abrasives for jet turbine blades, 11/30, p.61

Air Dryer:
Desiccant dryer routs many plant problems (takes moisture out of air), 7/27, p.92

Air Force:
200,000 ton press for AF arsenal proposed by Wyman-Gordon, 10/5, p.29
AF gyroscopes get 5-yr. warranty, 11/16, p.35
Florida base test lab, door seal solution to material problem, 11/30, p.60
Search for new cutting tools—machining costs prime target: Floyd Whitney, Wright-Patterson Base, report, 11/16, p.57
Titanium extrusion program at Republic Aviation, report, 12/21, p.46

Air Pollution:
Astronauts in sealed space capsules could find contaminants dangerous, 10/5, p.19
California Motor Vehicle ruling on control devices, Detroit argues not enough proof, 7/13, p.109
Chicago helicopter reports offending plants, 10/5, p.17

Alumina:
Acid process instead of caustic soda for making alumina, Australian firm, 8/3, p.20

Alloy Casting Institute:
Heyward speaker, 7/13, p.18

Alloys:
A-U2GN, French aluminum alloy for skin of Concorde, SST, 10/5, p.52
Chrome alloy for turbine rotors, pic., 8/10, p.95
Columbium alloys get diffusion coating, 10/5, p.19
Columbium based alloy for furnace parts, TO, 9/14, p.36
Lockalloy, new alloy combines aluminum, beryllium, 9/14, p.49
Magnetic alloy (Hipernik), Westinghouse, 7/20, p.66
Master alloys produced by thermit process, 12/7, p.142
Powder metallurgical TZM molybdenum alloy good for high heat, 10/26, p.33
Tantalum alloy developed at aerospace field, 9/28, p.102
Tungsten-rhenium refractory alloy, room temperature ductility, 9/21, p.55
Zinc alloy (rolled strip form) with titanium content (applications, producers), 11/2, p.108

Aluminum:
Aluminum availability in '64, BDSA forecast, 8/10, p.33
Aluminum capacity hiked by producers (firms), expansions, 9/14, p.44
Aluminum shipments, container-packaging market pace-setter, estimated end use (chart), 7/13, p.28
Aluminum shortage by mid-1965, consensus of metal producers at convention, 11/9, p.27
Aluminum use for outer skin of French SST Concorde, 10/5, p.52
Anoclad one extrusion alloy for many aluminum finishes, Duranodic process 'integral color', 12/14, p.33
Anodized aluminum coil, automated processing line, 10/19, p.51
Chinese aluminum, signs point to rising output, 8/10, p.114
Preanodized aluminum now $1 million industry, 11/2, p.106
Truck and body builders consume more, 11/23, p.34

Aluminum Association:
Annual meeting: Developmental marketing proposed by Harper (Alcoa), 11/30, p.25
Goldsmith elected exec. v. p., 8/10, p.51

Aluminum Plants:
Aluminium Kitimat complex, operation report, 7/27, p.49
Aluminium Ltd. enters U. S. market as fabricator (plants purchased), 10/19, p.44
Aluminium forms Alcan to manage fabricating plants, 12/14, p.35
New plant in Washington state (owned by AMC, Howe Sound, and Pechney), 9/14, p.45

American Chemical Society:
Chemical exposition shows sales booming, 9/7, p.29
Meeting reports new system of shorthand, also advances, 9/7, p.19

American Die Casting Institute:
Chicago meeting forecasts output in '65, 9/28, p.35
Product grouping illustrates scope of diecasting, cover pic, 7/13
Reports textured finishes for diecastings, 12/7, p.117

American Foundrymen's Society:
Annual meeting: Groups plan to co-ordinate research, 11/23, p.44

American Gas Assn.:
Construction spending by utilities, pipeline companies, 8/24, p.28

American Gear Manufacturers Assn.:
1964 index of bookings, 9/14, p.33
Meeting reports uptrend into mid-1965, 11/2, p.45

American Institute of Aeronautics & Astronautics:
Meeting, technology reports, 7/6, p.29

American Institute of Mining, Metallurgical & Petroleum Engineers:
Metals conference scheduled, 9/28, p.35

American Iron & Steel Institute:
Allan leaves for Canadian post, B, 9/14, p.51
Chicago technical meeting, Block charges steel earnings inadequate, 10/5, p.17

American Machine Tool Distributors Assn.:
Elects, B, 11/23, p.52

American Management Assn.:
Speakers at session on planning for disarmament, Sen. Humphrey and Sen. McGovern: Way to cushion defense cutbacks, 7/20, p.25

American Metal Stamping Assn.:
Carlson technical dir., 9/14, p.51
Elections, B, 10/12, p.52

American Mining Congress:
Tunneling machines advances, 9/28, p.20

American Powder Metallurgy Institute:
Elects president, B, 9/14, p.51

American Production & Inventory Control Society:
Conference: How close is computer controlled production? 10/12, p.33

American Psychological Assn.:
Prof. Britt: Human motivation guidelines in consumer buying, 9/14, p.35

American Society of Body Engineers:
Display scaled down version of Cord with plastic sandwich body, 11/9, p.110

American Society of Mechanical Engineers:
Annual meeting: Keeping engineers up to date, 12/7, p.47

American Society for Metals:
Metals/Materials congress, better utilization, 10/12, p.95

American Society for Testing & Materials:
Adoption of new specs and updating of others boost steel casting use, 8/31, p.29

American Society of Tool & Mfg. Engineers:
Toronto meeting: Pressure, high energy, ultrasonics put new life in metal forming, 11/9, p.66

American Welding Society:
Fall meeting, new developments take spotlight (bonding with exploding foils, etc.), 10/19, p.131

American Zinc Institute:
When to paint galvanized steel, survey report, 10/5, p.59
Zinc alloy in rolled strip form, titanium content (application, producers), 11/2, p.108

Anodizing:
Automated processing line for anodized aluminum coil stock, 10/19, p.51
Hard anodized aluminum for lapping material, 12/7, p.34
Preanodized aluminum coiled sheet now $1 million industry, 11/2, p.106

Appliances:
1964, 1st half shipments, 8/17, p.17
1964 industry report, 11/2, p.34
Air conditioner shipments, 12/28, p.10
Electric appliance shipments, 9/28, p.18
Frigidaire washer gets roller drive, 7/6, p.19
Gas appliance sales, 1st half, 8/17, p.17
Gas appliance shipments, 1964 12/21, p.19
Gas clothes dryer has disc of ceramic honeycomb to collect lint, TO, 12/14, p.20

Apprentices:
Apprentice program launched in Rochester by NTDPMA, 8/3, p.31
IAM (machinists) call for more apprentices, 9/14, p.44

Argonne National Laboratory:
Superconducting magnet built by Avco - Everett Research Lab, needs little energizing, 10/19, p.47
Supermagnets hold field on small power charge, 12/14, p.33

Army:
Mercury power generator system (almost silent) for front line use, developed by TRW, 12/21, p.31
Rock Island Arsenal: Ultrasonics check x-ray of castings for new M102 howitzer, 9/28, p.100

Asia: See Foreign Markets

Assembly: See Fabrication

Associated General Contractors of America:
Meeting report, 1964 new construction, 10/5, p.18

Associated Industries of Cleveland:
Cleveland area pacts (129) reviewed, 8/31, p.27

Association of Industrial Advertisers:
Put advertising manager on first team (Wood address), 7/6, p.17

Association of Iron & Steel Engineers:
Cleveland exposition: Instrumentation in steelmaking big new area, 9/28, p.28
Elects, B, 10/12, p.52
Reports by Lee Wilson, others on novel concepts combine reduction mill and open coil machinery, anneal control, batch annealing, 9/14, p.183

Astronautics: See Space Material & Developments

Atomic Energy:
Activation analysis in research reactor, bombardment by neutrons shows radioactivity, chemistry of material, 7/6, p.40
AEC-Argonne Lab: Supermagnets hold field on small power charge, 12/14, p.33
AEC-Argonne Lab: Superconducting magnet needs little energizing, 10/19, p.47
AEC: Fission product recovery program (commercial potential of wastes), 8/3, p.98
AEC roster of available patents, 12/21, p.31
AEC seeks bids on plant to make new composite (irradiated wood-plastic or 'novawood'), 8/24, p.30
Atom breakthrough (Ford scientists): Quantum theory explains how atoms and molecules behave, 7/27, p.102
Atomic reactors 'off the shelf' items at GE, price list issued, 10/5, p.18
Beryllium neutron reflector, AEC Oak Ridge, TO, 12/7, p.36
Breeder reactor program, East Central Nuclear Group, 8/31, p.19
Communication system speeds work of atomic physicists, TO, 9/14, p.36

EBR-11 (Experimental Breeder Reactor) to produce electricity, TO, 8/24, p.20
Kryptonates aid 'radio tracers', AEC report, TO, 11/2, p.36
Neutron radiography popular nondestructive testing tech., 11/2, p.47
Neutron radiography inspects heavy metals, 7/20, p.20
Nuclear fuel for gas cooled reactors boosted by new vacuum melted stainless, TO, 11/16, p.20
Nuclear powerplant to desalinate water and produce cheap electricity, 7/27, p.49
Nuclear reactor at Peach Bottom, Pa., checkout tests, 8/3, p.19
Radioactive sludge disposal, freezing and controlled melting, 8/31, p.20
Radioisotopes: More private firms needed, 7/6, p.96
Reactor fuel discs spiral machined from bar of plutonium-aluminum alloy, 10/12, p.158
Reactor vessel checked by 800 pressure gages, 7/27, p.52

Australia:
Auto industry expands, 8/3, p.29
Autos for Japanese Trade Fair, 11/30, p.88
British spending to stimulate steel growth, 11/16, p.18
Broken Hill Proprietary plant gets 140 in. plate mill, 7/27, p.94
Foreign investment aids industry, 7/27, p.34
Foreign investment, Australians want fair share, 11/16, p.18
Iron ore reserves high, 9/28, p.29
Iron ore exported to Japan, 10/5, p.19
Japanese cars invade market, 9/14, p.257
May form zinc and lead recovery industry, 7/20, p.18
Unemployment falls, 8/10, p.115

Automation:
Automakers production line: From clay—to tape—to die, 7/20, p.50
Automated foundry (Altamil): From shot to shakeout, RAD system, 10/5, p.46
Automation speeds soldering, brazing, 9/21, p.48

Automotive:
4-door sedans (checklist chart): 1965 accessory prices, dimensions, engines, 11/9, p.109
1964 models, toward 8 million goal, 7/13, p.109
1965 — another 7 million cars plus year, 8/17, p.97
1965 cars, more zinc, 8/17, p.28
1965 cars: Byword is convenience, 10/5, p.83
1965 cars; production vs stocks, 10/19, p.189
1965 sales forecasts no signs of letup (strike effect on sales), 12/14, p.95
1966 tooling underway, look for (aluminum engines, 4 - wheel drive, vent windows, plug-in instruments), 11/16, p.105
1975 production predicted, 8/17, p.18
Auto drawings (computer-DAC-1 system) GM Research Center, 11/2, p.139
Automated production line: From clay—to tape—to die, 7/20, p.50
Auto plants regroup in Midwest (geographical change—top seven assembly states), 7/20, p.89
Automakers build 'strike' stocks, lease warehouse space, 8/3, p.28
Auto repair centers operated by oil companies, 9/28, p.18
Batteries-18 volt may be standard, 8/31, p.78
Bearings plant expansion, Federal-Mogul, 7/27, p.129
Brake system (Instantor) dev. by Brownyer, Rockwell-Standard, 11/30, p.88
Cadillac's new chassis and styling (perimeter frame), 9/28, p.128
Chrysler's Kokomo, Ind., diecasting plant, layout detailed, 8/24, p.71
Chrysler (Townsend) announces $1 billion for expansions, domestic and foreign, 8/31, p.77
Chrysler details material changes, 11/23, p.149
Chrysler production in South Africa, 10/26, p.82
Coaches, luxury Land Cruisers for business and industry, 12/28, p.17
Copper usage, marketing goal, 8/10, p.85
Cord to have plastic sandwich body, 11/9, p.110
Diecast trends, auto parts, 7/13, p.64 and 65
Earnings of Big Three (GM, FMC, Chrysler), 1st 6 mo.s, 8/3, p.84
Ford-Mustang gets more power, disc brakes, 8/10, p.150
Ford stamping plant planned at Woodhaven near Detroit (Hole and Kalander check model, pic), 7/20, p.89
Ford's stratified charge engines, research, 8/3, p.83
Ford's truck of the 1970s, 96-ft long tractor-trailer with 600 hp gas turbine, 10/26, p.81
Foreign sales, Volkswagen leads, 10/19, p.189
Foreign cars, top ten imports, 12/28, p.52
French production down, 11/2, p.140
French automaker (Picard at Renault) forecasts 1985 car (SAE), 12/28, p.51
Friction material bonded to clutch discs, 7/6, p.82
GM, can it make up its prodution deficit dating back to start of strike in Sept.? 10/19, p.189
Goodyear acquisition of Motor Wheel, competes with Budd and Kelsey - Hayes (wheelmakers), 8/17, p.98
Goodyear's power cushion tires, 9/28, p.128
Hydrostatic drive for tow tractors (Marine Corps) 7/13, p.110
Japan shows auto parts at Chicago Trade Center, 9/21, p.30
Materials changes in '65 Chryslers, 11/23, p.149
Materials usage-1965 planning, 8/31, p.77
Mercer-Cobra: A laboratory of copper applications, pic, 8/10, p.84
Mercer-Cobra sports car shows copper use in autos, 12/7, p.47
Muffler market, DeKoven report, 9/7, p.90
Muffler materials battle, steels used, Alphatized steel readied, 10/12, p.199
Mufflerless system (Arvinode), 10/12, p.200
Oldsmobile, styling changes, 9/28, p.127
Pistonmaking speeded with new transfer machine, 12/14, p.95
Plastics in auto (lead article), 8/10, p.41
Plastic sandwich body, vacuum molded, 11/9, p.110
Plastic used by foreign carmakers top U. S., 8/10, p.149
Plastisol used in packaging replacement parts, 12/21, p.78
Powerplants comparison (Witzky stratification, Texaco combustion, diesel cycle), 8/3, p.83
Race cars use beryllium brakes, 7/13, p.110
Roadside radio transmitters regulate speed, 11/16, p.106
Safety programs (Detroit projects) GSA and Public Health, 12/21, p.77
Seat belts, Borg-Warner line, 9/7, p.89
Smog ruling, Calif., automakers urge pollution tests, 7/13, p.109
Smog devices sold on California cars, 8/17, p.20; 8/24, p.72
Smog control device urged by Walker on Calif. board, 10/26, p.82
Spark plug adapter base heats air-fuel mix to save gas, 10/19.
Steel consumption, 8/17, p.97
Studebaker struggles on, Canadian production, 9/28, p.127
Tariff ruling (free trade between Canada-U. S.), Modine fight, 11/30, p.87
TRW's policy: How to stay in auto partmaking, 7/6, p.81
Trade-in allowances less, 8/31, p.78
Truck sales, changes in engine developments, 7/20, p.90
Trucks-buses, factory sales in '63, 8/31, p.19
Volkswagen again leads foreign sales, 10/19, p.189
Volkswagen turntables test air cooled engines, 7/13, p.110
Wheelbases are getting longer again, 9/7, p.89
World markets booming (Japanese cars flood Australian market), 9/14, p.257

Awards:
Doehler diecasting award to Bennett (who predicts computer usage), 10/12, p.154
New Jersey Zinc diecasting award to Chrysler, 9/28, p.29
NTDPM gives Distinguished Service Award to Walter Campbell (STEEL), 11/2, p.44

B

Balance of Payments:
1964 forecast by NFTC, 8/24, p.76

Bars:
Allegheny producing stainless extruded hollow bars, 7/6, p.35
Bar and tube handling with modular equipment, 12/7, p.134

Battelle Memorial Institute:
Aerospace forecasts new technique: Sandwich structures roll bonded, 8/24, p.46
Corrosion effect of sea water on metals, 9/14, p.178
Dr. Clark: Oceans can add to world's natural resources, 7/20, p.28
Radioisotope fueled thermoelectric generators forecast, TO, 12/21, p.20
Welding developments spotlight AWS meeting, bonding with exploding foils, etc., 10/19, p.131
Where 10 defense metals will be by '70, report available from OTS, 10/12, p.140

Batteries:
Exide's (pay-as-you-can) meter plan saves in changeover from gas powered lift trucks to electric, 11/23, p.122
Primary cells OK after 4 months storage, TO, 10/26, p.20

Bearings, Bushing:
Ball bearings-slewing rings get precision forgings, 8/31, p.30
Bearing for cryogenics, 12/28, p.10
Bell Lab lube for ball bearings (molybdenum disulfide), 8/3, p.98
British Timken: Crossed roller bearing offers space saving to machine tool builders, 11/16, p.65
Fafnir Bearing: Channeled retainer keeps bearings cool at high speeds (grease used), 8/31, p.51
Federal - Mogul - Bower supplies bearings for steel mills, 7/27, p.129
NASA tip on new bearing, 12/7, p.145
Shrink fitting (by cold treatment) bushings to brackets, in caster mounted cascade refrigeration machine, 8/17, p.66
Wood reinforced plastic resins for bearing material, Soviet study, also U. of Mich., 7/13, p.18

Bending: See Forming, Bending

Bids: See Contracts

Biomedical:
New areas of interest in biomedical engineering: Instrumentation, prosthetic devices, computers, 8/10, p.96

Blast Furnaces:
J&L's third blast furnace (Aliquippa), 10/12, p.162
Tokai Iron & Steel readies 1st blast furnace in step toward integration, 8/17, p.71

Boating Industry Assn.:
1960 industry report, 9/7, p.18

Bonding: See Joining

Brakes:
Railway type disc brakes control Fairless Wks. uncoiler tension, 9/28, p.86

Brazing:
Automatic soldering and brazing at Fusion Inc., 9/21, p.48
Fluxless brazing for thin gage aluminum sandwich structures (missiles) Avco's Avcoramic, 10/12, p.49
See also Joining

Bridges: See Construction

British Iron & Steel Research Assn.:
Automated forging press, built-in tool change and railboard manipulator, 11/9, p.33
Hot steel strip measured optically and continuously, TO, 8/3, p.20
Magnetism swirls liquid, TO, 7/20, p.19

British Steel Castings Research Assn.:
Castings progress outlined in meeting, 8/10, p.36

British Welding Research Assn.:
Addition of columbium to molybdenum bearing Type 316 stainless, no crack during welding, TO, 8/24, p.20
Spotweld quality checked by new system, 8/24, p.19 and 9/28, p.77

Business & Defense Services Adm.:
Aluminum availability in '64 predicted, 8/10, p.33

Business (Economy):
10 reasons for better business (STEEL listed influences to watch in '64), 8/24, p.75
1964—2nd half, 7/20, p.17
1964—3rd quarter (foundry indicators), 10/12, p.34
1964—4th quarter, 10/5, p.87
1964 business, why it was so good, 12/28, p.53
Auto labor pacts, inflationary? 9/21, p.25
Booming business puts heat on metals prices, 8/10, p.43
Business boom really a transition, NICB Study, 9/21, p.17; 9/28, p.27
Business boom—no reason for it to end is forecast of Dr. Rinfret at seminar, Cleveland Central Nat'l Bank, 11/16, p.26
Business expansion slowdown (Prof. Solomon), 9/28, p.17
Can we buy off inflation (industry capacity chart), 11/16, p.109
Consumer spending (John Doe) ups economy, 9/21, p.83
Expansion, modernization focuses capital spending, 9/14, p.261
Metalworking executives, outlook for '65, 11/30, p.50
Order backlogs, why not at record high, 7/6, p.85
Steel's Panel forecast, 4th quarter, 7/27, p.133
STEEL's Panel forecast for 1965, 10/5, p.25
Profits preview: Steady growth, 7/13, p.113
Walter Heller lauds management 'moderation' in boom, 8/31, p.17

Buyer-Supplier: See Suppliers

C

California Institute of Technology:
Computer printer-fast, TO, 11/16, p.20

Canada:
Modine Mfg. fights for tariff ruling (free trade between U. S.-Canada), 11/30, p.87
Rising GNP sets pace for economy, 9/7, p.30
Steel mills planned for Northeastern New Brunswick, 11/9, p.35

Cans, Canmaking:
Dry-bonding method for aluminum foil-fiber cans, 8/24, p.30
Entry in can market—Tearstrip Adhesive, 10/19, p.35
Flow Film process coats paper and metal containers, 7/13, p.31

Capital Equipment:
Leasing of capital equipment on uptrend, estimate of Nationwide Leasing Corp., 10/19, p.45
NICB report, Special Economic Conference, '65 outlays to hit $50 billion, 9/28, p.27

Capital Expenditures:
1964 capital spending, all industries (Commerce-SEC), 12/14, p.27
1965 vs 1964 capital spending forecast, 10/5, p.26
New plant and equipment, modernization spending big business in metalworking, 9/14, p.261
Foreign expenditures (1960-65) plant and equipment by U. S. manufacturing firms, 11/9, p.29
Steel industry, '64, predicted by Fetters, 11/23, p.45
Steel industry, plant and equipment by 1975, 9/14, p.130

Capital Goods:
Capital goods, 1st half, orders soar; prices firming, 8/3, p.25
MAPI reports dollar value of U. S. exports, 8/3, p.33

Carbon Dioxide:
Automated foundry: Molds made by CO_2 process, 10/5, p.46
CO_2 plant, self-contained package, 7/20, p.29

Carbon Yarns:
Continuous process for producing carbon yarns (Union Carbide), 7/20, p.31

Carburizing: See Furnaces

Case Institute of Technology:
Breznyak (master thesis) reports forging die lubricant, 12/14, p.31
Demonstrates central computer station (links hospital project with Univac at Case), 10/26, p.29

Casting, Castings:
A way to buy better cast parts (pattern design), cases cited by industry, 11/23, p.102
A way to tell what materials really cost (castings), 7/6, p.48
Automated foundry (from shot to shakeout) RAD system, molds made by CO_2 process without flasks via shooting tech., 10/5, p.46
Casting properties tailored for job (large crawler transports for Apollo, Saturn), 7/13, p.78
Continuous casting (bars and billets) with 'frictionless' molds at Acme Steel, 7/6, p.31
Continuous casting, developments coming fast (Concast charts trend), 12/14, p.71
Continuous casting at Connors Steel, Birmingham plant, 9/14, p.145
Continuous casting facilities (Republic, Crucible, Wisconsin Steel), 8/31, p.31
Continuous casting unit, curved mold type, for Crucible, 8/10, p.33
Continuous casting unit, Oregon Steel Mills, 7/6, p.18
Electroslag remelting combined with continuous casting, 10/5, p.18
Exothermics increase yield of castings, 11/2, p.111
Graphite mold for vacuum casting uranium rings, pic., 9/7, p.32
Ingot mold for wide plate mill, pic., 7/20, p.66
Investment castings, autoclave melts wax from molds, 7/6, p.50
Malleable castings, guidelines set for tolerances, 8/17, p.68
Malleable iron castings shipments, '63, 10/19, p.117
Steel casting use boosted by new ASTM specs, 8/31, p.29
Ultrasonic test checks x-ray, castings at Army Arsenal, 9/28, p.100
Vertical casting ultrahigh pressure diecasting machine, 7/13, p.59
See also Diecasting

Central America: See Foreign Markets

Census:
1963 Census of Manufactures (Commerce Dept.), 12/7, p.33
Census lists New York county (Manhattan) as top industrial market, 8/17, p.18
U. S. population revised by Commerce Dept., 8/10, p.34
World population explosion, U. N. projection, 12/28, p.10

Ceramics:
Ceramic blanket speeds pipe bending, National Valve, 12/14, p.66
Ceramic fiber, process blends into moldable refractory fiber, 12/28, p.16
Ceramic potting compound guards delicate space instruments, TO, 8/3, p.20
NASA offers materials with industrial potential, 10/12, p.151

Chemical Industry:
Corplan study, equipment market into the future, 9/7, p.29

Chemicals:
Chemical additive (Zimmite) clears mud from water in steel mill cooling systems, 8/31, p.54
Cleaning compound for porcelain enamelers, 11/9, p.18
Ethylene-diaminetetraacetic acid cleans boilers, 10/26, p.48
Fuel oil additive (chemical) eliminates sludge formation in fuel oil storage tanks, 11/16, p.70
Organic polymer (Nalco 101) for sintering, 7/20, p.31
Twin agents quench liquid fires, 12/21, p.31

Chicago Aerial Survey:
Applications cited for photogrammetry, 11/30, p.17

China (Red):
Aluminum output rising, signs pointing to, 8/10, p.114
East-West trade proposals, 7/13, p.82

Chrome:
Chrome plated plastics coming up fast, 11/23, p.97

Circuitry: See Electronics

Cladding:
Thin-film vinyl laminated to sheet steel, aluminum, 9/28, p.102
Russians clad low carbon steels by rolling in vacuum, TO, 10/19, p.36

Clean Rooms:
Cleanroom operations for slip rings, 8/10, p.112
Do-it-yourself cleanroom, Lockheed Test Base, 8/17, p.66

Cleaning, Blasting:
Sheet blast equipment, 8/24, p.44

Coaches:
Luxury coaches for business, industry, 12/28, p.17

Coal & Coke:
Coke process "Formcoke," revealed by Bethlehem's Cort, 12/21, p.17
Cokemaking machine studied by Russians, 9/7, p.19

Coatings: See Finishes, Coatings

Coils:
Anodized aluminum coil, automated line, 10/9, p.51
Coil forming and straightening combined in two-roll machine (cylindrical shapes), 8/10, p.89
Coil rewinding bypassed in anneal-temper facility at Acme Steel, 11/9, p.74
Longer copper-brass strip, unwelded coils rolled at Olin's new plant, 11/9, p.35
Preanodized aluminum now $1 million industry, 11/2, p.106

Coins:
Coin shortage studied, S. Africa switches from silver to nickel, 11/23, p.35
Powder metallurgy tech, may relieve critical coin shortage, 7/20, p.18

Cold Extrusion: See Extrusion

Colleges:
1965 grads get higher salaries, average monthly earnings, 12/28, p.26
Construction program a must with new enrollment, 11/16, p.17

Color:
Computer shows shades of color, 7/27, p.36
Take a color tour through automated hot strip mill (England), 9/14, p.132

Columbia University:
Prof. Livingston: R&D managers warned to shape up goals, staffs, 8/31, p.30
Prof. Pehrson opposes disposal of strategic metal stockpiles, 10/19, p.146

Columbium:
Columbium alloys get diffusion coating, 10/5, p.19
Columbium alloy for furnace parts, TO, 9/14, p.36

Commerce Dept. (OBE study): See Input-Output

Communication:
Picturephone aids in interviewing personnel, 8/10, p.35

Communications Systems: See Computers, Data Processing See Orders

Company Operations:
Acme Steel: How a management team reshaped a steel company, 10/5, p.43
Boeing Co., Vertol Div.: 'Depth studies' pinpoint costly operations, 7/20, p.56
Federal-Mogul-Bower charts its growth: Peppiatt and Wright outline expansions and philosophy, 7/27, p.129
Industrial relations managers' role in company planning, 11/2, p.44

Components:
3rd quarter survey, 8/3, p.87
4th quarters survey, 11/2, p.143

Compressed Air:
Desiccant compressed air dryer placed in basement of steel plant, cuts plant moisture problem, 7/27, p.92

Computers, Data Processing: (see also Steel Mill Controls)
A.D. 2000, what to expect from computers (RCA-Sarnoff), 11/9, p.28
1964 process computer market $40 million (GE predicts) 8/10, p.45
ADP (automatic data processing) equipment forcing office industry changes, 8/31, p.50
APT-International set up by IIT Research, London or Paris headquarters, 7/13, p.19
Bailey Meter's computer control system, 9/21, p.27
Bethlehem's order processing speeded by communications system, 7/6, p.56
Car design drawings by computer (GM), 11/2, p.139
Clay model data feeds computers used in auto diemaking line, 7/20, p.50
Central computer stations a step closer, 10/26, p.29
Computer Center (Baker Oil Tools) pilots production, 8/24, p.31
Computer system handles instruction programs, IBM in co-op with Penn. State Univ., 10/5, p.18
Computers could expand diecasting technology, 10/12, p.154
Computer, typing terminals linked, 12/14, p.18
Data communications system (Data-Verter) for field salesmen, and other uses, 11/23, p.120
Data communications system for manager, 10/19, p.143
Desk calculator 'learns', repeats instructions for solving problem, 12/28, p.26
Electronic buying using IBM Data-Transmitter and Bell Data-Phone, 8/3, p.31
Electronic components assembled, evaluated by IBM computer, 10/19, p.115
Electronic components testing system tied to computer, 10/12, p.33
Electronic ordering of socket screw products aids distributors, 10/19, p.125
Factory production computer controlled, forecast, 10/12, p.33
Fluid operated digital computer displayed by Univac, 10/19, p.42
Honeywell (EDP), computer-peripheral equipment in customer service package, 7/6, p.29
Hypertape Drive, handles 680,000 numeric characters a second, 11/23, p.35
IBM demonstrates system 360 to aid computerized design, (sketches, drawings, graphs), 11/9, p.70
IBM's new data acquisition and control system, rental price, 12/7, p.47
Lockheed-Georgia, computer memory links communications between 40 shop areas, 8/17, p.62
Microminiature computer (Honeywell), TO, 8/3, p.20
Quality control, computer uses, 9/28, p.76
RCA's Spectra 70, features integrated circuitry, 12/14, p.28
SAC (Strategic Air Command), data processing system, 7/20, p.29
Stack of punched cards (IDS) new system for business records, TO, 11/16, p.20
Telephone-computer data, Copenhagen physicians link with Calif., 12/7, p.35
Telephone transmits voices in digital code (battle field) 8/31, p.19
Terminal control (runs check on questioner), TO, 10/26, p.20
Univac programs PERT, 12/14, p.19
Wire wrapping machine controlled by IBM tab cards programmed by 7094 computer, 8/31, p.49

Construction:
Construction booms along at $65.8 billion pace, strong industrial programs, 9/14, p.41
Bridge construction, steel prefab units, 10/26, p.36
Copper curtain walls on Kennecott's Utah building, 8/17, p.20
Spending by gas utilities and pipeline firms, 8/24, p.28

Construction Machinery:
Industry outlook and foreign markets, 7/6, p.18

Consultants: See STEEL's Panel

Consumer Attitudes:
Michigan Survey Research Center's survey, 7/13, p.17
Univ. of Michigan quarterly survey, 11/16, p.27

Consumer Durables:
1965 output forecast, 11/30, p.91

Consumer Spending:
Business economy upped by consumer spending (John Doe), 9/21, p.83
Human motivation guidelines in consumer buying (Prof. Britt), 9/14, p.35

Continuous Casting: See Casting

Contract Purchasing:
Evaluation system (contracts won vs quoted) at Cleveland Pneumatic Tool boosts bidding average, 9/21, p.46

Controlled Energy Machining: See Machining

Copper:
Article: Expand copper usage 150,000 tons annually in next 3 to 5 years (STEEL Feature), 8/10, p.85
1964 deliveries of refined copper, 11/23, p.45
Chile, Anaconda agree to hike capacity, 12/28, p.10
Copper-brass products, new alloys up sales, 11/16, p.28
Copper walls on Kennecott building, Utah, 8/17, p.20
Longer coils of copper and brass strip rolled at Olin's new direct chill casting plant, 11/9, p.35

Copper Development Assn.:
Annual meeting report: Marketing projects (Mercer-Cobra car), home use, 12/7, p.47
Annual meeting speaker (Strauss): Copper shortage temporary, 12/7, p.34
Hartley (Developmental marketing goal): Expand copper usage 150,000 tons annually in next 3 to 5 years, 8/10, p.85

Corplan Report (IIT Research Institute):
Effect of automation, new technologies on jobs, 7/27, p.45

Metalworking 1980 (series)
1. Primary metals, how metalworking industry will 'look,' 8/3, p.27
2. New billion dollar industries will boost sales, electrical, electronics, chemical and data processing, 8/10, p.96
3. N/C, electronics may reshape your company's future, 8/17, p.60
4. Nine product development areas ripe for electronics firms, 8/24, p.42
5. ADP equipment forcing office industry changes, 8/31, p.50
6. Chemical industries pose strong equipment market, 9/7, p.29

Corporate Profits: See Financial

Corrosion:
Aircraft-aluminum face corrosion problem, 9/7, p.17
Corrosive effects of hot sea water on metals, 9/14, p.178
German professor (Bourbaix): Teleprinters to control corrosion protection (anodic), 10/5, p.17
Metal coating (An-Cor) has high corrosion resistance, 9/21, p.30
Plastic coatings protect plating shop equipment, 10/19, p.118
Plastic exhaust system (pickling line) stops corrosion attacks, 7/20, p.65
Stress corrosion crack resistor, 10/12, p.36
Weld overlay of high strength chrome moly. steel solves corrosion problem for pressure vessels, 11/2, p.114

Cost Cutting:
Cost reduction is emphasized in midst of business boom (spot-check of 45 firms), Davis, Loidl, Gould pix, 8/17, p.25
Drop Forging Assn., accounting conference reports cost reduction programs, 9/28, p.33
Hoppas (Hughes Aircraft) asks: When is a cost reduction program valid? 7/13, p.17
Reliance Electric & Eng. (Norm Spry): Informal methods alloy flexibility in cost reduction, 8/17, p.64
Tinnerman Products: How 'special diet' can reduce fat assembly costs, 7/20, p.58
Vertol Div. (Boeing): 'Depth studies pinpoint costly operations (operating systems-manufacturing processes), 7/20, p.56

Cryogenics:
Bearing to function at supercold of liquids, 12/28, p.10
Composite tubing, vacuum jacketed, aids cryogenic systems, 7/27, p.90
Cryogenic tank, high altitude test, 12/14, p.19

Customer Communications: See Orders, Deliveries

Cutting Fluids: See Lubricants

Cutting, Shearing:
Allis-Chalmers electronically controlled flame cutter at tractor loader works (made Y Nat'l Cylinder Gas), 10/26, p.33
British chemical saw for soft materials, TO, 11/30, p.20
Hydraulic shear on cutoff assures burrfree, nondistorted ends, 7/13, p.76
Plasma torch cuts concrete, 7/20, p.20

Cutting Tools: See Tools (Cutting)

D

Data Processing: See Computers, Data Processing

Defense Contracts:
How to cushion defense cutbacks: Speakers at AMA disarmament planning session (Sen. Humphrey and others), 7/20, p.25
Marketing knowhow key for defense oriented companies, 7/20, p.26
Small firms' subcontracts in '64, 8/3, p.19

Defense Metals:
Defense metals, where 10 will be by '70 (Battelle), 10/12, p.140

Depreciation:
Editorial: Drop reserve ratio test, 10/19, p.15
Joel Barlow (Washington lawyer): Hold off application of reserve ratio test on guidelines, 10/12, p.44

Depth Studies:
Vertol Div. (Boeing) cuts costly operations with 'depth studies', 7/20, p.56

Desalination: See Water

Design:
Dr. Steinberg (Lockheed): Materials research can optimize design, 8/31, p.45

Detroit Tooling Assn.:
Three-year pact with Locals (UAW), 11/30, p.27

Flame spray coatings of titanium, zirconium, 10/19, p.140
Glow Film, new process coats paper and metal containers, 7/13, p.31
Plastic coatings for plating shop tanks, 10/19, p.118
Porcelain enameling appliances (pickling process), 7/6, p.59
Sherardizing-continuous process (coating steel with zinc), 11/30, p.62
Spray coating (Metco 404 Niciel Aluminide) keeps molten material from sticking to mold, 9/28, p.31
Sprayed metal coatings (Metco) protect iron-steel against heat corrosion, 8/24, p.30
TD nickel coatings researched, Du Pont, TO, 12/14, p.20
Textured finishes for diecastings, 12/7, p.117
Urethane resin enamel (Olin) has hardness, flexibility, 9/21, p.30
Vinyl organosols coat projector parts (instead of enamel), B, 10/12, p.51

Fittings: See Pipe, Tubing, Fittings

Flame Cutters:
Allis-Chalmers electronically controlled flame cutting machine at tractor loader works made by Nat'l Cylinder Gas, 10/26, p.33

Fluid Power:
Annual meeting (NFPA) reports industry outlook, 1/16, p.33

Flux:
Automated flux control for oxygen converters, 9/14, p.156
NASA gives tips on soldering flux (corrosion coat), 12/7, p.145

Foils:
Copper, aluminum foils, laminations, 9/14, p.49

Foreign Aid:
AID funds makes sales overseas easier, 9/21, p.18
ports, aerospace companies urge, 10/19, p.47
Export-Import bank financing could launch U. S. airplane ex-

Foreign Competition:
GE-Joelson (corporate planner): Think international to stay competitive, 7/6, p.28
Steel foundries, 12 point defense plan (chart): Make foreign competitors shoot at moving target (Kenney, Symington Div.), 8/31, p.43

Foreign Investments:
Manufacturing firms, capital expenditures (1960-65) in plant and equipment, 11/9, p.29
Metalworkers ship abroad at record setting pace, 8/17, p.27
U. S. activities abroad record high (Commerce report), 7/20, p.93

Foreign Markets:
Africa: Guides for doing business (Blankenheimer), 10/12, p.35
Africa, auto production, 10/26, p.82
Asia: ECAFE secretariat study promotes metal industry, 8/3, p.19
Australia, foreign investment aids industry, 7/27, p.34
Australia wants fair share of foreign investments, 11/16, p.18
Central America most advanced toward economic integration (CED study), 11/30, p.31
Chinese (Red) aluminum output up, 8/10, p.114
European Economic Community, where heading? Morgan Guaranty Survey, 9/28, p.18
European market vast for competitive firms, 7/13, p.31
French competitive in bid for skilled labor, 11/16, p.29
Ghana gets Soviet machine tools, 8/10, p.49
Japanese machine tool builders ready new push on U. S. markets ('63 exports to U. S.), 10/5, p.49
Japanese steel outlook to 1967 (chart), 9/14, p.47
Japanese merger (Kobe Steel and Amagasaki), 10/19, p.49
Japanese iron and steel team (SASP) push for stable price standard, 10/19, p.49
Latin America's economy, rising population is boost, 9/14, p.45
Latin American steel industry outlook (1970), goals, 8/3, p.29
Latin American trade with U. S. (Jan.-Aug.) chart, 12/7, p.49
South Americans plan for economic bloc through LAFTA, 7/20, p.31
Thailand, market for metalworking tools, 12/14, p.110
West Germany, '65 growth trends, 11/30, p.31

Foreign Trade:
Britain's import tax, short life predicted by Commerce Dept., 11/16, p.29
Britain's surcharge viewed by panel, Chicago Inter'l Trade, 12/14, p.28
Britain's surcharge, effect on U. S., bank interest rates up, 12/14, p.99
Canada-U. S. issue of free trade, Modine Mfg. issue, 11/30, p.87
Capital goods exports up, 8/3, p.33
Commerce urges private export service firms, 8/24, p.18
Commerce (Goldy) predicts exports by 1974, 11/9, p.18
East-West trade proposals, Red China, Communist bloc, Free World, 7/13, p.82
East-West negotiations and agreements to boost trade volume, 8/17, p.33
East-West: U. S. Businessmen tour Moscow, trading rumored, 12/21, p.23 and 27
East-West: U. S. trade with Sino-Soviet Bloc (Reds better buyers than suppliers), 10/12, p.45
Exports (listed) to W. Germany, 8/10 p.45
Exports high, our 12 largest buyers, 7/20, p.93
Exports head for record (product-chart), 8/17, p.27
Imports in free world markets, 1st quarter, 8/3, p.33
Overseas reports focus on exports, labor, 8/31, p.29
Russia-Free World trade stepped up, 12/21, p.27

Forging, Forgings:
Automated forging press (BISRA), built-in tool changer and railboard manipulator, 11/9, p.33
Electrochemical machining takes big bites on large forgings, 9/28, p.84
Forging die lubricant for forming, Breznyak, thesis submitted to Case Inst., 12/14, p.31
Roll forging method (Flo-Forging) for drillmaking at Vermont Tap & Die, 8/17, p.35
Hot piercing puts holes in upset forgings, 8/31, p.52
Precision forgings used in slewing rings-ball bearings, 8/31, p.30

Forming, Bending:
Androform, contoured titanium skins (rubber pads in place of dies), 12/14, TO, p.19
Automatic mill takes wrinkles out of roll forming wide, thin gage at Metal Structures (Dilley-Formatic Panel System), 10/26, p.50
Automatic roll extrusion forming (cold bending) twists pipe 180° at Pines Eng. (Roto-Form 5-12), 10/12, p.47
Cold bending outlined by Killian (Pines Eng.), new dimensions to techniques, 11/30, p.56
Cold forming method (extrusion) makes multipasses on one stroke to convert sheet metal disc into ID closed tubes at Metal Flo (Lansing Stamping sub.), 12/14, p.60
Cold forming with molybdenum, 12/14, TO, p.18
Cryoforming stainless for high pressure vessels, Lewis Lab, TO, 11/9, p.19
Electroforming aluminum at GE (space work), 7/13, p.33
Electroforming using rubber matrix (molds, parts), at Dow, 7/27, p.49
Explosives form hemispheres in hard metals, 12/7, p.35
HERF-high energy rate forming via internal combustion, 10/12, p.34
HERF-die life still problem, 10/19, p.137
Hydraulic ball forming: Way to flare port openings, 11/23, p.116
Hydraulic roll forming machine for steel bumper bars, English design. Auto-Union of Germany uses, 8/10, p.45
Metal bending brake useful on steel sheets (NASA) 12/21, p.50
Metal forming, new life with pressure, high energy, ultrasonics, 11/9, p.66
Simple forming process needs no dies at Grumman Aircraft (IDF process), 7/27, p.86
Spark discharge or exploding wire technique used to study effects of nuclear explosions, 8/10, p.36
Stretch forming machine (Holtraz) bends metal sections (British firm), 12/28, p.28

Foundries:
12 point defense plan for steel foundries (foreign competitors): Kenney, Symington Div., 8/31, p.43
Altamil, Chambers Div.: Fully automated foundry, from shot to shakeout, 10/5, p.46
Better cast parts—how to buy (pattern designs), 11/23, p.102
Cummins Engine: Purchasing castings—a way to tell what materials really cost, 7/6, p.48
French process in diecasting, dissolving cores, 11/30, p.30
Gray Iron Founders': Count dollars, not tons for materials production, 8/24, p.18
Trade groups' plans to coordinate research, 11/23, p.44
Trade groups' new role, marketing programs, 11/30, p.26

Foundry Equipment Manufacturers' Assn.:
Elects officers (Hawley, Kane pics), 11/2, p.51

France:
Competition for skilled labor, 11/16, p.29

French foundrymen's new process in diecasting, dissolving cores, 11/30, p.30

Free Engineering: See Editorials

Fuel Cells: See Electric Power

Furnaces, Ovens (Heat Treating):
Annealing furnace shows coil loading, atmosphere protects aluminum surface during processing, 10/5, p.56
Carburizing furnace flame control lessens downtime (fuel systems change), 11/9, p.72
Fuel oil additive cuts burner clogging, 11/16, p.70
GE/MAC systems package controls OSM furnaces, 8/10, p.87
Infrared gas burners with metallic heating elements give fast, uniform rates at Fannon Products, 12/21, p.29
Ohio Seamless Tube, new controlled atmosphere furnace and second spheroidizing furnace, 12/7, p.120
Plastic dies and molds cleaned in molten salt bath, 9/28, p.83
Sherardizing process continuous at Porter (coating steel with zinc), 11/30, p.62
Steel slab reheating furnace, roof-fired, new at Salem-Brosius, 10/19, p.47

G

Gages:
Automatic lathe inspection, 7/13, p.19
For precision drilling in the billionths range (Googolth machine), 8/31, p.41
Microwave gages, radar unit, 7/20, p.60
Optical and optical-electronic measurements: Gage builders seek faster testing devices (Sheffield's Hedden reports), 7/6, p.33 and p.20
Pneumatic gage inspects auto pinion planet gears, 11/2, p.49
Pressure checked reactor vessel, by 800 gages, pic., 7/27, p.52
Strain gage advances (British), 7/6, p.20
Strain gage made of single crystal of silicon can be immersed in static fuels and oxidizers (1000° F), 10/12, p.36
Strain gages in pressure transducers ease calibration, TO, 11/30, p.20
Throwaway gage concept nets savings (Dundick president reports), 7/6, p.33

Galvanized Steel:
AZI survey: When to paint galvanized steel, 10/5, p.59
Vinyl coating on corrugated sheets, (building), 8/3, p.48

Galvanizing Lines:
Automated galvanizing line at Armco-Ambridge Wks. (dev. by Blaw-Knox), 7/20, p.33
Bethlehem may build steel sheet galvanizing line on West Coast, 7/27, p.51
Inland to install fifth line, Indiana Harbor Wks., 11/30, p.35
Kaiser plans galvanizing-sheet facilities at Fontana, 8/24, p.31

Gearmakers:
1964 index of bookings, 9/14, p.33
Executives see uptrend to mid-1965, AGMA meeting, 11/2, p.45
Gears:
Close tolerances held on big gear, pic., 8/17, p.36; correction, 8/24, p.31
Electronic gear train on lathe aids machine design, 10/19, p.47
Fine gears diecast (used on washing machine timers), TO, 10/19, p.36
Pneumatic gage for inspection of auto pinion planet gears, 11/2, p.49
Zinc diecasting eyed by designers, 9/21, p.52

General Services Adm.:
Metal stockpile disposal plan a law, 7/13, p.28
Safety devices for cars, study stressed, 12/21, p.77

Geographical:
Auto plants regroup in Midwest, top seven assembly states, 7/20, p.89

Germany:
60 atom powerplants needed for W. Germany, 7/13, p.18
2nd half economic outlook, 8/10, p.34
'65 growth trends, 11/30, p.31
German unions win more pay, holidays, 7/6, p.28
Labor pinch tightest ever, 7/6, p.19
Labor agreement between Worker's Union and metalworking employers, wages and salaries, 8/24, p.18
U. S. led world in exports to W. Germany in '63 (products), 8/10, p.47

Glass
IIT develops thin glass armor, 7/20, p.19
Glass felt (Textrafluff) insulates, filters, 8/10, p.112
Glass reinforced nylon for precision molded transmission case, TO, 8/3, p.20

Googolth Machine: See STEEL Features

Government:
Antidumping regulations held up by Treasury, 7/20, p.27
Antitrust: Aluminum disposal checked by lawyers, 9/14, p.34
Auto labor pacts, how the White House rationalizes, 9/21, p.25
Civil Rights Act, briefed by Gullander (NAM), 8/10, p.44
Commerce: '63 Census of Manufactures, 12/7, p.33
Commerce (OBE) forecasts capital expenditures for foreign manufacturing affiliates, 11/9, p.29
Commerce (OBE) input-output report list industry buying, selling patterns, based on SIC, 11/16, p.28 and 11/23, p.153
Contracting-procurement policies hit by industry, NSIA studies, 10/19, p.45
East-West trade favorable to business (Fulbright report), 11/23, p.34
Executive management in federal government, CED report, 8/3, p.18
Hodges, Wirtz seek agency to monitor U. S. technology, 7/13, p.29
Hodges addresses St. Paul groups on wage, price restraint, 9/28, p.18
Humphrey and McGovern (Sen.s) before AMA session on planning for disarmament, way to cushion defense cutbacks, 7/20, p.25
LBJ doesn't expect general steel price hike, 8/17, p.28
LBJ's union talks (tax cut, tax incentives), 9/28, p.27
Manpower program, Wirtz surveys cities for job vacancies, 8/17, p.29
Manpower (Wolfbein) cautions on retraining (flop) without trained guidance-counselors, 11/23, p.33
Merger advice from Justice Dept., 11/9, p.18
NLRB ruling (GE): Watch what you say to employees, 12/28, p.15
Russian trade, licenses granted to export to Soviet Bloc, 12/21, p.27
Patent attorneys may retard technological progress: Gen. Schriever (Air Force), 8/10, p.33
Patent commissioner (Brenner) cites simpler procedures, creates new office, 11/9, p.124
Pay hike for federal managers (CED proposal), 7/27, p.34
Transportation (urban mass) program funds put aside until 1966, 7/13, p.29
Vice presidents role (under next president), How industry will fare, 9/7, p.27
Walsh-Healey, watch for more rulings-'65 (present minimum wages-chart), 7/27, p.41
Wirtz: Add two years to our school system, 9/7, p.17

Government Contracts: See Defense Contracts

Graphite:
Pyrolytic graphite, market potential, TO, 12/28, p.12
Spacecraft 'steering wheel', graphite oxidation resistant, 12/21, p.90
Graphite cloth and felt aid furnace operation, 12/7, p. 126

Gray & Ductile Iron Founders' Society:
Annual meeting report, '65 spending, 10/26, p.29
Appoints marketing director, 8/17, p.35
Casting shipments—gray, ductile, and high alloy iron, 9/28, p.18
Elects, B, 11/9, p.36
Workman: Count dollars, not tons, 8/24, p.18

Great Britain:
Auto production and exports, 10/12, p.200
Capital spending '64, 11/9, p.18
Labor shortage forecast by Labor Dept., 10/19, p.128
Olympia Show (London) coincides with rise in British machine tool orders (Huber on tour), 7/6, p.27
Park Gate Iron & Steel expand with Kaldo unit, computers, 8/3, p.54
Redman Tools Ltd., steel bumpers roll formed, 8/10, p.45
Sheffield Univ. researches stronger steels, TO, 11/16, p.19
Spencer Wks., Richard Thomas & Baldwin Ltd: A color tour through automated hot strip mill, 9/14, p.132
Steelmakers ask for antidumping action, 7/13, p.17
Steel nationalization compromise forecast of Labor Party, 10/19, p.17
UK surcharge (import tax), U. S. Commerce predicts short life, 11/16, p.29
UK surcharge, U. S. firms seek ways to offset (Chicago Trade Club conference), 12/14, p.28
UK surcharge: Will Britain's ills infect U. S.? 12/14, p.99
Vocational grants, Industrial Training Act, 8/31, p.28

Grinding, Polishing:
Arborless grinding wheel permits higher speeds, Carborundum test, 10/5, p.29
Carborundum seminar: New concepts aimed at steelmakers, Tysaman grinders, etc., 10/12, p.47
EAG grinding wheels (electrochemically assisted grinding), GE licenses Norton, 11/2, p.49
Electrolytic form grinding, new wheel (Copperdyne) is a copper compound bond, 10/12, p.49
Electrolytic form grinding, two wheel advances, impregnated and Copperdyne, 12/21, p.43
Floating grinder hones floor surface at General Dynamics, 12/7, p.51
Grinding coolant cleans wheel (Jet Wheel Cleaner), TO, 11/30, p.20
Grinding red hot billets doubles removal rates (Carborundum and Braeburn), STEEL Feature, 7/27, p.81
Hand grinder-polisher, high cycle tools removal metal, Budd Co., 11/9, p.69
Tap grinding unit (British) automatic after blank loading, 12/21, p.29

Gross National Products:
1964 GNP, 8/3, p.15
3rd quarter gain, 10/26, p.85

Guesstimating: See Profitability

H

Hardening:
Alloy surfaces hardened by powder-heating process, TO, 8/24, p.20
Shock wave strengthens carbon steels, North American Aviation, TO, 8/17, p.19
Silver added to alloys affect age hardening, TO, 7/13, p.20

Harvard University:
Prof. Dunlap views Chrysler pact, 9/21, p.26

Heat Treating & Annealing:
Coil rewinding bypassed in anneal-temper facility at Acme Steel's Newport, Ky., Div.: features Vertohort unit-photoelectric eye and Bliss mill, 11/9, p.74
Electron beams shine in annealing continuous strip, 12/7, p.122
Faster aluminum annealing aids grain size control (pair of semi-continuous coil annealing furnaces) at Bridgeport Brass-Warren plant, 10/5, p.56
Heat treating unit in air conditioned shop isolated (installed in panel wall enclosure), Woodward Governor Co., 8/17, p.72
Microwaves anneal metal wire or strip (Britain), 7/6, p.20

Heaters:
Infrared gas heater, burners give fast, uniform rates, Fannon Products Div., 12/21, p.29

Heating Equipment:
Fluidizing beds for household cooking, TO, 12/7, p.36

HERF: See Forming, Bending

Highways:
Outlay totals $6.3 billion for highway construction, 9/14, p.42

Hobbing:
Hobbing tip in forming coupling threads, 11/23, p.107

Holemaking:
AmForge makes holes by hot piercing, 8/31, p.52
Hole finishing alternates (boring or grinding), 11/16, p.68

Housing:
Copper and wood wall paneling, 8/10, p.85
Steel home market, Minnesota's Mesabi iron range, pushed by First Federal Savings & Loan Assn., 10/19, p.34
Steel usage highlighted in model U. S. Steel home, 8/3, p.31
Steel vacation homes, 9/21, p.18

How Metalworking Will Look in 1980: See Corplan

How We'll Manufacture Tomorrow: See Production Processes

Human Motivation: See Consumers

Humidity: See Plant Service

Hydraulics:
Hydraulic draw bench cuts cylinder repacking (McKay), 9/21, p.31
Hydraulic roll forming machine (English design) for steel bumper bars, 8/10, p.45
Hydraulic ball forming, spacecraft flare port openings, 11/23, p.116

Hydrostatic Flow Lines:
100 lathes a week move off flow line, assembly at Colchester Lathe Co., England, 7/27, p.84

I

Industrial Heating Equipment Assn.:
Annual meeting, address by Fetters (Youngstown Sheet), Vaughan elected president, 11/23, p.45

IUE: See Labor

Illinois Institute of Technology: See Corplan Report

Illinois Manufacturers' Association:
Ships equipment to Philippine schools, 'Tools for Freedom', 8/10, p.49

Incentives:
GE-IUE: What happens when incentives go awry, 7/6, p.25
GE-IUE agree to scrap incentive wage system, 10/12, p.43
How to make an incentive system do what it should: Raise productivity (Cyrol and Boehringer-management consultants), 8/10, p.90

Industrial Fasteners Institute:
Meeting debates inch vs metric systems, 7/27, p.44

Industrial Relations:
Industrial relations executives cite reasons for emerging status of local union official, 10/12, p.41
Industrial relations manager, role in company planning, 11/2, p.44

InFab: See Rolling Mills

Input-Output Study (Commerce Dept.):
Office of Business Economics (OBE) compiles industry buying-selling patterns (based on SIC categories), 11/16, p.28
OBE study may mean breakthrough for market planners, 11/23, p.153; Commerce coverage may be broadened, 12/7, p.34

Inspection, Testing:
Activation analysis, where used, 7/6, p.40
Atomic absorption spectroscopy pinpoints metallic contaminants in plating chemicals, 10/12, p.214
Combination sensing device tests thickness-width of hot steel strip, 10/12, p.147
Computerized camshaft checker, 8/24, p.45
Dye (penetrant) detects flaws, Navan dev., TO, 10/5, p.20
Electro-optical measuring unit (portable), twist monitor (Chrysler), TO, 10/5, p.20
'Feel' test Handle-O-Meter for paper tissues, towels, gauzes, 7/13, p.19
Fluid logic control system for Army missile, 10/19, p.36
Fracture toughness test, NASA, 7/13, p.80
Gamma rays pinpoint defects in blooms (France), TO, 12/14, p.20
GM static bend tester evaluates hydrogen embrittlement, 11/16, p.31
Hot grinding-billets tested at Carborundum, 7/27, p.80
Inspection unit for inner workings of jet engines, Fan Spacer Scope, 12/7, p.131
Laser calibrator for the shop (sensor, light reflector, electronic cabinet) Interferometric, 9/28, p.97
Mass spectrometry advance (monopole partial pressure analyzer), TO, 10/19, p.36
Measuring unit (DIG) for machine tools, 11/23, p.35
Microwave (radar unit) nondestructive test: New vistas for gaging, testing, analysis, 7/20, p.60
Moisture checked at distance, hygrometer dev. by British firm, TO, 10/5, p.20
Neutron inspection, heavy metals, 7/20, p.20
Neutron radiography new nondestructive testing tech., conference report, 11/2, p.47
Nondestructive equipment users cite requirement of customers (conference), 11/16, p.78
Nondestructive testing involves correlation, 10/26, p.33
Nondestructive testing role: Better profits at Magnaflux, 12/7, p.137
N/C lathe makes its own inspection, 8/3, p.52
Optical and optical-electronic measuring, faster testing devices at Sheffield, 7/6, p.33 and p.20
Optical emission spectrometer combined with a pneumatic tube system inspects castings, 9/21, p.51
Rock Island Arsenal double checks howitzer castings, x-ray with ultrasonics, 9/28, p.100
Sonic plate detector checks movement; other senses die clearance, 11/2, p.111
Thermionic microscope aids study of refractory metal grain growth, 11/23, p.33
Ultrasonic billet tester, 11/9, p.36
U. S. Steel develops testing devices for large seamless and welded pipe (electromagnetic, eddy current, and ultrasonic), 8/24, p.86

Institute of Scrap Iron & Steel:
Problems of auto graveyards (scrap disposal), 10/5, p.28

Instrumentation:
AISE exposition: Instrument makers take spotlight, 9/28, p.28
Conference report (ISA): What tomorrow's instruments will do, 10/19, p.41
Forecast: Instruments sales to hit $1 billion by '75, 1/19, p.43
GE broadens rental, repair services, 10/26, p.35
Sheffield's new equipment: Measurement in millionths, 11/30, p.29

Insulation:
Ceramic blanket (Kaowool) speeds pipe bending process, 12/14, p.66
Textrafluff Felt provides insulation, filters, 8/10, p.112

Inventories:
Components, 3rd quarter, 8/3, p.87
Components, 4th quarter, 11/2, p.143
Manufacturers', Sept., 11/16, p.18
Purchasing men want 'longer' inventories, 9/28, p.131
Steel mill products, 3rd quarter survey, 9/7, p.93
Steel mill products, 4th quarter, 12/7, p.44
Steel inventories (strike threat), buyers play it safe, 12/7, p.41

Iron Ore:
Alaskan deposit discovery of Pan Am, 9/28, p.18
Arctic deposit (Baffin Island-Canada) free of impurities, 12/14, p.17
Australian deposits (limonite iron ore) developed by Cleveland-Cliffs, 12/28, p.17
Australian reserves high, 9/28, p.29
Australian ore to Japan, 10/5, p.19
Captive ownership marks worldwide investments, 8/10, p.117
Discs (flying saucers) used to form pellets from natural ore (Pioneer plant, Mich.), 11/16, p.72
Fluidization process: Direct injection of fuel oil into fluidized bed of pyrite, 9/28, p.31
Iron mine, pelletizing plant dev. near Pilot Knob, Mo. by Granite City Steel and Hanna Mining, 9/28, p.35
Minnesota voters o.k. taconite tax measure opens new developments, 11/9, p.31
Minnesota tax triggers taconite plants (four firms-venture), 11/16, p.35
New Zealand ore discovery, Tui Mountain, 11/16, p.31

New material (tantalum and columbium coated with zirconium diboride) resists heat, molten metal corrosion, 10/19, p.49

Materials Manager:
A new role growing in metalworking, 11/23, p.44

Materials Report:
Advanced practices make Japan steel leader, 7/6, p.52
Aluminum hot dip coating protects ferrous parts, 8/10, p.103
BOFs, planning smooths startup, 11/23, p.108
HCl for tower pickler may start new trend, 12/21, p.52
Casting properties tailored for job (transport vehicles for Apollo, Saturn), 7/13, p.78
Ceramic blanket speeds pipe bending, 12/14, p.66
Chemical additive clears mud from water lines (cooling systems), 8/31, p.54
Computer takes charge of hot strip mill (Great Lakes), 10/26, p.52
Desiccant dryer routs many plant problems (Van-Air), 7/27, p.92
Designers eye diecast zinc for more gearing, 9/21, p.52
Faster aluminum annealing aids grain size control (Bridgeport Brass), 10/5, p.56
Flame control lessens carburizing downtime, 11/9, p.72
Fuel oil additive cuts burner clogging, eliminates sludge formation in storage tanks, 11/16, p.70
Fuji circular converter is step toward continuous steelmaking, 9/14, p.148
Kaldos, computers at Park Gate Iron & Steel Ltd., 8/3, p.54
Plastic coatings protect plating shop equipment, 10/19, p.118
Plastic exhaust system stops corrosion attack (scrubbers, fans) pickle tank, 7/20, p.65
Preanodized aluminum now $1 million industry, 11/2, p.106
Railway type disc brakes control uncoiler tension at Fairless Works, 9/28, p.86
Sherardizing now continuous at Porter, 11/30, p.62
Tough aircraft finishes also have uses on ground, Boeing, 12/7, p.124
Welded stainless tubing cuts valve part production costs, 8/24, p.50
Where 10 defense metals will be by '70, 10/12, p.140

Materials Research:
Materials research can optimize design: Lockheed's Dr. Steinberg, 8/31, p.45

Materials Suppliers: See Suppliers

Measuring: See Inspection, Testing

Melting:
Electroslag remelting combines with continuous casting, patented by French firm, 10/5, p.18

Mergers:
Grimm & Co. study: Mergers up, prices paid, 8/17, p.19
Justice Dept., advice on mergers, 11/9, p.18
NICB study of mergers, suits filed under Clayton Act between 1951-1964, 8/10, p.34

Metallizing:
Machine uses vacuum metallizing tech. without vacuum chamber (reflective film of aluminum on interior of light bulbs), 12/7, p.222

Metal Deposition:
Electronic connections (gold wire to aluminum contact surfaces) 'purple plague' eliminated, 8/31, p.19
Vapor deposition, new line at U. S. Steel-Fairless Wks., electron beam process, 12/7, p.45

Metal Fibers:
ASM seminar stresses strength via fibers, 11/2, p.47

Metal Finishing:
Product protection during and after manufacture (plated products), 8/3, p.43

Metal Removal:
ECM makes heavy cuts on large forgings at Midvale-Heppenstall (at low cost), 9/28, p.84
ECM unit (Anocut) removes 3 cu in. per minute, 11/9, p.33
EDM power supply units (Cintrojet) boosts metal removal rate, 10/26, p.27
Electrolytic form grinding, wheel developments (metal removed by deplating), 12/21, p.43
Grinding red hot billets doubles removal rate (Carborundum and Braeburn), 7/27, p.81
High cycle tools increase metal removal (hand grinders), Budd Co., 11/9, p.69

Metal Selector:
1964 Edition, 10/12, p.98

Metallurgy:
Fatigue cracks in aluminum develop in moist atmosphere, 11/30, p.20
Fatigue failure study, slip zones under microscope appear as long straight lines, TO, 7/13, p.20
Heat generated when laser beams hit metallic object, Honeywell speaker, 11/30, p.64
Hydrogen embrittlement of hardened steels evaluated by GM static bend tester, 11/16, p.31
New high temp. material (tantalum and columbium coated with zirconium diboride), 10/19, p.49
Pressure chamber at Cambridge Electron Accelerator measures speed of ionizing particles under high pressure, low temperatures, 12/7, p.143
Scanning aids metallographer, 7/20 p.20
Wrinkling aluminum to study where skin goes, 9/7, p.20

Metals:
Battelle report: 10 defense metals by '70, 10/12, p.140
Metals Trend—boon to diecasting, 7/13, p.55
Primary metals, 'look' into 1980, 8/3, p.27
Rhodium, iridium prices up, 8/3, p. 18; 8/24, p.19
Tungsten mixed with thoria, submicron sized particles, TO, 9/14, p.36

Metals/Materials Congress:
Emphasis on better utilization, 10/12, p.96
Executives vote, Johnson-Goldwater best for business? 10/26, p.27
Instruments highlighted at show, 10/26, p.27
Seminar stresses strength via fibers, 11/2, p.47

Metalworking 1980 (Corplan Report):
1. How metalworking industry will 'look' in 1980 (primary metals), 8/3, p.27
2. New billion dollar industries will boost metalworking sales (biomedical engineering, vacuum, space, electronic metalworking), 8/10, p.96
3. N/C, Electronic metalworking may reshape your company's future, 8/17, p.60
4. Nine Product development areas ripe for electronics firms, 8/24, p.42
5. ADP equipment forcing office industry changes, 8/31, p.50
6. Chemical industries pose strong equipment market, 9/7, p.29

Metalworking:
1965: What metalworking executives expect, 11/30, p.50
1964 1st half profits, 8/10, p.153
1964 sales, 1st nine months, 11/16, p.111
1964 sales 1st half, 7/27, p.133 and 8/17, p.101
Growing concern over metal prices, 10/26, p.25
Managers surveyed on implications of automakers' proposals to UAW, 8/31, p.25
Managers surveyed: Price fighting—still No. 1 problem, 11/23, p.41
Profit gains may halt with pressures, 12/7, p.211

Metal bending brake, Ames Research Center, 12/21, p.50
New Mexico tests in desert promise space role for nuclear rockets (Kiwi and Nerva), 11/23, p.45
OTU sets regional centers to provide commercial uses, 8/10, p.47
Soldering flux leaves corrosion resistant coating on metal, and a new bearing report, 12/7, p.145

National Association of Aluminum Distributors:
Elects, B, 11/23, p.52
Meeting report, possible shortage in aluminum by mid-1965, 11/9, p.27

National Association of Manufacturers:
Civil Rights Act, briefing by Gullander, 8/10, p.44

National Association of Purchasing Agents:
Survey, 1st quarter-'65, 10/5, p.17

National Bureau of Standards:
Precision scale for b'g loads, mechanical balance, 10/19, p.34

National Electrical Manufacturers Assn.:
Annual meeting, forecast of electrical sales for '64, 11/16, p.27
Monteith (new president) cites opportunities of electrical industry, 11/16, p.17

National Fluid Power Association:
Annual meeting, industry forecast, 11/16, p.33

National Foreign Trade Council:
Convention addressed by Firestone: Overseas auto market boom, 11/23, p.34

National Industrial Conference Board:
1960s appear noninflationary, 9/28, p.27
Aid for underdeveloped nations, Free World leaders participate in survey, 12/7, p.34
Gainsburgh: How much government growth wanted? 7/20, p.17
Help wanted advertising index hits 126, 11/9, p.17
Honeywell speaker: Age of computer gone, age of systems coming, 11/9, p.17
Marketing conference: Machine tool sales forecast by Cole (Warner & Swasey), 11/2, p.41
Special Economic Conference: Reports '65 capital equipment outlays to hit $50 billion, 9/28, p.27

National Machine Tool Builders Assn.:
Elects, B, 11/23, p.52
Meeting addressed by Walter Bailey; Pease elected president, 11/9, p.28

National Security Industrial Assn.:
Group studies government procurement policy, contracting, 10/19, p.45

National Tool, Die & Precision Machining Assn.:
Apprentice training program set for Rochester, 8/3, p.31
Distinguished Service Award presented to Walter Campbell, 11/2, p.44
Educational program for financing modernization, expansion programs, SBA and Development Loan Co., 9/21, p.26
Elects Wright president, 11/9, p.29
N/C workshop programs offered, 12/21, p.32

Navy:
Plans for new deep submergence systems project, TO, 10/26, p.19

New Zealand:
Government - private expenditures forecast, breakdown, 12/28, p.11
Steel mill site urged by British group, also Australian firm, 12/21, p.18

Noise:
Thermal engine, low noise level (GM), 7/27, p.130
Viscoelastic covering reduces structural noise levels, 7/27, p.49

Nondestructive Test: See Inspection, Testing

Nonferrous:
Better methods could boost tin supply (Mining Congress-panel report), 10/12, p.156
Booming business puts heat on metal prices, 8/10, p.43
Copper users' inventories low, 12/14, p.27
Price activity reviewed, has it settled yet? 10/26, p.26
Price will rise by yearend (metals), 9/21, p.28

Nuclear: See Atomic Energy

Numerical Controls:
1980s: N/C, electronic metalworking may reshape company's future, 8/17, p.60
Cincinnati Milling: N/C cost cutting potential shown in die production equipment, 11/16, p.66
Computer, gaging systems for quality control, 9/28, p.78

GE (Ordnance Dept.): Downtime costs on N/C equipment tied to close records, 11/2, p.103
GE (Waynesboro, Va.): N/C system makes lathe its own inspector: Thomas Shipley Jr., 8/3, p.52
GE: Huge N/C machines slash costs on turbine exhaust castings, 11/23, p.49
Huge (eight axis) N/C unit machines 160 ton turbine generator frames (built by Farrel for Westinghouse), 8/3, p.59
IBM (Vaughan) predicts shift from N/C tools to computer production, 11/23, p.43
Labor's view of N/C (IAM speaker), 11/23, p.34
Le Blond N/C engine lathe at Midwestern machine shop, 8/3, p.53
Lockheed - Georgia: Speedy N/C machines process, wrap wire, 8/31, p.48
N/C lathes at McRay cuts production time for shafting-chucking parts, 11/9, p.77
N/C lathe turns king sized rolls, United Eng., pic., 8/31, p.32
N/C riveting machine for space work, 7/20, p.27
N/C system for point to point machine tool automation (Sperry Canada), 9/21, p.20
N/C applied to vertical broach, 8/24, p.44
N/C table for small work, 11/23, p.107

Nylon:
Precision molded transmission case is glass reinforced nylon, TO, 8/3, p.20

O

Oceans:
Aluminaut may open wealth of seas, 9/7, p.28
Battelle: World's natural resources from ocean shelves add to minerals, 7/20, p.28
Research vehicle for underseas made of Pyroceram glass ceramic, 8/17, p.18
Test deep submergence materials (glass filament wound cylinders, epoxy resin samples), 9/29, p.19
Manganese, other metals found undersea, 10/19, p.206
Welding for undersea market, 10/12, p.34

Office Equipment:
1964 shipments, computer and office machines, 9/28, p.19
ADP equipment forcing office industry changes, 8/31, p.50

Office of Technology Utilization: See NASA

Orders Deliveries:
Data-verter aids field men, direct orders, 11/23, p.120
Electronic ordering aids distributors (socket screw products), 10/19, p.125
Facsimile communications system speeds Bethlehem Steel orders, 7/6, p.56
Lockheed's accounting system (SNAPO) eliminates supplier invoices, 9/7, p.30
Westinghouse (RONS), rapid order negotiation system, 11/9, p.61
Yoder's (Functioneering aids multiline distributors selling, expedites order specifications, 12/28, p.21

Oxygen Furnaces:
Basic oxygen furnace — plants, locations, capacities (U. S. and World), chart, 9/21, p.29
Bethlehem: Planning smooths startup of BOFs, 11/23, p.108
L-D mills, 13 new added, makes 63 worldwide, 8/17, p.18
On-site facility, Pacific States Steel, 7/20, p.66
Poland, new plant outlays at several works, 10/12, p.160
Soviets enlarge converters to 500 tons, 8/3, p.19
Wisconsin Steel begins basic oxygen steelmaking, 10/26, p.35

Oxygen Processes: See Steelmaking

P

Packaging, Containers:
Article: You can do more with packaging, 12/14, p.53
Auto replacement parts packaged with plastisol, 12/21, p.78
Cargo cage containers for freight shipments, 8/10, p.106
Deflatable fluid containers ship thread cutting oil, TO, 12/7, p.36
Film (bags) for machines instead of crates, DoAll, 12/21, p.50
GM uses vinyl plastic for parts stocking, 9/7, p.90
Packaging service (Spring Flow Pack) eliminates problems in handling and storage of springs and springlike parts, 9/21, p.45
Polyurethanes, foam-in-place materials, 12/14, p.55

Paper:
'Whisker' paper aid to aerospace, 8/24, p.20

Patents:
AEC roster of available patents, Belgian owned, 12/21, p.31
Brenner (commissioner) uses simpler patent procedures, creates new office, 11/9, p.124
Patent system changes urged by Holloman (Commerce Dept.), 10/26, p.18

Pelletizing:
Pelletizing plant-iron mine development, Pilot Knob, Mo. (Granite City Steel and Hanna Mining), 9/28, p.35
Pioneer plant, Mich.—discs (flying saucers) form pellets from underground-natural ore, 11/16, p.72

Photography:
3rd dimension photogrammetry (auto diemaking): From clay—to tape—to die, 7/20, p.50
3 dimensional pictures lets viewer see behind subjects: Physicists—Leith and Upatnieks, U. of Mich., 11/16, p.31
Aerial surveying by triplet photographic maps, 9/14, p.34
Applications for photogrammetry cited by Chicago Aerial Survey, 11/30, p.17
Lead iodide replacement for silver in film emulsions, 12/21, p.19
Electronic 'movie' camera takes pictures at rate of 2 million frames per second, 9/21, p.17
Photoelectric cells monitor liquid in pipeline, British firm, TO, 10/5, p.20

Pickling:
Hydrogen peroxide, regenerating agent in porcelain enameling (appliances), 7/6, p.59
Liquid adhesion coat (Pliosil) to rubber before bricks are laid boosts tank life, 9/28, p.88
Plastic exhaust system (scrubber, fans and exhaust stack) stops corrosion attack, Midwestern steel pickling line, 7/20, p.65
Republic Steel's new pickling system, Gadsden, Ala., 12/14, p.28
Republic-Gadsden: Tower pickler success using hydrochloric rather than sulfuric acid, 12/21, p.52

Pipe Mills:
Republic-Gadsden: High strength steel plates make lighter pipelines, 12/28, p.24
U. S. Steel-National Wks., McKeesport, Pa.: New electric resistance weld mill (ERW) turns out longer, thinner pipe, 80 ft lengths, 8/10, p.113; 8/17, p.71 and 11/23, p.49

Pipe, Tubing, Fittings:
Automatic end forming for tubular parts, 12/21, p.51
Fitting of silicone rubber resists heat, 8/10, p.89
Pipe bending process aided by ceramic blanket, 12/14, p.66
Tube bender, multiple method, TO, 11/16, p.18
Welded stainless tubing cuts valve (refrigerant) part production costs, 8/24, p.50
Welded steel tubing reduces driveshaft weight, 8/10, p.88

Plant & Equipment:
Average age of plant and equipment, MAPI survey, 10/12, p.31
See also Capital Expenditures

Plant Expansion & Developments:
Armco plans steelmaking facilities at Butler Wks., 7/20, p.35
Armco's Project 600, 10/19, p.51
Copperweld's Ohio Seamless Tube Div.: Marketing tack spurs expansion of facilities, 12/7, p.118
Reynolds adds big machines (electronic saw, heat treat furnace, stretcher), 7/13, p.35
U. S. Steel-Torrance Wks., bar mill facilities, 10/19, p.51

Plant Layout:
Chrysler's Kokomo diecasting plant, layout detailed, 8/24, p.71
Copperweld's Ohio Seamless Tube Div. (layout chart): New marketing tack spurs expansion of facilities, 12/7, p.118
Kidde's Whitney: Plant of tomorrow geared to machines, located far from control center, 10/12, p.45

Plant Services:
Desiccant air dryer routs many plant problems, 7/27, p.92

Plastics:
Automakers usage of plastics (lead article), 8/10, p.41
Automakers (in Europe) top U. S. in use of plastics, 8/10, p.149
Bearing material (wood reinforced plastic resin), study, 7/13, p.18
Beer can market, 7/27, p.35
Chromed plated plastics coming up fast (STEEL Feature), 11/23, p.97
Design potential uses in buildings, 10/19, p.134
Du Pont introduces 'Ionomer' plastic, transparent, 9/14, p.49
Epoxy-polymer structural joints (Bell Telephone), 7/20, p.20
Extruding two plastics as one (flexible and rigid vinyls), 11/23, p.34
Fiberglas tanks for cryogenic space uses, 10/26, p.18
GE reveals new process for producing plastics (PPO), new polymers, 12/7, p.44
Laminated plastics faced with Du-Pont Teflon, Tedlar, 11/9, p.33
Laminates thin vinyl to steel, aluminum, 9/28, p.102
Plastic coatings protect plating shop equipment, 10/19, p.118
Plastic dip keeps dirt out of screw machines, 8/10, p.88
Plastic (Rigidon) exhaust system at pickling plant (ductwork, fans, scrubbers), stop corrosion, 7/20, p.65
Polystryrene molded for packaging uses, 12/14, p.56
Polyethylene sleeving protects Pyrex glas drainline, 9/14, p.180
Salt bath furnaces cure plastics quickly, 9/28, p.31

Plate Mills:
Republic Steel-Gadsden mill: High strength steel plates make lighter pipelines, 12/28, p.24

Plating: See Electroplating, Plating

Poland:
Crude steel production, 9/28, p.29
Steel works new plant facilities, 10/12, p.160

Population: See Census

Porcelain Enamel Institute Inc.:
Moves, B, 12/28, p.18

Porcelain Enameling:
Hydrogen peroxide used in pickling process preceding enameling (appliances), 7/6, p.59
Superalloys produced by powder process, 9/21, p.20

Power Generator: See Electric Power

Power Tools:
Angle skiving tool for producing small electric motors, 7/13, p.75

Power Transmission:
Magnetic clutches, 8/24, p.45
NASA offers quick acting, overrunning clutch (ideas with industrial potential), 10/12, p.151
Power without wires, Raytheon Lab (helicopter climbed on power beamed via microwaves), 11/9, p.18

Presses:
200,000 ton press for AF proposed by Wyman-Gordon, 10/5, p.29
Automated forging press (BISRA, 11/9, p.33
Extrusion press allows fast die changes, 11/30, p.64
Hydraulic punch press (ball forming), way to flare big parts (space vehicles), 11/23, p.116
Stamping press motor automatic, reduces vibration, 7/6, p.35

Pressure Vessels:
High pressure (8000 psi) tank of D6AC steel for Titan, 8/31, p.90
Weld overlay solves corrosion problem, 11/2, p.114

Price Buying:
Price buying vs profitability (Eriez speaker), 11/23, p.34

Price Fighting:
Editorial: Monkey on our back, survey of metalworking managers, 11/9, p.15
Metalworking managers surveyed: Price fighting—still No. 1 problem, 11/23, p.41

Prices:
Aluminum ingot price boost, Alcoa initiates, 11/23, p.42
Japanese iron and steel group (SASP) push for stable price standard, 10/19, p.49
Magnesium cut, speculation, 10/12, p.44
Metals prices increase with boom, 8/10, p.43
Metal prices, growing concern, 10/26, p.25
Nonferrous outlook, 9/21, p.28
Nonferrous prices, have they settled yet? 10/26, p.26

Printed Circuits: See Electronics

Production:
Steel ingots, 1st half forecast by Block, 12/28, p.9

Production Processes:
How We'll Manufacture Tomorrow:
8. Product protection opens new routes to profits (during and after manufacture), 8/3, p.43
9. Quality: A multibillion dollar opportunity, 9/28, p.75
10. Material handling: 'Last frontier' for big savings, 10/26, p.41
11. Assembly: Breaking a half century of tradition, 11/9, p.61
12. You can do more with packaging, 12/14, p.53

100 lathes a week move off assembly (hydrostatic flow) lines, English firm, 7/27, p.84
Auto line: From clay models—to tape—to die, 7/20, p.50
Cincinnati Milling's selling technique spells out production methods to customers, 9/21, p.41

'Depth studies' pinpoint costly operations at Vertol Div., 7/20, p.56
Dolly production line cuts labor costs (conveyorized line and job shop approach) Diebold, 7/20, p.61
Factory-computer controlled, close to reality, 10/12, p.33
Space-scientific information may cut manufacturing errors in private industry, 10/26, p.31

Productivity:
Raise productivity to make incentive pay system do what it should (Cyrol and Boehringer), 8/10, p.90

Profitability:
Drop Forgers-accounting meeting addressed by Ament: Spend money to save money, 9/28, p.33
Drop Forgers: Take the guess out of guesstimating, new estimating concept (accounting conference), 10/19, p.125
Cincinnati Milling (Mathias) new selling technique: Five Paths to Profit, 9/21, p.41

Profit Sharing:
Companies with profit sharing plans since '63: Metzger (PSRF) reports trends, more flexibility, 11/2, p.44

Profits: See Financial

Pumps:
Electromagnetic pump, Atomics International Div., TO, 9/28, p.20
Molten metal pumping or stirring done by electromagnetic pump, TO, 10/26, p.19

Punches:
Hydraulic ball forming: Way to flare big ports (space center), 11/23, p.116
Tantalum strip punched with holes by ordinary sewing machine to make thin film filaments, 7/13, p.18

Purchasing:
A way to tell what materials really cost (Cummins Engine procurement program), 7/6, p.48

Q

Quality Control:
How we'll manufacture tomorrw: Quality—a multibillion dollar opportunity, 9/28, p.75
Reliability program at Westinghouse, 12 steps, 11/2, p.100

Quenching:
Quench process (General Dynamics) lessens distortion, 12/21, p.19
Rapid quench boosts production (McInnes Steel), oil change in 90 seconds (Houghto-Quench K), 10/5, p.62

R

Radiation:
Giant radio heliograph in Australia, forecast for storms in sun's atmosphere, 11/30, p.18
Microwave radiation, new vistas for gaging, testing, analysis, 7/20, p.60
Pilot plant for 'novawood' processing, 12/21, p.19

Radioisotopes: See Atomic Energy

Radio, Television:
TV system, 'eyes' for electron microscope, sees images never before revealed, 10/5, p.19
Transistorized TV set at Emerson, $150, 7/6, p.17
X-ray TV inspection for electrical parts, 9/14, p.178

Railroads:
Auto carriers, boom, 11/2, p.35
Cargo containers for freight shipments, 8/10, p.106
Consolidation need (Pittsburgh & Lake Erie president), 7/27, p.34
Piggyback, '64 traffic, 12/28, p.22
RRoilway vehicles transport automobile-passengers, 10/19, p.146
Swedish State Railways, remotely controlled electric switch engine at shunting station, 9/28, p.146

Rapid Transit: See Transportation

Raw Materials Discovery: See Oceans

Reactors: See Atomic Energy

Recruiting: See Engineers

Refractories:
Small brick test reveals as much as larger samples, 7/27, p.34

Refractory Metals:
Alumina silica refractories test, 7/20, p.20
Cold extruded at Aerojet, 8/31, p.29
Coated refractories for aerospace, 8/31, p.47
Supersaturating refractory carbides with carbon raises resistance to thermal shock, 10/26, p.31
InFab mill, precision shape rolling extends to reactive and refractory metals, 9/28, p.104
Tungsten-rhenium, high room ductility, 9/21, p.55

Reliability:
Reliability's big saving is customers, Westinghouse's 12 step program headed by Daly and Ockerman, 11/2, p.100

Rensselaer Polytechnic Institute:
Dr. Foa: Steel pipeline (tube transportation), freight or passenger cars at 2000 mph, 8/24, p.17

Research & Development:
Battelle predicts R&D spending, 12/21, p.17
R&D expenditures level off, 7/27, p.35
Research managers warned to organize efforts and motivate staffs, 8/31, p.30

Resistors:
IBM machines test, assemble electronic components, 10/19, p.115

Retainers: See Bearings

Rivets: See Fasteners

Rockets: See Space Materials

Roll Bonding:
Aerospace forecast: Sandwich structures roll bonded, 8/24, p.46

Rolling Mills:
Automatic mill for roll forming wide, thin gage (Dilley-Formatic Panel System), 10/26, p.50
British research, miniature rolling mill and modeling clay (Plasticine) for simulation studies, 8/31, p.18
Gary Wks. five stand cold reduction mill rolls wider, thinner sheets, 9/28, p.146
Machine finishes mill rolls vertically, 10/5, p.30
Precision shape rolling (InFab mill) expanded to reactive and for refractory metals at U-C Steel, 9/28, p.104
Tracer control system for reworking rolls (Canadian wire rolling mill), 12/7, p.131

Rubber:
Rubber matrix (Silastic) used in electroforming molds, parts, 7/27, p.49

Russia:
Austenitic steel welding, new techniques, TO, 10/5, p.20
Auto exports '63 up, 12/14, p.96
Balls made from cast iron last longer, TO report, 8/10, p.36
Basic oxygen practice lags that in U. S., 10/19, p.120
Blast furnace uses crude oil distillation residues as substitute for coke, 11/30, p.19
Cast stone replaces metal (resistant to acids), TO, 11/2, p.36
Electroslag refining lowers gas content of copper, 8/17, p.20
Machine converts powdered metal into rolled sheets and wire, TO, 11/23, p.36
Plastic dev. for truck wheels, 10/19, p.190
Steelmaking convention, Soviet Union, 12/21, p.19
Trial heats with two oxygen converters of 110 to 130 tons, TO, 8/24, p.20
U. S. machine tool builders postpone visit, 8/24, p.19
Vacuum arc melting of steel alloys results in element losses, scientists claim, 11/9, p.17
Welding by radio frequency, TO, 9/28, p.20

Plasma makes a better weld (heavy walled stainless tubing), Republic Steel, 10/19, p.116

Welding (Resistance):
Spotweld quality checked by new system (BWRA), 9/28, p.77

Welding (Stud):
Studs welded to zinc castings, 11/2, p.111

Wire:
Copper conductor wire, protective layer, duplex tech., 12/14, p.69
Wire wrapping, processing machines speeded by N/C, 8/31, p.48

Wire Reinforcement Institute:
Elects president, B, 7/6, p.36
Moves, B, 9/14, p.51

World Marketing: See Foreign

Wrenches: See Fastening

X Y Z

X-Ray:
Microscopes operate on ultraviolet light or x-ray (forecast), 10/19, p.36
Rock Island Arsenal double checks x-ray with ultrasonics, 9/28, p.100

COMPANY INDEX

A

ACF Industries Inc.:
Green coated ball valve resists corrosion, IE, 9/7, p.102
Improvements in adjustable drive, IE, 7/20, p.118
Solid state drive for tool spindles, IE, 12/28, p.61

Academy Die Casting & Plating Co.:
Setscrew unit (Setomatic), 9/21, p.51

Acco Equipment Div.: See American Chain & Cable

Acheson Colloids Co.:
Thread lubricants meet special requirements, IE, 11/16, p.130

Acme Industrial Co.:
Lathe, short run benefits, IE, 11/16, p.129

Acme Mfg. Co.:
Buffing lathe handles irregular shapes, IE, 11/23, p.176

Acme Precision Products Inc.:
Buys Bosworth Mfg., B, 11/2, p.52

Acme Quality Paints Inc.:
Nontoxic paint prevents corrosion, IE, 11/23, p.177

Acme Steel Co.:
Acme Steel Reporter, 17 minutes for profit (editorial), 8/24, p.15
Annealing-tempering facility at Newport, Ky., features Vertohort unit (bypasses coil rewinding) and Bliss four-high temper mill, 11/9, p.74
Frictionless molds spur continuous casting (bars and billets), 7/6, p.31
How a management team reshaped a steel company (Griffiths cover pic), 10/5, p.43
Interlake Iron merger, 10/26, p.26; and approved by stockholders, a fully integrated company, 12/21, p.32
Scrap or mixed charges feed big cupola (pic), 9/7, p.31
Strapping unit makes own seals, IE, 7/13, p.126

Acton Laboratories Inc.:
Surface microanalyzer, IE, 11/23, p.173

Adalet Mfg. Co.:
Explosionproof motor control packages, IE, 7/20, p.116

Adcole Corp.:
Computerized camshift checker, 8/24, p.45

Adhesive Engineering Co.:
Epoxy tape cures at 200° F, IE, 7/13, p.126

Advanced Metals Corp.:
Formed, B, 11/30, p.36

Aerobraze Corp.:
Tools, dies plated with titanium carbide, 8/24, p.18

Aerojet-General Corp.:
May build farm equipment, 10/26, p.35
Reverse osmosis process for desalination of sea water, 7/27, p.83
Tests deep submergence materials, 9/28, p.19

Aeronca Mfg. Corp.:
Experimental aluminum hopper car, TO, 12/7, p.36

Aerospace Corp.:
Refractory carbides resist thermal shock, new process, 10/26, p.31

Aetna Industries Corp.:
Buys William Bayley Co., B, 10/5, p.32

Air Preheater Co.:
Buys Vol-Air, B, 12/14, p.36

Air Products & Chemicals Inc.:
Expansions, B, 9/14, p.52

Air Reduction Pacific Co.:
Air separation plant, Vancouver, B, 12/14, p.36

Air Reduction Co. Inc.:
Builds second lime kiln in Louisville, B, 10/12, p.52

Airborne Instruments Lab See Cutler-Hammer Inc.

Air-Vac Engineering Co.:
Silicone rubber fitting resists heat, 8/10, p.88

Ajax Magnethermic Corp.:
Builds semicontinuous casting machine and three induction furnaces for Japan, 11/2, p.52
Induction billet heater, IE, 12/21, p.92
Salt bath furnaces cure plastics quickly, 9/28, p.31

Alan Wood Steel Co.:
Iron powder field abandoned, 9/21, p.28

Alcan Aluminum of South Africa Ltd.:
Nonferrous cold rolling mill built by Pittsburgh Steel, B, 8/31, p.31

Alco Products Inc.:
Diesel-hydraulic locomotive, 9/7, p.35
Sold, B, 8/24, p.32

Alco Valve Co.:
Welded stainless tubing cuts valve part production costs, 8/24, p.50

Allegheny Ludlum Steel Corp.:
Basic hot blast cupola (Dravo built) for new steelmaking plant near Brackenridge, smokeless, continuous flow of molten iron to oxygen converters, 8/17, p.62; 11/9, p.36; 11/23, p.51
Consolidates tungsten carbide facilities in Carmet Co., 7/27, p.52
Buying Special Metals, 12/14, p.35
Produces stainless hollow bars for processing on automatic screw machines, 7/6, p.35

Allis-Chalmers Mfg. Co.:
Ac motors for heavy duty, IE, 11/16, p.137
Centrifugal pumps handle clear and corrosive liquids, IE, 8/10, p.169
Digital control system for coil mill, 12/28, p.19
Flame cutter electronically controlled, 10/26, p.33
French subsidiary produces three model lift trucks, B, 10/19, p.51
Fuel cell contract for NASA, 10/5, p.28
Labor contract with UAW at Gadsden, freeze wages, 10/19, p.43
Labor contract-UAW for 3 years covers five plants, 11/23, p.43
Laser (gallium arsenide) monitors transmission line current (Traser), TO, 11/9, p.20
LiquiFlex drive series, IE, 10/26, p.103
Price increases on equipment, 12/21, p.32
Stevenson: Basic changes in capital goods business, 12/28, p.9
VIP (value improvement program): Changing suppliers' ideas into productive information, 8/24, p.48

Alloyd General Corp.:
Electron beam furnace, IE, 11/16, p.140

All-State Welding Alloys Co. Inc.:
Spoolarc aluminum Primewire, IE, 11/23, p.170

Almco-Queen Products:
Machine speeds precision finishing, IE, 10/26, p.102

Alpha Metals Inc.:
Soldering flux, spatterfree, IE, 11/30, p.104

Altamil Corp.:
Builds plant to house foundry (RAD method), 11/30, p.36

Alter Co.:
Sells divisions, B, 10/12, p.52

Aluminium Ltd.:
Acquires shares of Fisher's Foils Ltd., 11/2, p.51
Enters U. S. market as fabricator (plants purchased), 10/19, p.44 and 52
Forms Alcan Aluminum Corp. to manage fabricating plants, 12/14, p.35
Kitimat reduction plant, steps taken to put in operation, 7/27, p.49

Aluminum Co. of America:
Aluminum ingot price boost, 11/23, p.42
Anoclad Type 11-T5 extrusion alloy produces many finishes, 12/14, p.33
Dry-bonding for aluminum foil-fiber composite cans, 8/24, p.30
Harper: Advice for engineers, 11/30, p.18
Harper: Speaks on developmental marketing, 11/30, p.25
Seamless tubing with aluminum alloy cladding, 11/30, p.35

Alvey Conveyor Mfg. Co.:
Air stacker classifies steel, aluminum sheets, IE, 9/28, p.148

American Air Filter Co. Inc.:
UAW-Local 791 settlement, 8/17, p.31

American Airlines Inc.:
Welding may cut weight of jet engines for SST, TO, 10/19, p.36

American Brake Shoe Co.:
AmForge: Holes made into upset forgings by hot piercing, 8/31, p.52

American Chain & Cable Co. Inc.:
Acco electric conversion unit fits hydraulic presses, IE, 8/24, p.98

American Electric Fusion Corp.:
Saw cuts tubing in production line, IE, 7/27, p.152
Tandem scarfing unit, IE, 8/31, p.93

American Gas Furnace Co.:
Furnace treats stainless, other alloys, TO, 7/13, p.125
Quench furnace works in stainless steel range, IE, 10/12, p.215

American Hoist & Derrick Co.:
Buys Bay City Electric Steel Castings, B, 9/21, p.32
Buys Calif. facilities, B, 12/14, p.36

American Hydrocarbon Corp.:
Environmental hot presses form titanium, TO, 11/23, p.36
Merges Intercontinental Mfg., B, 7/27, p.52

American Machine & Foundry Co.:
Friction welding joins aluminum-stainless transition joints, 11/23, p.166
Moves headquarters, B, 8/10, p.52
Navy plant employment doubled, 12/14, p.110
Waste treatment creates markets, Maxim Div. study, 12/7, p.114

American Motors Corp.:
Aims at big V-8 engine as option, 7/20, p.18
Disc brakes for Rambler, 10/5, p.83
Financial report '64, workers' bonus, share the profit, 11/30, p.18
Progress sharing program hits snags, 8/10, p.150
UAW agreement, alters profit sharing, 10/26, p.28

American Packaging Corp.:
Die cutting machine for skin pack cards, IE, 12/14, p.117

American Silver Co.:
Solder strip simplifies joining IE, 9/21, p.100

American Smelting & Refining Co.:
Labor pact-3 year, 8/10, p.33
Price of lead up, 8/24, p.19
Reopens Ground Hog zinc-lead mine, N. Mex., B, 12/21, p.33

American Steel Warehouse Co.:
Expansion project, new equipment, B, 11/2, p.52

American Tool Works Co.:
Lathe turns contour facings, contour shafts, IE, 9/28, p.146

Ametek Inc.:
Pressure switch actuates four circuits, IE, 9/21, p.105

AMF Western Tool Inc.:
Zinc diecastings for gears (lawn mowers), 9/21, p.52

AmForge: See American Brake Shoe

Ampex Corp.:
System reduces files to video tape, IE, 12/21, p.91

Amtron Inc.:
Preset countrol controls, IE, 9/7, p.107

Amtronix Inc.:
Socket tool aids assembly in cramped areas, IE, 10/5, p.104

Anaconda Co.:
Automatic controls monitor Butte, Mont., copper ore plant, 7/6, p.35

Anaconda American Brass Co.:
Expands facilities at Buffalo plant, 11/16, p.35
Tandem mill supplies radiator core strip, 12/7, p.126

Anchor Coupling Co. Inc.:
Forms Canadian subsidiary, B, 8/31, p.32

An-Cor Co.:
Metal coating, high corrosion resistance, 9/21, p.30

Anderson Corp.:
Zinc diecastings for gears, 9/21, p.52

Androform Industries Inc.:
Contoured titanium skins, 12/14, p.19

Anocut Engineering Co.:
ECM lathe removes 2 cu. in. per minute, IE, 8/31, p.91 and 11/9, p.33

Ansul Co.:
Twin compounds quench liquid fires, 12/14, p.31

Applied Machine Research:
Controlled energy machining: Rieger and Campbell, 8/17, p.55

Arcos Corp.:
Circomatic welding units (shell plates for tanks), 7/27, p.91
Electrode wire withstands low temperatures (making arc-welds), 12/7, p.144
Welded overlay (chromium-nickel) solves corrosion problem of pressure vessels, 11/2, p.114

Armco Steel Corp.:
$600 million plant-facilities improvements include new markets (Project 600), 7/6, p.35 and 10/19, p.51
Ambridge Wks., automated galvanizing line, 7/20, p.33

Ashland Wks., ingot conveyor system, 7/6, p. 36
Ashland Wks., Westinghouse contracts for cold reduction mill equipment, 11/30, p.36
Butler Wks., continuous casting, vacuum degassing units, 7/20, p.35
Consolidates Armco-Sheffield divisions into Steel Div., 9/7, p.28 and 10/19, p.45
Department shifts, 12/28, p.18
Expands at Houston, Project 600, 8/10, p.49
Prefab steel vacation homes, 9/21, p.18
Stainless hardenable steel for brazing, PH 13-8, TO, 7/13, p.20
Stainless Type 303 machines faster, 7/6, p.54

Armour Abrasives Co.:
Coated Abrasives Div. now separate company in Alliance, 11/23, p.51

Armstrong Products Co. Inc.:
Epoxy adhesive exhibits thixotropy, IE, 10/5, p.100

Arno Adhesive Tapes Inc.:
Polyethylene tape repairs packages, IE, 7/27, p.155

Aronson Machine Co.:
Elevating positioner for welder, IE, 10/12, p.228
We'ding positioners, IE, 12/21, p.95

Arvin Industries Inc.:
Auto mufflerless system (Arvinode), 10/12, p.200

Ashdee Corp.:
Anodic hydrocating process, IE, 9/14, p.280

Assembly Products Inc.:
Time-Tendor monitors machine running time, IE, 12/7, p.229

Associated Spring Corp.:
Buys interest in Mexican firms, B, 8/3, p.36
Buying Bowman Products, B, 10/5, p.32
Packaging service (Spring Flow Pack) holds down customers costs, 9/21, p.45

Atmos-Tech Corp.:
Cleanroom houses assembly for slip rings, 8/10, p.112

Aurora Corp. of Illinois:
Valve line, small size-low cost, 10/12, p.160

Auto Specialties Mfg. Co.:
Reactivates Benton Harbor Riverside plant, 9/28, p.36

Automatic Voting Machine Co.:
Buys Manestown Metal, B, 8/24, p.32

Automation Controls Inc.:
Unit controls electroplating bath temps., IE, 10/26, p.108

Automation Devices Inc.:
Part transfer unit, IE, 9/14, p.300

Automation Industries Inc.:
Buys stock in Mertronics, B, 8/17, p.36
Ultrasonic billet tester, 11/9, p.36

Autoquip Corp.:
Loading docks, Spartan and Herky, IE, 8/24, p.92

Avco Corp.:
Aerospace Structures Div., fluxless brazing (Avcoramic), 10/12, p.49
Composite coatings (DlPaC), 12/14, p.31

Avco-Everett Research Laboratory:
MHD generator drives rockets, 8/10, p.116

Avery Corp., P. F.:
Bubble chamber measures speed of ionizing particles under high pressure, low temp., 12/7, p.143

Avnet Electronics Corp.:
Buys Valley Forge, B, 8/31, p.32

B

Babcock & Wilcox Co.:
Breeder reactor involves electric utilities serving Ohio Valley, 8/31, p.19
Car type vacuum degassing unit, 9/7, p.29
Ceramic blanket (Kaowool) for National Valve, 12/14, p.66
Consolidates district offices, Boiler Div., 11/23, p.51

Bailey Meter Co.:
Benefit of multicomputer control system, 9/21, p.27
Modular panels for instrument mounting, IE, 11/30, p.113

Baker Oil Tools Inc.:
Computer Center pilots production operations, 8/24, p.31

Baldwin-Lima-Hamilton Corp.:
Gas-cooled reactor vessel pressure checked by 800 gages, 7/27, p.52
Manages facility formerly of Struthers Wells, Titusville, Pa., B, 7/20, p.36

Ball Bros. Co.:
Offers to buy Caspers Tin Plate, B, 8/3, p.36

Barden Corp.:
Turbine driven drill spindle for ultrasmall holes, 11/16, p.137

Bardes Corp.:
Spotwelding machines reduce cost of producing downspout elbows (automated), 9/21, p.32

Barnes Drill Co.:
Horizontal honer works on cast iron differential carriers, IE, 8/24, p.91
Kleenail units for cleaning large amounts of coolants, IE, 11/2, p.156

Barry Controls:
Varipulse shock testing machine, IE, 9/28, p.155

Basic Carbon Corp.:
Carbon, graphite powders simplify complex shapes, IE, 7/13, p.129

Basic Industries Inc.:
Buys Flow Systems, B, 8/3, p.36

Bath Co., Cyril:
Licenses Japanese firm to make stretch draw presses, 7/13, p.36
Unit forms tubing, panels (radial draw machine), IE, 7/27, p.157

Bausch & Lomb Inc.:
Fan Spacer Scope inspects inner workings of jet engines, 12/7, p.121
X - ray microscopes, forecast, 10/19, p.36

Baush Machine Tool Co.:
Buys Kearney & Trecker plant, B, 8/31, p.32

Bay State Abrasive Products Co.:
Copper bonded grinding wheels, IE, 10/26, p.105

Bean & Co., Morris:
Expands Cedarville, O., plant, B, 9/21, p.32

Beatty Machine & Mfg. Co.:
Guillotine beam punch N/C, IE, 9/14, p.281
Punching machine, IE, 8/17, p.118

Beaver Products Inc.:
Lift trucks, middleweight loads, IE, 9/28, p.150

Bede Aviation Corp.:
Sports plane, low cost, 7/27, p.51

Behr-Manning Div.: See Norton

Bell & Howell Photo Sales Co.:
Filmstrip loading featured on projector, IE, 8/24, p.88

Bell & Howell Co.:
Opens German plant, B, 10/19, p.51
Puerto Rico subsidiary formed, B, 9/28, p.36
Packaging materials, 12/14, p.53

Bell Telephone Laboratories:
Foamed polymers, small cells, new tech., 9/28, p.20
Gas lens guide laser beams through pipe over long distance, 8/10, p.34
Molybdenum disulfide lubricates ball bearings, 8/3, p.98
Picturephone aids in interviewing, 8/10, p.35

Bellows-Valvair Div.:
Directional control valve permits repacking in minutes, IE, 11/16, p.132

Bendix Corp.:
Buys Pierce-West, B, 8/31, p.32
Filter medium material aids depth and surface requirements, 10/5, p.100
Micrometrical Div., spindles with axial and radial accuracy, IE, 11/2, p.162
N/C system with multipurpose tool changing machines, B, 8/10, p.51
Positioner for jig borers, Dyna-Point 50, 9/28, p.147
Positioner for turret drill, IE, 8/3, p.102

Bendix-Balzers Vacuum Inc.:
Accessories on vacuum furnace, IE, 12/21, p.93
Electron beam unit vaporizes metals, IE, 11/9, p.126

Bennett Mfg. Co.:
Organized, B, 7/27, p.51

Berlyn Corp.:
Heating elements help extrude, mold plastics, IE, 9/28, p.148

Beryllium Corp.:
Lockalloy, new alloy combines aluminum, beryllium, 9/14, p.49

Beseler Corp.:
Heat sealer shrinks polypropylene films, IE, 12/14, p.118

Bethlehem Steel Corp.:
Basic oxygen furnaces (2) controlled from console, pic., 11/16, p.35
Basic oxygen plant, Lackawanna: Planning smooths startup of BOFs, 11/23, p.108
Capital expenditures, 1964, 11/19, p.35
Combination bar mill controlled by operator in enclosed pulpit, 10/5, p.59
Computer control for hot strip mill, Sparrows Pt., 12/14, p.71
Contracts for skin pass mill, B, 10/5, p.32
Cort reveals research for better coke process, called Formcoke similar to iron ore pelletizing, 12/21, p.17
Expands iron roll foundry, 8/17, p.81
Facsimile communications system speeds orders, 7/6, p.56
Galvanizing line may dev. at West Coast site (Pinole Point), 7/27, p.51
Martin at news conference soft-pedals talk of price increases, 11/9, p.27
Prepainted sheets and panels, 8/3, p.47
Tin mills div. formed, Sparrows Point, 8/17, p.82
Plate mill new, Burns Harbor, Ind., 12/7, p.51
Stockholders to vote on reorganization, and on merger of Bethlehem Limestone, 9/7, p.18
Water descaling system, Lackawanna strip mill, B, 12/21, p.33

Bildwel Co.:
Metal strip for auto hinges, 7/20, p.108

Birdsboro Corp.:
Blade changing time cut with 68 in. hot saw setups, 8/24, p.30
Hydraulic locking device on tube piercing mill, 11/23, p.52
Optical emission spectrometer and a pneumatic tube system improves casting, 9/21, p.51

Black-Clawson Co.:
Machine (Mark 10) finishes mill rolls vertically, 10/5, p.30
Summer Iron Wks. Div.: Exothermics increase yield of castings, 11/2, p.111

Bliss Co., E. W.:
Expands rolling mill plants in Pittsburgh, Midland, Pa., Salem, O., 8/17, p.33
Multiple die press makes can ends from sheets, IE, 8/10, p.173
Presses for Chrysler, IE, 12/28, p.63
Wide sheet rolling mill for Sharon Steel, 8/17, p.81

Bliss & Laughlin Inc.:
Buys Faultless Caster, B, 10/5, p.32
Mexican cold rolled steel bar mill (jointly with Altos Hornos), 10/19, p.51

Blue M Electric Co.:
Cooler compressor continuous, IE, 7/13, p.135

Bobinchuck Machine & Tool Co.:
Diecasting dies get larger, 11/23, p.150

Boeing Co.:
Applies planing tech. to titanium skins, 8/17, p.112
Cryogenic tank, large, flight-weight, test in high altitude chamber, 12/14, p.19
Standard welding equipment passes rocket test (Sigma equipment made by Linde), 7/20, p.63
Tough aircraft finishes also have uses on ground (catalyzed epoxy organic finish over substrate), 12/7, p.124
Vertol's 'depth studies' pinpoint costly operations, 7/20, p.56

Boise Cascade Corp.:
Buys Thermoplastic Industries, B, 9/21, p.32

Boiler Development Corp.:
Aluminum hot dip coating (Calplates process) protects ferrous parts, 8/10, p.103

Booz, Allen Methods Service Inc.:
Cost reduction programs, survey, 8/17, p.26

Borg-Warner Corp.:
Ingersoll Steel to pressure cast stainless slabs (Amsted license), 12/14, p.35
Seat belt line (Maji-Buckle), 9/7, p.89

Bostitch Inc.:
Stapler for container sealing, IE, 12/14, p.116

Boston Gear Works:
Motor speed controls dc motors, IE, 10/26, p.108

Braeburn Alloy Steel Co.:
Hot grinding billets doubles removal rates, 7/27, p.81

Brainard Safe-Ty Strapping: See Sharon Steel Corp.

Branson Instruments Inc.:
Ultrasonic cleaners, IE, 11/9, p.130 and 12/28, p.65

Braun Co., C. F.:
Welded overlay of chrome moly steel solves corrosion problem for pressure vessels, 11/2, p.114

Bridgeport Brass Co.:
Aluminium Ltd. buys aluminum fabricating facilities, 10/19, p.44
Faster aluminum annealing aids grain size control, Warren, Ohio, plant, 10/5, p.56

British Aircraft Corp.:
Electronically controlled device machines profiles (wing-fuselage joints) pic., 8/24, p.32

British Motors Corp.:
Precision molded transmission case is glass reinforced nylon, 8/3, p.20

Broderick & Bascom Rope Co.:
Sling design for safety, IE, 8/31, p.94

Brodie Industries Ltd.:
Consolidates at Ont., 8/10, p.51

Brooks & Perkins Inc.:
Buys Magnesium Co. of America, 7/27, p.52

Brown & Sharpe Mfg. Co.:
Cutting tool service centers set up, new marketing approach, 9/14, p.51
Micromasters surface grinding line, IE, 9/21, p.96

Brush Instruments: See Clevite

Budd Co.:
Disk brake units for Fairless Wks., 9/28, p.86
Hand grinders (high cycle) for metal removal, Philadelphia Automotive Div. plant, 11/9, p.69

Bulkley Dunton Pump Co. Inc.:
Pressure pump system cleans hydrodynamically, 8/3, p.103

Bunker-Ramo Corp.:
Digital computer for air separation plant, 12/28, p.18
Digital magnetic tape for N/C market predicted by Dean Freed, 7/20, p.62
Merges Teleregister, B, 7/27, p.52
N/C for complex machining, IE, 8/17, p.121
N/C contour control, IE, 11/9, p.125
N/C units shipped to Paris, 8/24, p.19

Bureau of National Affairs Inc.:
Deferred wage increases higher in '65, 11/30, p.17

Burgmaster Corp.:
Machine forms big work, IE, 9/21, p.100
Power feed pares operator fatigue, floor model turret drill, IE, 12/21, p.95

Bushwick Iron & Steel Co. Inc.:
Buys Egleston Bros., B, 11/2, p.52

Business International Corp.:
Formed to promote trade with Russia, 12/21, p.25

C

Cady Metal Fabricating Inc.:
Jaw hoist attachments carry sheets, plates, IE, 7/13, p.128

Calgon Corp.:
Buys Oakite, B, 11/16, p.36

Cambridge Wire Cloth Co.:
Self-releasing gripper sling moves bar stock at U. S. Steel, 7/27, p.89
Woven wire panel belting, IE, 9/14, p.296

Cameron Iron Works Inc.:
Builds plant in Scotland, 9/7, p.32

Carborundum Co.:
Arborless grinding wheel tests, 10/5, p.29
Carbide tool bites into workpiece, cover pic., 11/16
Ceramic fiber blanket insulates better, IE, 11/30, p.105
Hot grinding billets doubles removal rates, 7/27, p.81
Lear: Systems selling trend, buying-selling team, 11/9, p.31
Seminar demonstrates new grinding concepts aimed at steelmakers, 10/12, p.47

Carmet: See Allegheny Ludlum

Carpenter Steel Co.:
Norman Groves: Better communications between buyers of materials and suppliers, 10/26, p.46

Case Co., J. I.:
Buys Colt Mfg., B, 12/7, p.52

Ceilcote Co.:
Plastic coated tanks at P&W's plating shop, Florida, 10/19, p.118

Celanese Corp. of America:
Plastic dies cleaned in molten salt, 9/28, p.83

Central Scientific Corp.:
Vacuum pumps, rotary vane types, IE, 10/26, p.100

Centre Circuits Inc.:
Spray etcher, Chemcut Div., IE, 8/24, p.97

Centrifugal Casting Co.:
Name change, B, 9/28, p.36

Cerro Corp.:
Cerro and Chilean Andes plan joint copper project, 11/9, p.35
Fabricating facilities sold to Aluminium Ltd., 10/19, p.44

Cerro Copper & Brass Co.:
Centralizes sales office in Cleveland, B, 7/27, p.52

Chambersburg Engineering Co.:
Gravity drop hammer, wide forming range, IE, 10/26, p.101
Marketing agreement (German firm) for Beche counterblow forgers, 9/14, p.51

Champion Spark Plug Co.:
Buys Baron Steel, B, 9/21, p.32

Chemcut Div.: See Centre Circuits

Chemetron Corp.:
Billet scarfer, IE, 8/10, p.172
Buys Standard Ultramarine & Color, 7/13, p.36
National Cylinder Gas, flame cutter for A-C, 10/26, p.33

Chemicals for Industry: See Swift & Co.

Chrysler Corp.:
1965 models (Lineup) chart, 8/31, p.78
1965 car, air conditioner, 10/5, p.83
1965 cars, materials changes, 11/23, p.149
Adds space to Trenton plant, 9/7, p.31
Aluminum diecasting plant layout detailed, Kokomo, Ind., 8/24, p.71
Capital expenditures, facilities, 12/28, p.52
Chemical unit to offer machining-fluid aid, 9/14, p.51
Chrome plated plastics, 11/23, p.97
Dodge's Polara, longer wheelbase, 9/28, p.128
Drawing compound, (Cycleweld DC-2418) for dies (metal hinges), 7/20, p.108
Labor pact, highlights, 9/14, p.43
Lubrication tips for better drawing: J. E. White, Chemical Div., 7/6, p.45
Portable electro-optical measuring unit, Twist Monitor, 10/5, p.20
Presses shipped to Sterling Stamping plant, Detroit, 10/19, p.52
Quality system in assembly, 9/28, p.76
Saturn IB recovery system, New Orleans, 7/6, p.29
South Africa, car production brisk, 10/26, p.82
Townsend: Computer information in business management a success, 10/19, p.34
Townsend: Optimistic auto outlook, 8/24, p.19
Whitecollar-union benefits, 10/5, p.27
Zinc diecast panels takes New Jersey Zinc award, 9/28, p.29

Cincinnati Milling Machine Co.:
EDM machine (Royal Scotsman) combines capacity, accuracy, IE, 10/12, p.228
Horizontal milling machines, IE, 8/10, p.167
Hydroform presses, IE, 7/20, p.109
Mathias: Presents new marketing technique, Five Paths to Profit, 9/21, p.41
N/C applied to broach, 8/24, p.44
N/C on die production equipment to make three dimensional connecting rod die block (programed by a student), subroutines called SMART, 11/16, p.66
Rotary index machine for Westinghouse, adaptable device machines turbine blades at seven stations, 12/28, p.28
TwinGrip method supports grinding wheel to centerless grinder, IE, 10/26, p.100

Cincinnati Shaper Co.:
Automatic knife cycling on shears, IE, 7/20, p.115

Cincinnati Sub-Zero Products Inc.:
Equipment delivers wide heat range, IE, 10/12, p.218
Test stand has five temp. zones, IE, 10/26, p.100

Clad-Rex: See Delta-Chicago

Clair Mfg. Co. Inc.:
Quick change option converts conveyorized finisher into oscillating abrasive belt model, IE, 8/31, p.93

Clark-Aiken Co.:
Industrial turntables for 12 ton loads, IE, 12/7, p.229

Clark Equipment Co.:
Lift trucks, narrow aisle line (handle pallets), IE, 7/27, p.152

Cleco Tools: See Reed Roller Bit

Cleveland Central National Bank:
Economic seminar addressed by Dr. Rinfret, 11/16, p.26

Cleveland-Cliffs Iron Co.:
Developing limonite iron ore deposits in W. Australia's Robe River area, 12/28, p.17

Cleveland Crane & Engineering Co.:
Automatic Telestack carrier, IE, 10/26, p.98
Forms Kerma-Clark subsidiary, B, 10/19, p.52
Hydraulic press brake bends 1½ in. plate, IE, 8/31, p.95

Cleveland Dynamics Corp.:
Flashwelding scores in spaceware, 11/23, p.118

Cleveland Electric Illuminating Co.:
Besse: More jobs than skills, 9/7, p.39

Cleveland Machine Controls:
Adjustable speed drive, IE, 11/2, p.156

Cleveland Pneumatic Tool Co.:
Electrochemical milling vs. kellering, 9/14, p.33
Evaluation system boosts job shop's bidding average, 9/21, p.46

Cleveland Tungsten Inc.:
Lighting setup aids production, 9/21, p.50

Clevite Corp.:
Buys interest in Italian firm, B, 8/10, p.51
Brush Instrument, surface finish indicator, 12/21, p.51

Clifton Hydraulic Press Co.:
Laminating press does variety of jobs, IE, 7/27, p.149

Climatrol: See Worthington Air Conditioning

Climax Molybdenum Co.:
Molybdenum eases cold forming, 12/14, p.18

Coatings Inc.:
Formed, B, 8/31, p.32

Cogsdill Tool Products Inc.:
Roller burnishing payoff, 7/20, p.64

Colchester Lathe Co.:
Assembly plant, 100 lathes a week move off flow line, 7/27, p.84

Colorado Fuel & Iron Corp.:
Leases land from Apache Tribe, Ariz., iron ore deposits, 10/19, p.52

Colt Industries Inc.:
Buys H. & H. Wilson, B, 7/13, p.36

Columbus Coated Fabrics:
Vinyl coat to galvanized - corrugated sheets (building), 8/3, p.48

Comet Industries Corp.:
Buys Apex Foundry & Machine Div., B, 7/20, p.36

Commander Mfg. Co.:
Lead-Matic tappers for Verson press built for Northern Metal Products, 12/7, p.131

Commercial Shearing & Stamping Co.:
Installs induction melting furnaces, B, 7/20, p.36

Commercial Steel Casting Co.:
Castings for transport vehicles, Apollo-Saturn, 7/13, p.78

Comsat Corp.:
Early Bird (satellite) telephone via space, 7/20, p.18

Concast Inc.:
Developments coming fast in continuous casting, 12/14, p.71

Cone Automatic Machine Co.:
Eight spindle lathe, IE, 9/14, p.294

Connors Steel: See H. K. Porter

Consett Iron Co. Ltd.:
Direct reduction process combines Talbot process with Kalling-pneumatic method, 9/7, p.19
Direct reduction process tried (rotating reactor-Kaldo converts crude ore directly into steel), 11/16, p.72

Consolidated Aluminum Corp.:
Aluminum foil lamination plant in Iuka, Miss., 7/20, p.35

Consolidated Baling Machine Co.:
Hydraulic baling press, IE, 7/13, p.127

Consolidated Electrodynamics Corp.:
Electromanometer ties to computer, IE, 9/14, p.291
Moisture analyzer, IE, 12/14, p.121
Series of magnetic tapes, IE, 8/10, p.171

Container Corp. of America:
Vacuum packaging setup uses premade pouches, IE, 12/14, p.112

Container Stapling Corp.:
Box stapler, IE, 7/20, p.110
Staple, corrugated box bottoms, IE, 8/24, p.89
Stapling machine, box closure, IE, 12/14, p.121
Tray stapler for various operations, IE, 10/5, p.110

Continental Can Co.:
Corrugated boxes with tin plate foil, IE, 7/6, p.107
Easy open cans for auto products, IE, 12/14, p.120
Glow Film, new process coats metal containers, 7/13, p.31

Continental Hydraulics:
Variable volume pumps, IE, 11/2, p.165

Conversion Chemical Corp.:
Powdered zinc brightener, IE, 11/2, p.162

Cooper-Bessemer Corp.:
Connecting rod eased into gas engine compressor (cover pic), 11/9

Cooper Weymouth Inc.:
Coil stock cradle, power releases pinch rolls, IE, 10/19, p.210
Coil stock reel, air brake, IE, 7/13, p.135

Copeland Process Corp.:
Formed, equipment for disposal of waste liquor, B, 11/16, p.36

Copperweld Steel Co.:
Aristoloy expands Warren, Ohio, facilities, 7/6, p.35
Expansion, continuous casting unit, Aristoloy Steel Div., and furnaces at Ohio Seamless Tube, 8/31, p.31
Ohio Seamless: Adopts new tubing tolerances, 7/27, p.47
Ohio Seamless Tube: New marketing tack spurs expansion of facilities (layout chart), 12/7, p.118

Corhart Refractories Co.:
Openhearth refractory adds end-wall life, IE, 10/19, p.208

Corning Glass Works:
Polyethylene sleeving cushions glass drainlines, 9/14, p.180
Thin film circuits produced via nonvacuum technique, C. C. plant, 8/31, p.28

Corplan Associates:
Studies effect of automation and technology (Chicago area), pose serious skills problem, 7/27, p.45
How metalworking will look in 1980 (series)
1. Primary metals, 8/3, p.27
2. New industries, electrical, electronics, chemical processing, data processing, 8/10, p.96
3. N/C, electronics, 8/17, p.60

4. Electronics firms, nine product development areas, 8/24, p.42
5. ADP equipment forcing office industry changes, 8/34, p.50
6. Chemical industries pose strong equipment market, 9|7, p.29

Cotta Transmission Co.:
Acquires manufacturing rights for custom gearbox line from Snow-Nabsted Gear, B, 11/2, p.52

Covel Mfg. Co.:
Grinds OD, ID in one chucking, IE, 12/21, p.92
Turret lathe line, IE, 11/2, p.156

Coventry Gauge & Tool Co. Ltd.:
Tap grinding machine automatic after loading, 12/21, p.29

Cowles Chemical Co.:
Proquel compounds eliminate plating hazards, IE, 9/21, p.105

Crane Co.:
Ultrasonic tester at Midwest Fitting Div., 12/14, p.36

Crane Packing Co.:
Lapmaster finishes cylindrical parts, IE, 7/27, p.154

Cratex Mfg. Co.:
Rubberized abrasives for reconditioning jet engine blades, 11/30, p.61

Crescent Niagara Corp.:
Buys Bridgeport Hardware, B, 7/27, p.52

Crest Ultrasonics Corp.:
Ultrasonic cleaner, multifrequency concept, IE, 7/20, p.114
Ultrasonic cleaning tanks-rinse tank, IE, 10/26, p.109

Cromwell Paper Co.:
Clam Shell Container Bag for 12/14, p.116

Crosby Valve & Gage Co.:
Pumpdown quick on vacuum test bench, IE, 7/6, p.98

Cross Co.:
Gear deburring-chamfering machine adapts to loading mechanisms, IE, 8/24, p.94
Specials hold tolerances in production work, IE, 8/3, p.102
TransferMatics machine carrier assembly, IE, 12/21, p.92
Trunnion machine flexible, IE, 10/26, p.98

Crown Controls Corp.:
Counterbalanced lift truck, stacks drums, IE, 8/17, p.114
Walkie stacker, removable operator platform, IE, 7/13, p.132

Crucible Steel Co.:
Continuous casting unit for Midland, Pa. (curved mold type), 8/10, p.33 and 8/31, p.31

Cummins Engine Co.:
A way to tell what materials really cost (purchasing castings), 7/6, p.48
Special machine (Kaufman) tailored to requirements, drills, counterbores, taps forged steel flanges, 8/24, p.94

Cunningham Co., M. E.:
Fixture for marking pipe nipples, IE, 9/21, p.103

Custom Coach Corp.:
Luxury coaches, function-safety, 12/28, p.17

Cutler-Hammer Inc.:
Airborne Instruments Lab: Laser calibrator for the shop, 9/28, p.97
Flux control automated for oxygen converters, 9/14, p.156
SCR drives with fractional hp units, IE, 10/5, p.109

Cyrol & Co., E. A.:
How to make an incentive pay system work: Raise productivity, 8/10, p.90

D

Danto Associates, Raymond E.:
Skilled labor, recommendations, 8/31, p.18

Data Systems Inc.:
Small computer (file drawer size), IE, 9/7, p.107

Datex Corp.:
N/C wire processing machine, 8/31, p.48

Davy United Instruments:
Combination sensing device-x-ray tests thickness, width of hot steel strip, 10/12, p.147

Dayton Etched Products Corp.:
Changeover from gas to electric lift trucks easy with Exide's meter plan (pay-as-you-can battery power), 11/23, p.122

Dayton Malleable Iron Co.:
Expands Ironton, O., Malleable Div., B, 8/17, p.36

DeKoven Mfg. Co.:
Muffler market, 9/7, p.90

De Laval Turbine Inc.:
Transamerica Corp. a subsidiary, 7/20, p.36

Deere & Co., John:
Sacks: Role of materials manager growing, 11/23, p.44

Delta-Chicago Inc.:
Thin-film vinyl laminated to sheet steel and aluminum (Clad-Rex Div.), 9/28, p.102

Delta Sonics Inc.:
Ultrasonic transducer (Somat) aids welding, soldering, grinding, IE, 7/13, p.131

Demarkus Corp., Louis:
CO_2 plant shipped in prefab steel building, 7/20, p.29

Detrex Chemical Industries Inc.:
Acquires Manpro Corp., 12/14, p.35

Detroit Brass & Malleable Co.:
Merges with Malleable Iron Fittings, 7/20, p.35

Detroit Broach & Machine Co.:
Pot broacher roughs, finishes external forms, IE, 7/6, p.97
Tracer lathe for heavy work, IE, 8/3, p.99
Vertical pull-up broach, IE, 9/21, p.106

Detroit Hoist & Machine Co.:
Bridge crane for hazardous areas, IE, 7/20, p.110
Bridge cranes, kit form, IE, 12/7, p.224

Detroit Steel Co.:
Computer control for hot strip mill, Portsmouth, O., 9/7, p.31

Deutsch Fastener Corp.:
Bundle-Loc jig, bolting device, IE, 8/10, p.167

DeVlieg Machine Co.:
Diatrol II Jigmil, 8/10, p.89

Di-Acro Corp.:
18 station stylus operated turret punch press, IE, 9/28, p.151

Di-Dro Engineering Co.:
Builds hydraulic control system for Metal Flo's cold forming method, 12/14, p.61

Diebold Inc.:
Dolly production line cuts costs, faster than fully conveyorized, 7/20, p.61

Digitronics Corp.:
Data-Verter unit speeds data from field salesmen to computers, 11/23, p.120

Dilley Corp.:
Automatic mill roll forms wide, thin gage (for Metal Structures), 10/26, p.50

Dixon Automatic Tool Inc.:
Automatic positioner for parts, 80 fed per minute, IE, 11/23, p.170

DoAll Co.:
Bagged-packaging instead of crates, 12/21, p.50
Powered dolly-saw cuts long bar stock, etc., IE, 8/24, p.87
Te'ematic order processing system for electronic buying, 8/3, p.31

Dodge Mfg. Corp.:
Capital expenditure program, B, 8/10, p.51

Doehler-Jarvis: See National Lead

Dominion Foundries & Steel Ltd.:
Expansion program includes temper mill, additions to hot mill, B, 9/21, p.32

Dominion Steel & Coal Corp.:
Splits into two management companies, B, 10/21, p.52

Donegal Steel Foundry:
Induction melting furnace, intermediate frequency, 12/14, p.69

Donovan Wire & Iron Co.:
Buys Central Steel Tube, B, 10/26, p.36

Dorr-Oliver Inc.:
Fluidization for high grade iron ore (with Italian firm), direct injection of fuel oil, 9/28, p.31

Douglas Aircraft Corp.:
Concept of global rocket transport (Pegasus), 10/19, p.34
DC-9s, 2-per-week by mid-1966, 7/27, p.47
DC-9 usage of titanium, 8/3, p.31
Douglas Jr.: Aerospace firms seek Export-Import bank financing, 10/19, p.47
Multiple tube bending method, TO, 11/16, p.18
Sandwich structures roll bonded, new technique, 8/24, p.46
Wirewrapping logic panels N/C, 8/31, p.48

Dow Chemical Co.:
Buys acres in Mesabi ore range, 12/14, p.36
Chemical eliminates cleaning of boilers, EDTA, 10/26, p.49
Magnesium price cut brings incentives to aluminum smelters, alloyers, 10/12, p.44
Pigma weld process (pressurized, inert gas, metal arc method) dev. with AEC, Rocky Flats Div., 10/5, p.30
Precision Fabrication Services, new facility at Denver, 8/10, p.51
Rubber matrix (Silastic RTV) used in electroforming, 7/27, p.49
Silicone rubber fitting, 8/10, p.88

Downing Box Co.:
Saran latex, plastic coated corrugated box, IE, 12/14, p.114

Drake Mfg. Corp.:
Gundrill options, IE, 8/17, p.116

Dravo Corp.:
Basic hot blast cupola for Allegheny-Ludlum, recovers gases for preheat, 8/17, p.62

Drillmation Co. Inc.:
Drillmation bore drilling unit, IE, 8/17, p.114
Gun drill for fast work, IE, 11/30, p.104
In-Line transfer machine fed from hopper, 12/7, p.224
Trunnion type index, 11/2, p.156

Duffers Associates Inc.:
Optical strain gage, IE, 10/12, p.217

Duncan Electric Co. Inc.:
Buys Gray Stamping, B, 7/27, p.52

Dundick Corp.:
Throwaway gage concept nets savings (Fick reports), 7/6, p.33

Dunham Tool Co. Inc.:
Vacuum chuck for workholding, IE, 8/3, p.110

Du Pont de Nemours & Co. Inc., E. I.:
Delrin AF (teflon fibers dispersed in acetal resin), IE, 7/27, p.149
Markets Ionomeric plastics with glasslike transparency (Surlyn A), 9/14, p.49
Teflon, Tedlar face laminated plastics, 11/9, p.33

Dyna Corp.:
Little adjustable speed drive, IE, 11/9, p.132

Dynalectron Corp.:
Annealing gas facility at Mingo Oxygen plant, 12/14, p.36

E

Eagle-Picher Co.:
Buys Davis Wire, B, 10/26, p.36

Eastman Kodak Co.:
Infrared phosphor screens, research tool, IE, 7/6, p.103
Teams with Consolidated Electrodynamics to market magnetic tapes for instruments, 8/3, p.17

Eaton Mfg. Co.:
Fuller Transmission Div.: Flame control (fuel system change) lessens carburizing furnace downtime, 11/9, p.72
Hydraulic coupling line, Dynamatic Div., IE, 9/14, p.292
Nonmotorized drives, IE, 7/6, p.107
Transistor control for drives, IE, 8/3, p.110

Eclipse Fuel Engineering Co.:
Air burners for carburizing furnaces, 11/9, p.72

Edgewater Steel Co.:
Buys Janney Cylinder, B, 12/14, p.36

Edie & Co. Inc., Lionel:
Dr. Rinfret forecasts continuous business boom, economic seminar, 11/16, p.26

Edlund: See Monarch Machine Tool

Edwards Iron Works:
Semiautomatic welder penetrates problem of tight squeeze (compactor wheels), 12/28, p.23

Elcar Engineering Co.:
Wire drawing machine, IE, 9/28, p.158

Eldorado Tool & Mfg. Corp.:
Gundrill, IE, 11/2, p.155
Universal drilling system, IE, 8/10, p.176

Electro Arc Mfg. Co.:
Carbide impregnator, bench type, IE, 7/6, p.107

Electro-Nite Inc.:
Molten metal level control for Porter, 8/24, p.87
Portable unit tests thermocouple systems, IE, 12/7, p.224

Electro-Optical Systems Inc.:
Infrared laser beams for underwater signaling, 8/10, p.47
Laser applications, 7/27, p.85
Solar panels in Ranger Seven lunar vehicle inspected, TO, 8/17, p.20
Sun pumped laser needs no cryogenics, TO, 8/31, p.20
Thermionic microscope aids refractory metal grain growth and recrystallization studies, 11/23, p.33

Elox Corp. of Michigan:
Econo-Pak EDM package, IE, 11/2, p.164
EDM line for heavy workpiece, IE, 8/3, p.99

Elwell-Parker Electric Co.:
Solid state controls for heavy duty trucks, 7/20, p.35
SCR powdered coil handling truck, IE, 10/19, p.210

Emerson Electric Mfg. Co.:
Davis: Cost reduction program, 8/17, p.25
Welder provides 16 levels, ac and dc, IE, 10/19, p.212

Emerson Radio & Phonograph Corp.:
Market $150 transistorized TV set, 7/6, p.17

Enco Mfg. Co.:
Cross slide turrets use ball indexing, IE, 11/23, p.170

Engelhard Industries Inc.:
Purifier for hydrogen gas, IE, 11/2, p.160

Englis Equipment Co.:
Talysurf instrument detects, records surfaces, IE, 10/19, p.208

Enterprise Machine Tools Inc.:
Lathe for small machine shop, IE, 11/30, p.107
Lathe for tracer work, 5 hp, IE, 8/17, p.123

Enthone Inc.:
Electroless plating (nickle), 8/3, p.51

Epoxylite Corp.:
Epoxy adhesive has high strength at 500° F, IE, 8/24, p.97

Erie Art Metal Co.:
Buys Artisan Metal Works, B, 10/12, p.52

Eriez Magnetics:
Electromagnetic filter effective with liquids, IE, 11/9, p.133
Magna-Rail device holds cans magnetically, 7/27, p.88
Magnetic handling solves common, specialized problems, 12/14, p.62

Eriez Mfg. Co.:
Merwin: Price buying vs profitability, 11/23, p.34

Esco Products Inc.:
Joins with Universal Grinding Wheel Ltd. to form Easco-Sparcatron Inc., 11/2, p.52

Etco Tool & Machine Co. Inc.:
Drill head adaptable to lead screw tapping, IE, 8/3, p.108

Everite Machine Products Co.:
Wheel advancement for electrolytic form grinding, Copperdyne wheel cover pic., 12/21, p.42

EverLube Corp.:
Thin coat of solid film lube ends hot galling problem, IE, 10/5, p.107

Ex-Cell-O Corp.:
Custom precision boring machines (six) process auto connecting rods, 10/12, p.52
Precision boring machine, IE, 9/21, p.102
Standard precision boring machine produces auto gear blanks, 7/27, p.150

Executone Inc.:
Pocket pager with intercom system, IE, 11/9, p.132

F

Fafnir Bearing Co.:
Retainer design keeps high speed bearings cool (grease tests), 8/31, p.51

Falk Corp.:
Couplings, reducers exhibit, IE, 9/21, p.103

Famco Machine Co.:
Shear line, pneumatic clutch, IE, 12/28, p.61

Fannon Products: See Hupp Corp.

Farrel Corp.:
Automatic unit extrudes aluminum billets, IE, 9/28, p.152
Builds huge N/C unit for Westinghouse to machine turbine generator frames, 8/3, p.59
Forging manipulators on press, track mounted, IE, 11/30, p.106
Platen area on press, IE, 7/6, p.103

Fate-Root-Heath Co.:
Plymouth Locomotive: Scale car checks, totes ingredients for complex heats, 8/17, p.113

Fawick Corp.:
Drum brake stops motors to 10 hp, IE, 12/28, p.65
Dual-pressure sequence valve improves pump, IE, 8/24, p.88
Magnetic clutches, Airflex Div., 8/24, p.45
Single type lock and counterbalance valves, IE, 11/23, p.172
Unit controls fluid flow from remote position, IE, 7/13, p.128

Federal-Mogul-Bower Bearings Inc.:
Builds corporate-division office complex in Southfield, Mich., B, 10/5, p.32
Buys Haller Inc., B, 10/26, p.36
Expansion plans and philosophy outlined by Peppiatt and Wright, financial profile, 7/27, p.129
Merges with Sealed Power, B, 8/3, p.35

Federal Products Corp.:
Comparator checks balls, IE, 7/20, p.112

Ferguson Machine Co.:
Reducer integral on motorized clutch-brake, IE, 7/6, p.108

Ferranti Electric Inc.:
Measuring system ups machine tool output, IE, 11/30, p.110

Ferro Corp.:
Monitor, battery powered, gages coat thickness, IE, 8/3, p.106

Field Emission Corp.:
Exploding wire-spark discharge forming method used to study effects of nuclear explosions, 8/10, p.36

Firestone Tire & Rubber Co.:
Raymond Firestone: Overseas auto market to boom, 11/23, p.34

Firth Sterling Inc.:
Carbide grade handles tough machining, IE, 12/21, p.92

Fischer & Co., H. G.:
Spray system for flat panels (hydraulic reciprocator), mounted on tracks, IE, 8/3, p.107

Fischer & Porter Co.:
Electromagnetic flowmeter measures magnetic iron slurries, IE, 9/14, p.288
Zinc diecast award for code traffic discs, 9/28, p.31

Fisher Scientific Co.:
Electron microscope, IE, 7/20, p.120
Mixer ignores viscosity changes, 7/27, p.88

Fluid Controls Inc.:
Sequence and relief valves, IE, 7/20, p.117

Fluor Corp. Ltd.:
Desalinization of water by nuclear powerplant feasible, 7/27, p.49

Ford Motor Co.:
Assembly line introduced in 1913, pic., 11/9, p.60
Atom breakthrough (team of scientists), new theory 'quantum system' explains how atoms and molecules behave, 7/27, p.102
Aurora-experimental station wagon (plastics use), 8/10, p.42
Electrocoating, paint process, 8/3, p.47
Expands Sterling, Mich., plant, 9/7, p.90
Forms subsidiary in Lima, Peru, B, 8/3, p.36
Stamping plant, Woodhaven, Mich., planned (Hole and Kalander check model, pic), 7/20, p.89
Wankel powerplant in car by '67, 7/27, p.35

Ford Motor Co. of Australia Ltd.:
Reports 1963 losses, 9/28, p.29

Foseco Inc.:
Cost cutting processes: A liquid ceramic facing material, and exothermic sleeves, for casting finish, 7/27, p.88
Exothermic hot topping material, low density, IE, 7/27, p.157
Hot top system (Profax) upgrades ingot integrity, yield, 12/21, p.49

Foundry Equipment Co.:
Dielectric oven reduces core handling and breakage costs, IE, 11/16, p.136

Foxboro Co.:
Alarm scanner, IE, 11/23, p.177

Frasse & Co. Inc., Peter A.:
Buys Cambridge Steel Service Center, 7/6, p.36

Friden Inc.:
Automatic set screw driving machine pares assembly costs, 11/30, p.61

Fruehauf Corp.:
Buys Hanson Bros., B, 7/13, p.36

Fuller Transmission: See Eaton Mfg. Co.

Furane Plastics Inc.:
Adhesive bonds to oily surfaces, IE, 9/14, p.276
Polyurethane foam (Uralane 1723) has longer reaction time, IE, 9/28, p.150

Fusion Inc.:
Automatic silver brazing machine, 7/20, p.64
Soldering and brazing, automation speeds operations, 9/21, p.48

Future Products Corp.:
Formed, B, 8/31, p.32

G

Gaiser Tool & Engineering Co.:
EDM for small holes, 8/10, p.35

GAR Precision Products: See Heli-Coil

Gar Wood Industries Inc.:
U. S. Marine contract: Aircraft tow tractors with hydrostatic drive, 7/13, p.110

Gardner-Denver Co.:
Wire wrapping machine controlled by IBM cards, 8/31, p.49

Garlock Inc.:
Buys Michigan Precision Molded, B, 12/7, p.52

Garret-AiResearch:
Automatic programed to triple drilling-tapping on turbocharger center housings, 7/6, p.50

Gene Rose Chemical Co.:
Aerosol cans on conveyor held magnetically, 7/27, p.88

General American Transportation Corp.:
RRoilway concept combines rail, auto travel, 10/19, p.146

General Atomic Div.:
Scientists bombard samples of materials in research reactor, cover pic, 7/6

General Corrugated Machinery Co. Inc.:
Stacker, counts, classifies sheets, IE, 8/3, p.104

General Dynamics Corp.:
Electromagnetic former is modular, IE, 10/19, p.208
Floating grinder hones ultraflat floor surface, 12/7, p.51

General Dynamics/Astronautics:
C-gun welds thin skins of Atlas and Centaur, pic, 7/13, p.36
Dempsey: Space conquest a 'Lewis and Clark', timetable to Venus and Mercury, 10/19, p.35
Replacement of metal potting mold by one of plastic, cost reduction, 8/17, p.26
X-ray TV inspection of electrical parts, 9/14, p.178

General Electric Co.:
AC power controller (Power Pac), 11/30, p.113
Adhesive bonds, load plates to airframes, 7/20, p.33
Advance in mass spectrometry (monopole partial pressure analyzer), TO, 10/19, p.36
Atomic reactors 'off the shelf' item, price list issued, 10/5, p.18
Chrome alloy for turbine rotors, pic., 8/10, p.95
Closing Holyoke, Mass., plant in 2nd quarter, '65, 12/14, p.35
DC mill motor redesign proposed on AISE standard, 10/19, p.44
Digital computer (412) automates plants of Spencer Wks. (RT&B), Britain, 12/28, p.18
Electroforms aluminum for space (reentry) work, 7/13, p.33
Hanford Atomic (Richland, Wash.) tubing joints-mechanical, 9/14, p.34
Instrument rental, repair services, 10/26, p.35
Instrument's benefits, size-accuracy, IE, 11/9, p.131
IUE-Schenectady plant strike: What happens when incentives go awry (piecework employees earning over $10,000), 7/6, p.25
IUE-Schenectady: Mediation steps with union, 9/14, p.34
IUE-Schenectady pact scraps incentive wage system, 10/12, p.43
Joelson (corporate planner): 'Think International' to stay competitive, 7/6, p.28
Licenses Norton to make EAG wheels (electrochemically assisted grinding), 11/2, p.49
Mark Century 120 control unit, IE, 8/17, p.113
Modernization program $60 million follows GE-IUE pact, 10/12, p.43
NLRB decision on unfair labor practice case, Virgil Day (negotiator) appeals, 12/21, p.17
NLRB ruling on collective bargaining with IUE, 12/28, p.15
N/C downtime costs sliced (by close records) at Ordnance Dept., 11/2, p.103
N/C system makes lathe its own inspector: T. E. Shipley Jr., 8/3, p.52
Overseas investments, French firm (Bull), 8/10, p.49
PSE molybdenum extruded, 9/14, p.49
Plastic producing tech. new polymers (PPO), 12/7, p.44
Potentiometer control of photoconductive cell, TO, 10/26, p.20
Process computer market: $40 million this year (Lou Geiger predicts), 8/10, p.45
Pyrolytic graphite for testing applications, IE, 7/13, p.126
Solid state digital system (GE/TAC), IE, 11/23, p.172
Space 'rubber ball' vehicle design, Re-entry Systems Dept. (piggyback on spacecraft), 7/6, p.18
Spiral machining for fuel discs, 10/12, p.159
Systems package (GE/MAC) for Gary plant to control OSM furnaces, 8/10, p.87
Tensiometers applicable for new, old mills, IE, 11/2, p.162
Tungsten-rhenium, new refractory alloy, 9/21, p.55
Turbine plant (Mass.) gets huge N/C machines, 11/23, p.49
Vacuum units, pumping capacities, IE, 8/3, p.109
Vacuum system leaks detected by portable unit, IE, 9/14, p.302
X-ray radiographic unit, 12/7, p.49

General Electric Credit Corp.:
Financing plan for equipment buying, 7/27, p.43

General Motors Corp.:
1965 car: Tilt and telescoping steering, 10/5, p.83
AC Spark Plug: Gyroscope cleaned in pressure chamber, clean air, 8/10, p.117
AC Spark Plug: High speed soldering of spindle armature for auto gas gages, 12/14, p.31
Allison Div.: Large steel tank for Titan holds 8000 psi, 8/31, p.90
Cadillac, new perimeter frame, styling, 9/28, p.128
Capital spending, facilities, 12/28, p.52
Car drawings by computer (DAC-1 system), Research Center, 11/2, p.139
Central Foundry Div., brazing cycle converts ferritic to pearlitic (transmission parts), 7/13, p.75
Chevrolet adds 131 models to truck line, 9/7, p.89
Chevrolet breaks ground for nodular iron foundry, Saginaw, 10/19, p.190
Computer design facilities report, 10/26, p.18
Delco Products, power-up dated motors, 12/28, p.66
Expands pilot assembly line, Flint, Mich., 11/16, p.106
Plastic packaging aids part stocking, 9/7, p.90
Scientists use electron probe microanalyzer to investigate problems (cover pic), 9/28
Tester (static bend) evaluates hydrogen embrittlement of hardened steels, 11/16, p.31
Thermal engine, low noise level, for Army communications, 7/27, p.130
UAW pact slowed by local union issues, 10/12, p.41

General Precision Inc.:
Kearfott high frequency MG generators, IR, 9/7, p.105

Optical receiver measures mill speed (laser), 8/31, p.17

General Steel Industries Inc.:
Buys Flex-O-Lite, B, 11/16, p.36

Geneva Motions Corp.:
Indexing tables, IE, 10/19, p.208

Gerrard & Co., A. J.:
Strapping unit loads up to 5000 ties at once, IE, 8/10, p.177

Gifford-Wood Co.:
Vertical conveyor stores, handles reels, IE, 9/21, p.102

Gilman Engineering & Mfg. Co.:
Assembly machines can be rebuilt (Ford plant), 11/9, p.64

Gilmore Industries Inc.:
Conveyor weighing system, IE, 7/20, p.116

Gisholt Machine Co.:
Balancers for general purpose work, IE, 11/16, p.129
Tubing machine for pipe mills, IE, 12/7, p.223

Glass-Tite Industries Inc.:
Buys Clover Industries, B, 12/14, p.36

Glenn Pacific Corp.:
Power supply speeds welding, IE, 10/5, p.108

Goodrich Industrial Products Co., B. F.:
Two vinyl plastics extruded as one, 11/23, p.34

Goodyear Aerospace Corp.:
Antenna (Swiriabola) for space relays, 8/17, p.28

Goodyear Industrial Products:
Conveyor belt unloading, magnetic materials accept destination code pattern, 12/14, p.33

Goodyear Tire & Rubber Co.:
Buys Motor Wheel Corp., 8/17, p.97
Pliosil liquid adhesion layer aids pickling tanks, 9/28, p.88
Power cushion tires, new line, 9/28, p.128
Scientists-engineers training program; also Russian language course, 8/17, p.98
Studded tire sales expanded, 10/19, p.190

Gordon Rubber & Packing Co.:
Molds silicone rubber fitting, 8/10, p.89

Goss & Deleeuw Machine Co.:
Automatic chucking machines for long, bulky parts, IE, 8/24, p.95
Chucking machine-21 spindles, IE, 7/13, p.132

Gougler Machine Co.:
Automatic press for progressive stamping, IE, 12/21, p.91

Gould & Eberhardt: See Norton

Graham Transmissions Inc.:
Speed drive, IE, 9/7, p.102

Grangesberg Co.:
Heads international consortium (iron-steel firms), B, 10/19, p.51

Granite City Steel Co.:
Iron mine, pelletizing plant developed near Pilot Knob, Mo., 9/28, p.35

Grant Gear Works Inc.:
Mounting flanges widen speed reducer use, IE, 10/12, p.220

Gray Co., G. A.:
Machine traces, mills, grinds, planes, IE, 9/14, p.292
Roll mill doubles as general purpose type, IE, 12/28, p.60

Greenlee Bros. & Co.:
Index machine, five station, processes connecting rods, IE, 9/21, p.96
Nelson Stored-Arc studwelding fastener system, IE, 10/5, p.110
Studwelding options for Nelson's NS-20, IE, 9/7, p.107

Gries Reproducer Corp.:
80 pitch zinc alloy gears diecast, (washing machine timers) TO, 10/19, p.36
Diecast gear kit, IE, 8/3, p.105
Makes small diecastings, 7/13, p.65
Nix-Pic lock for vending machines, 7/20, p.65

Grieve-Hendry Co. Inc.:
Electric shrink, tunnel conveyor oven for plastic film, IE, 12/14, p.111

Gripall Corp.:
Weighing accessory for fork trucks, IE, 10/12, p.226

Grumman Aircraft Engineering Corp.:
IDF process, new approach to forming sheet metal (incremental dieless forming): Edward Leszak, 7/27, p.86

Guidance Controls Corp.:
Slip clutches include bearings, shafting, IE, 11/16, p.138

Guilbert Industries:
Gyro-Safety-Mount, IE, 8/3, p.100

Guar-Del Central:
New firm guarantees delivery, quality of tools and dies, 8/24, p.86

H

H & H Machine Co.:
Automatic end forming tech. for ferrous metal tubular parts, 12/21, p.51

Hamilton Standard Div.: See United Aircraft Corp.

Hamilton Watch Co.:
Automatic screw machine facilities available, 11/2, p.51

Hammond Machinery Builders Inc.:
Drypeen machine, glass bead peening equipment, IE, 12/7, p.228

Hanna Mining Co.:
Iron mine, pelletizing plant dev., Pilot Knob, Mo., 9/28, p.35

Hanson-Van Winkle-Munning Co.:
M&T acquisition, 10/12, p.52
Portable ECM drill head, IE, 10/26, p.108
Spectrophotometer pinpoints metallic contaminates in plating chemicals, 10/12, p.214

Harbison-Walker Refractories Co.:
Basic oxygen furnaces lined with Oxiline-B bricks, IE, 9/14, p.294

Harig Mfg. Corp.:
Hydraulic longitudinal feed added to surface grinder, IE, 9/21, p.101
Steptool relief and drill point grinders, IE, 8/31, p.92

Harnischfeger Corp.:
Armchair controls for crane, IE, 9/28, p.154
Buys Milwaukee Crane Div. B, 7/20, p.36
Enters welding systems field, IE, 8/10, p.176
Hoist brake conversion kit, IE, 9/14, p.291
Mechanically refrigerated cold trap reduces pumping time, IE, 7/13, p.131

Harrop Precision Furnace Co.:
Heat treat furnace line, IE, 7/6, p.104
Prefab tunnel kiln, IE, 10/26, p.107

Harshaw Chemical Co.:
Speeded plating halves system size, 8/3, p.46

Hartley Controls Corp.:
Moisture monitor checks foundry sand, IE, 10/5, p.106

Harvey Aluminum Inc.:
Aluminum reduction facility plans, 9/7, p.32
Lawrence Harvey: Possible shortage in aluminum supply, 11/9, p.27

Havir Mfg. Co.:
Design changes on press (punching, riveting), IE, 7/27, p.157
Features added to automatic press, IE, 10/5, p.110
Heavy duty Auto-Press, IE, 9/14, p.283

Hayes Inc., C. I.:
Molybdenum sintering furnace, IE, 7/27, p.154

Hayworth Inc., D. W.:
Unit diecasts parts up to 1¼ oz, IE, 9/14, p.276

Hazelett Strip-Casting Corp.:
Continuous casting machine with frictionless mold, 7/6, p.31

Heald Machine Co.:
Hole finishing alternates (boring or grinding), 11/16, p.68

Heat Systems Co.:
Industrial, lab ovens, IE, 9/14, p.300

Heidrick & Struggles:
Executive demand survey, 7/20, p.28
Executive demand at record highs (survey), 11/2, p.33

Heil Process Equipment Corp.:
Plastic (Rigidon) for exhaust system, 7/20, p.65

Heli-Coil Corp.:
Surface finish comparator kit (GAR Div.), 11/30, p.107

Henderson Engineering Co.:
Desiccant type dryer in basement of steel plant, 7/27, p.92

Hendley & Whittemore Co.:
Shears, design improvement, IE, 12/7, p.227

Henes Mfg. Co.:
Distilled water fuel for oxygen-hydrogen welding system, 8/17, p.114

Hewitt-Robins Inc.:
Speed drives, IE, 12/21, p.96

High Standard Mfg. Corp.:
Kit for lathes, gun drilling jobs, IE, 11/30, p.113

Hill Acme Co.:
Automatic forging uses, IE, 8/10, p.170
Structural mill takes deep cuts, IE, 7/27, p.147

Hirschmann Corp.:
Spark erosion unit makes small hole, IE, 9/7, p.104

Hi-Shear Corp.:
Infrared heater keeps temperature stable, IE, 9/14, p.282

Hobart Bros. Co.:
CO_2 welding for truck driveshafts, 7/20, p.64
Flex-wire welder for heavy steel fabricators, IE, 10/12, p.218
Mig welding unit, IE, 9/7, p.106
Welding trends outlined by Claussen, 7/27, p.104

Hoffman Co., J. E.:
Surface finish indicator, 12/21, p.50

Honeywell Inc.:
Bissell: Age of computer gone; age of systems coming, 11/9, p.17
EDP equipment-services (computer-peripheral equipment-customer service package), 7/6, p.29

Latrobe Steel Co.:
Die life upped with Koncor, 7/13, p.80

Latronics Corp.:
Optical pyrometer, hand held instrument, IE, 9/21, p.97

Le Maire Machine Tool Co.:
Flexible six station, dial machine with quick changeover, 11/30, p.30

Lear Siegler Inc.:
Buys Air Valves, B, 11/2, p.52
Military gyroscopes get 5-yr. warranty, 11/16, p.35

Leeds & Northrup Co.:
Cost reduction program: Stephen Loidl, 8/17, p.25
Optical pyrometer, improvements, IE, 12/7, p.230
Position sensing system, IE, 9/28, p.154
Process to make thermocouple junctions, IE, 11/30, p.110
Thermocouple checking furnace, IE, 10/5, p.107

Lees-Bradner Co.:
Hydraulic power cross feed on hobber, IE, 11/9, p.132
Single spindle gear hobber, IE, 10/12, p.229

Lennox Industries Inc.:
Analyzer pinpoints vibration in blower line, 8/17, p.66

Lenox Instrument Co.:
Borescopes test small diameters, IE, 11/30, p.106

Lester Engineering Co.:
Now a subsidiary of Todd Shipyards, B, 8/10, p.52

Levin & Son Inc., Louis:
Lathe-type machine drills tiny holes, IE, 11/2, p.163
Self-contained lathe for small work, IE, 12/7, p.232
Turret lathe produces miniature parts, IE, 9/21, p.96

Lewis Welding & Engineering
Agricultural vehicle (Gnat), TO, 11/16, p.19

Lewis-Shepard Products Inc.:
JackStacker, walkie lift truck, IE, 8/24, p.92
Lift trucks exhibited, IE, 9/7, p.103

Lewis Welding & Engineering Corp.:
Dyna-Jet injection machine molds plastic to metal parts, IE, 9/28, p.150
Ellipse welder for irregular shapes, IE, 12/14, p.119

Lewus Electric Co.:
Induction motors, capacitor starter, IE, 11/23, p.174

Lima Electric Motor Co. Inc.:
Gearshift drives, IE, 7/13, p.130

Lincoln Electric Co.:
Arcwelding speed, automaticity electrode benefits, IE, 11/23, p.168
Automatic welder works in fixtures, IE, 10/26, p.104
Bonus to employees $12.8 million, 12/14, p.17
Reduces prices again, 11/16, p.29

Lindberg/Hevi - Duty Marketing Services:
Billet heater works HERF presses, IE, 11/2, p.155
Infrared analyzer (gases, vapors) IE, 11/23, p.174
Multipurpose single chamber furnace, IE, 11/9, p.135

Linde Co.:
Laser welding step closer to production line, new solid state production unit, 11/16, p.62

Plant for applying flame plated coatings in N. C., 12/28, p.19
Sigma welding-standard equipment for Saturn rocket, 7/20, p.63

Link-Belt Co.:
Ingot conveyor system for Armco, 7/6, p.36

Linley Bros. Inc.:
Measuring unit for complex parts, IE, 8/3, p.107

Litton Industries Inc.:
Buying Universal Controls, 7/13, p.36
Buys Mellonics Systems, B, 9/21, p.32
Desk electronic printing calculator, (instant math for solving problems), 12/28, p.26

Lockheed Aircraft Corp.:
Accounting system (SNAPO), purchase orders, 9/7, p.30

Lockheed-Georgia Co.:
Computer memory linked with communication between 40 shop areas, 8/17, p.62
Wire wrapping machines speeded by N/C, 8/31, p.48

Lockheed Missiles & Space Co.:
Cleanroom chamber, polyethylene sheeting, do-it-yourself ability, 8/17, p.66
Vacuum chamber test (containing supercold liquid hydrogen), 8/10, p.87

Loctite Corp.:
Buys Laguna Scientific, B, 9/21, p.32
Hydraulic fitting sealant-fluid, IE, 9/28, p.148

Lodge & Shipley Co.:
Numeriturn II lathe, price, IE, 9/21, p.95

Logan Engineering Co.:
Electri-Matic turret lathe, IE, 11/16, p.130

Logemann Bros. Co.:
Squeeze box for scrap shear, 7/27, p.47

Loma Machine Mfg. Co.:
Extruded shapes straightened with large hydraulic machine, IE, 10/5, p.104

Lombard Corp.:
Compact press for aluminum extruders, IE, 11/16, p.136

Lord Mfg. Co.:
Viscoelastic sheet (DC-400) cuts structural noise levels, 7/27, p.49

Lors Machinery Inc.:
Two resistance buttwelders, IE, 8/10, p.173

Lukens Steel Co.:
Computerized electric furnaces, 12/21, p.29
Expansion and modernization, electric furnace, etc., 8/3, p.35
High strength steel series, 7/6, p.54
Vacuum degassing facility in operations, 12/21, p.32

Landholm Mfg. Co.:
Central filtration unit aids honing, lapping, IE, 9/21, p.97

Luria Bros. & Co. Inc.:
Disposal process for junked car bodies relegated to auto graveyards, 10/5, p.28

M

3M Co.:
Corrugated ceramics (Therma-Comb) resist heat, chemicals, IE, 8/31, p.94
Instrument measures heat transmission, IE, 11/9, p.133
Tape stapler for display cards, polethylene bag sealer, IE, 12/14, p.115
Tearstrip Adhesive, new entry in can market, 10/19, p.35
Tubing bundled with tape, 12/14, p.58

M-H Standard Corp.:
Autoloader accessory to conveyor, IE, 9/14, p.282

M & N Modern Hydraulic Press Co.:
Compression molding presses, IE, 11/2, p.160

M&T Chemicals Inc.:
Buys Hanson-Van Winkle Munning, B, 10/12, p.52
Develops copper-tin plate, other plating methods, 8/3, p.43
Forms firm in India, B, 8/10, p.52
Vinyl organosols instead of enamel on projector; parts, 10/12, p.51

MRC Mfg. Corp.:
High purity via electron beam refiner, IE, 10/5, p.104
Two part power supply, high voltage and filament, IE, 9/21, p.102
X-ray diffraction chamber (cryogenic temp.), IE, 8/3, p.103

Mack Trucks Inc.:
Friction material (asbestos and copper powder) bonded to clutch discs, 7/6, p.82

MacLean-Fogg Lock Nut Co.:
Buys Union Railway Equipment, 8/3, p.36

Maffitt Tool & Machine Co.:
Machine tools conversion to tape contouring, 11/23, p.107

Magnaflux Corp.:
Correlation approach to nondestructive test, 10/26, p.33
Dye penetrant, nondestructive test, TO, 10/5, p.20
Nondestructive testing role, better profits reports W. E. Thomas, president, 12/7, p.137

Magnus Chemical Co. Inc.:
Cleaning-rinsing metal parts, unit, IE, 8/17, p.122

Malleable Iron Fittings Co.:
Merging Detroit Brass & Malleable, 7/20, p.35

Mallory Metallurgical Co.:
Moves line to Angola, Ind., B, 7/6, p.36

Malsbary Mfg. Co.:
Phosphatizing system, large parts, IE, 8/3, p.106

Manzel:
Lube system, Lubemation, IE, 10/5, p.110

Marion Power Shovel Co.:
Crawler mounted transports (Apollo, Saturn), 7/13, p.78

Martin Co.:
Develops pulsed gas laser, Orlando, 7/6, p.29

Maser Optics Inc.:
100 amperes per pulse from laser, IE, 8/24, p.93

Masonite Corp.:
Steel rule die board dev., 11/16, p.33

Massillon Steel Casting Co.:
Patterns' influence on costs of cast parts (pictures show examples), 11/23, p.104

Mast Development Co.:
Filmstrip projector, IE, 10/12, p.222

Master Machine Tools:
Portable milling equipment, IE, 11/23, p.168
Tooling slides (feed tables) fit assembly machines, IE, 8/24, p.91

Master Specialty Products Mfg. Co.:
Sold to L & R Mfg., B, 9/28, p.36

Materials Research Corp.:
Electron microscopy (ultrashadowing apparatus), TO, 11/9, p.20

Mathews Conveyer Co.:
Merged into Rex Chainbelt, B, 12/21, p.33

May-Fran Mfg. Co.:
Unit separates oil from chips, IE, 8/17, p.118

Maytag Co.:
Labor contract, Christmas shutdown, 11/30, p.28

McDowell-Wellman Engineering Co.:
Flying Saucer discs for forming ore pellets, 11/16, p.72

McInnes Steel Co.:
Rapid quenching completely changes oil (Houghto-Quench K) every 90 seconds, 10/5, p.62

McKay Machine Co.:
Builds pipe mills for Republic Steel, 7/6, p.33
Dual cylinders on hydraulic draw bench, IE, 11/23, p.168
Hydraulic draw bench features plastic sleeves around cylinder rods, cuts repacking, 9/21, p.31
N/C lathe cuts hours from production times (chucking and shafting components), 11/9, p.77

McLouth Steel Corp.:
Dust removal system for sintering machines, 12/7, p.144

McRobert Spring Inc.:
Buys Watson Spring, B, 10/5, p.32

Mead Corp.:
Container tailored for motor sizes, IE, 12/14, p.121

Meaker Co.:
SRC plating rectifiers, IE, 7/6, p.105

Med Electronics Inc.:
Ultraviolet flashlight, United Instrument Lab, IE, 9/14, p.285

Metal Flo Inc.:
Cold forming method makes multipasses in one stroke, 12/14, p.60

Metal Hydrides Inc.:
Buys Allegheny Electronic Chemicals, B, 10/12, p.52

Metal Structures Corp.:
Automatic mill takes wrinkles out of roll forming wide, thin gage, 10/26, p.50

Metco Inc.:
Flame spray nozzles, IE, 7/6, p.102
Flame spraying hydrides of metals (titanium, zirconium), 10/19, p.140
Nickel aluminide spray keeps molten material from sticking to mold, 9/28, p.31
Sprayed-metal systems protect iron-steel against heat corrosion, 8/24, p.30

Michigan Tool Co.:
Roto-Flo forming racks, 9/14, p.47
Wheel gear grinder, IE, 9/21, p.97

Micromatic Hone Corp.:
Automatic gage checks engine piston dimensions, IE, 10/5, p.100

Microwave Instruments Co.:
Microwave radiation, new nondestructive test, 7/20, p.60

Midland-Ross Corp.:
Surface Combustion builds atmosphere and spheroidizing furnaces for Ohio Seamless Tube, 12/7, p.120
Surface Combustion, programer for batch heat treat furnace, IE, 10/12, p.219

Midvale-Heppenstall Co.:
ECM takes big bites at low cost reports C. R. Gordon, 9/28, p.84

Milford Rivet & Machine Co.:
Pedestal riveter, 5½ in. stroke, IE, 11/30, p.106

Miller Electric Mfg. Co.:
AC/DC-HF welder, IE, 9/28, p.152
Arcwelder applicable to automatic process, IE, 7/6, p.104
Electroslope control for welding machine, IE, 8/24, p.93
Jointly forms Miller Welders (Canada), B, 12/28, p.19
Tig power, constant current, IE, 11/9, p.126
Welder joins many metals, IE, 8/24, p.89
Welding unit, Dip-Rig, IE, 12/28, p.62

Milwaukee Boiler Mfg. Co.:
Buys Farrell Mfg., B, 12/14, p.36

Mimik Tracers Inc.:
Dynatrace for copper wire rolling mill, 12/7, p.131

Mine Safety Appliances Co.:
Features expand scope of chromatographic analyzer, IE, 9/7, p.108

Miniature Precision Bearings Inc.:
Buys Joy Ball Bearing, 12/21, p.33

Minster Machine Co.:
Presses for stamping, extra thick metal parts, IE, 8/24, p.94

Misco Precision Casting Co.:
Forms turbine components dept., B, 9/28, p.36

Missoula White Pine Sash Co.:
Ultrasonic Translator detects rotating part failures in advance, 9/28, p.82

Mobil Oil Co.:
Cutting fluid for varied needs, IE, 8/31, p.92
Oil passes mill demulsibility tests, IE, 9/21, p.102

Modine Mfg. Co.:
Buys American Foundry & Furnace, B, 10/26, p.36
Fights for tariff ruling, free trade between Canada-U. S. 11/30, p.87

Modular Instrument Div.:
Buys Micro Measurements, 8/24, p.32

Monarch Machine Tool Co.:
Edlund's NPBS drilling unit, IE, 10/5, p.109 and 11/30, p.103
Lathe series, Model 16, IE, 9/14, p.275

Monsanto Co.:
Viscoelastic sheets cuts structural resonances, 7/27, p.49

Moore Products Co.:
Air operated analog program controller, IE, 9/14, p.296
Pneumatic gage inspects auto pinion planet gears, 11/2, p.49

Moore Special Tool Co. Inc.:
Air flow temp. constant in measuring machine lab, 10/5, p.31

Morningstar-Paisley Inc.:
Hot melt applicator seals cartons, IE, 9/14, p.297

Morton Mfg. Co.:
Builds N/C double bridge gantry mill for GE, 11/23, p.49

Mosely Co., F. L.:
Ac servo motors designed for control systems, IE, 8/24, p.95

Motor Wheel Corp.:
Sold to Goodyear, 8/17, p.97

Motorola Inc.:
In-plant message systems, selective paging, IE, 10/26, p.100

N

Nalco Chemical Co.:
Changes name of Oil Products Div., B, 11/23, p.51
Drawing compound for easy removal, IE, 10/26, p.98
Organic polymer lifts sinter fine use, 7/20, p.31

National Acme Co.:
Buys shell mold machine line from Hutchinson, 9/21, p.31

National Automatic Tool Co.:
Machine hardens gears by induction, IE, 10/12, p.215

National Broach & Machine Co.:
Unit checks three variable, transmission cluster gears, IE, 7/20, p.111

National Can Corp.:
Moves headquarters, B, 11/2, p.52

National Cylinder: See Chemetron

National Distillers & Chemical Corp.:
Buys plant in Buenos Aires (tire valves), B, 8/24, p.31

National Electric Welding Machines Co.:
Shear-welder also anneals, planishes, IE, 8/10, p.174
Two diameters welded with one set of tools, IE, 11/9, p.127

National Forge Co.:
Forms export unit, B, 9/21, p.32
Forms Pressure Systems Div., B, 11/2, p.52

National Jet Co.:
Googolth machine: Metalworking in the billionths range, cover story, 8/31, p.41

National Lead Co.:
Doehler-Jarvis demonstrates size range of diecastings (bowling equipment), 7/13, p.65
Doehler Jarvis award (zinc diecast Chrysler panels), 9/28, p.29

National Machinery Co.:
Cold headers, IE, 9/7, p.101 and 12/28, p.61

National Research Corp.:
Buys Supercon, B, 7/27, p.52

National Rolling Mills Co.:
Electrogalvanizing line in Midwest, B, 12/21, p.33

National Screw & Mfg. Co.:
Buys Chandler Products, B, 12/21, p.33

National Screw Products Inc.:
Elects, B, 11/9, p.36

National Valve & Mfg. Co.:
Ceramic blanket speeds pipe bending, Etna plant, 12/14, p.66

Nationwide Leasing Corp.:
Estimates uptrend on capital equipment leasing, 10/19, p.45

Nelson Stud Welding: See Gregory Industries

Neptune Meter Co.:
Forms Neptune Systems Inc., B, 11/2, p.52

New Britain Machine Co.:
Buys H. Boker & Co., B, 10/19, p.52

New England Gear Works Inc.:
Gear motors less than 1 hp for business machines, vending, etc., IE, 10/12, p.221

Niagara Machine & Tool Works:
Foot operated clutch on redesigned 3-4 in. roll formers, IE, 8/24, p.89
Hi-Lo drive on press brakes, IE, 10/26, p.107
Refinements on OBI press line, IE, 7/27, p.147

Nichols-Morris Corp.:
Rotary table only 4¼ in. high, IE, 8/24, p.91

Nilson Machine Co., A. H.:
Four slide machine handles miniature stampings, formings, IE, 9/14, p.302

Nordson Corp.:
Pump for airless spray and extrusion applications, IE, 8/24, p.97

North American Aviation Inc.:
Bimetallic joining tips, 9/14, p.160
Digital magnetic tape for N/C machines, 7/20, p.62
Gatzek gives tips on bimetallic joining, 9/14, p.160
Glass prism device for laser, no damage in firing, TO, 10/19, p.36
Helium-neon laser measures distance between two atoms, 9/28, p.81
Paper cutter blanks titanium, TO, 11/2, p.36

North American Mogul Products Co.:
Buys Continental Chemicals, B, 10/12, p.52

Northern Electric Co. Ltd.:
Tracer control reworks rolls, 12/7, p.131

Northern Metal Products Co.:
Tapping unit keeps for high speed press, 12/7, p.131

Northwest Chemical Co.:
Actisalt reduces blistering and adhesion in zinc plating, IE, 7/27, p.150

Norton Co.:
Behr-Manning: Flap wheel of nonwoven nylon abrasive, IE, 10/5, p.106
Gould & Eberhardt Div. gear hobbing machine, IE, 11/9, p.126
Merges Canadian subsidiaries, B, 8/3, p.35

Novotni Slide Rules:
Slide rules tailored to specific tasks, IE, 7/13, p.129

Nye Inc., William F.:
Chemical film retards spreading of oil, IE, 10/12, p.223

Nylock Corp.:
Sold, B, 8/31, p.32

O

Oakite Products Inc.:
Merged into Calgon, B, 11/16, p.36

Ohio Brass Co.:
Relief valves, flat performance, IE, 12/28, p.61

Ohio Crankshaft Co.:
Induction heater, low frequency power, IE, 9/7, p.104
RF oscillator at Tocco, IE, 10/12, p.219
Vertical water cooled motor generators, IE, 8/3, p.107

Ohio Gear Co.:
Speed reducer line includes motors, IE, 9/7, p.108

Ohio Injector Co.:
Swinging ball valve, IE, 12/14, p.120

Ohio Seamless Tube: See Copperweld

Olin Mathieson & Chemical Corp.:
Longer, unwelded coils of copper and brass strip rolled at new direct chill casting plant, 11/9, p.35
Urethane enamel has hardness, flexibility, 9/21, p.30

Omark Industries Inc.:
Building four plants, B, 7/20, p.35
Percussive studwelder, IE, 11/16, p.139

Optomechanisms Inc.:
Optical measuring machine, quick and accurate, IE, 8/24, p.89

Oregon Steel Mills:
Continuous casting unit for billets of semi-killed steel, 7/6, p.18

Orton Ceramic Foundation, Edward:
Dilatometer plots thermal expansion, IE, 10/12, p.224

Osborn Mfg. Co.:
Isolated shock unit aids molding machine, IE, 12/28, p.64

Oster Mfg. Co.:
Changes name of Avionic Div. to Sunbeam, B, 11/23, p.51

Overnite Transportation Co.:
Cargo cage containers double flow of freight, 8/10, p.106

P

P.M.F. Electronics Inc.:
Formed, B, 10/19, p.52

Pacific Gas & Electric Co.:
Semiautomatic welder joins substructure, powerplant, 11/16, p.75

Pacific States Steel Corp.:
On-site oxygen facility, 7/20, p.66

Package Machinery Co.:
Reed-Prentice fast diecasting machine, IE, 10/26, p.100

Pall Corp.:
Forms Environmental Div., B, 8/17, p.36

Pan American Petroleum Corp.:
Announces ore discovery, Alaska, 9/28, p.18

Pangborn Co.:
Vibratory finisher, IE, 12/7, p.228

Panhandle Eastern Pipe Line Co.:
High strength steel plates from Republic make lighter pipelines, 12/28, p.24

Park Gate Iron & Steel Co. Ltd.:
Kaldo unit and computers features of expansion, 8/3, p.54

Parker-Hannifin Corp.:
Buys English hydraulic firm, B, 8/24, p.31
Expands Lewisburg and Plymouth facilities, B, 11/30, p.36

Parker-Hartford Corp.:
Diesinking unit with special control system, IE, 11/30, p.105

Parker White Metal Co.:
Zinc diecasting award (code discs for traffic punch recorder), 9/28, p.31

Patterson Machine Co., G. C.:
Machine straightens, cuts wire, IE, 10/26, p.102

Pemm-All Mfg. Co.:
Buys Valiant Fire Protection, B, 10/26, p.36

Pennsalt Chemicals Corp.:
Aluminum etchant ends sludge problems, IE, 10/26, p.98
Buys CryoVac, B, 8/3, p.36

Pereny Equipment Co. Inc.:
Multiple tube furnace, IE, 8/10, p.175

Perkin-Elmer Corp.:
Electron microscope provides final magnification of 10 million, IE, 10/26, p.97
Electro-optical market to double by 1970, forecast, 11/9, p.19
New gas laser, 8/3, p.18
Spectrophotometer detects contaminants in metals, 10/12, p.214

Perkins Engines Inc.:
Relocates headquarters in Novi, Mich., 7/20, p.90

Personnel Laboratory Inc.:
Picturephone for interviewing, 8/10, p.35

Phelps Dodge Corp.:
Labor pact with mine-mill union, 8/24, p.27

Philadelphia Gear Corp.:
Close tolerances held on big gear, pic., 8/17, p.36; correction, 8/24, p.31

Philco Corp.:
Laser cooling ends beam distortion, IE, 9/14, p.284

Phoenix Steel Corp.:
Modernization program, new equipment, 12/21, p.32

Photocircuits Corp.:
Printed wiring boards, new manufacturing process, 11/2, p.47

Pickands Mather & Co.:
Mineral prospecting program, Australia (associates listed), 7/6, p.36

Pierce Template Corp.:
Cutting oil for aluminum (Cindol 3101), 9/21, p.50

Pines Engineering Co. Inc.:
Cutoff bending machines continuously fed, IE, 7/6, p.97
Killian outlines advanced in bending equipment, new dimensions added to technology, 11/30, p.56
Roto-Form 5-12, new cold bending process for pipes or tubing, twists to 180°, 10/12, p.47

Pipe Machinery Co.:
Air cylinders have hydraulic cushioning, IE, 9/28, p.152

Pittsburgh Chemical Co.:
New name Pittsburgh Activated Carbon, B, 8/24, p.32

Pittsburgh Plate Glass Co.:
Fluffed glass filament blanket provides insulation and filtration, 8/10, p.112
Rutile process firm (Sierra Leone) jointly owned, 7/20, p.33

Pittsburgh Steel Co.:
Conversion of hot sheet mill to six stand mill takes one-third of normal time, 8/24, p.38
Forms a welded wire fabric mfg. operation, B, 7/13, p.36
Hot rolling operations, Allenport, Pa., to resume, 7/13, p.31

Plymouth Locomotive: See Fate-Root-Heath

Polymer Corp.:
Fluidized bed coater, packaged system, IE, 9/7, p.104

Poor & Co.:
Buys Imperial Belting, B, 8/24, p.32

Porter Company Inc., H. K.:
Connors Steel: Controls metal level in continuous casting, 8/24, p.87
Connors Steel, continuous casting at Birmingham plant, 9/14, p.145
Expansions, Frankfort, Ky., and Vulcan Kidd Steel, B, 10/12, p.51
Sheradizing now continuous at Ambridge plant, 11/30, p.62

Power Control Products:
Automatic vises aid wet cutting, IE, 11/23, p.178

Power Tool Div.: See Singer Co.

Pratt & Whitney Co. Inc.:
N/C measuring machine (Computer Gage) measures contours, 9/28, p.78

Pratt & Whitney Aircraft Inc.:
Plastic coatings protect plating shop equipment, Fla., 10/19, p.118

Precision Scientific Co.:
Equipment prepares metallurgical samples, IE, 10/12, p.219
Vacuum pump line, IE, 11/9, p.129

Precision Welder & Flexopress Corp.:
Welder handles tricky design of refrigerator-freezer condenser, IE, 8/24, p.88

Pressure Technology Corp. of America:
Dr. Bobrowsky: Pressure, high energy, ultrasonics put new lift in metal forming, 11/9, p.66

Production Machinery Corp.:
Builds stainless steel grinding line for Universal-Cyclops plant, 8/17, p.35
Precision slitting line for Chesterfield Steel Service, B, 10/12, p.52

Proler Steel Corp.:
Processed auto car scrap (Prolerized steel), 10/5, p.29

Provincial Engineering Ltd.:
Buying Herbert Morris Crane & Hoist, 7/27, p.52

Prutton Corp.:
Air actuated vibratory feeder on thread rolling machine, IE, 10/5, p.105

Punch Products Corp.:
Thinpelts (punch template, then mount dies), 7/6, p.51

R

Radco Products Inc.:
Extrusion press allows fast die changes, 11/30, p.64

Radiation Research Corp.:
Process for coating paper and metal containers called Glow Film, 7/13, p.31

Racine Hydraulic Development Corp. of America:
Pippenger discusses standards for fluid power users at NFPA convention, 11/16, p.33

Radio Corp. of America:
Builds ultrasensitive TV for space, 7/27, p.35
Computers feature integrated circuitry, Spectra 70, 12/14, p.28

Code: B—*Briefs;* IE—*Industrial Equipment;* TO—*Technical Outlook*

Electron microscope maps tiny magnetics in metals, 8/10, p.34
Sarnoff: What computers may do by year 2000, 11/9, p.28
Silicon rectifiers, power control for appliances, tools, 12/14, p.33

Ralmike Tool Corp.:
Portable diemaker bench adjusts to height, IE, 8/3, p.110

Randall Co.:
Double walled steel tubing for auto exhaust pipes, 10/12, p.200

Ransburg Electro-Coating Corp.:
Electrophoretic deposition (cover pic), 8/3
Electrophoretic coating equipment, IE, 9/28, p.154

Rapids-Standard Co. Inc.:
Overhead chain conveyor, heavy duty addition, IE, 7/20, p.117

Raymond Corp.:
Sideloading lift truck, 20 ft stacks, IE, 8/10, p.170

Raytheon Co.:
Buys Packard-Bell, B, 9/7, p.32

Reading Alloys Inc.:
Master alloy process, 12/7, p.143

Recordak Corp.:
Microfilm processor automatic, IE, 9/14, p.285

Redman Tools Ltd.:
Hydraulic roll forming machine produces steel bumper bars, 8/10, p.45

Reed-Prentice: See Package Machinery

Reed Roller Bit Co.:
Cleco light grinder powered by air, IE, 11/2, p.166

Reeve Electronics Inc.:
Induction generator-heat control, IE, 11/9, p.131
Silver brazing system, IE, 11/30, p.111

Regis Paper Co.:
Sling Bin bag permits fork lift handling, IE, 12/14, p.115

Reliance Electric & Engineering Co.:
Automotive stamping press motor reduces shock and vibration, 7/6, p.35
Cost reduction, informal methods allow flexibility at Ashtabula Div., 8/17, p.64

Remex/Rheem Electronics Corp.:
High speed photocell punched tape reader and matching tape spooler, IE, 9/21, p.100

Republic Aviation Corp.:
AF Materials Lab study concluded on titanium extrusion, 12/21, p.46
Flaring port openings process—hydraulic ball forming (contract with Marshall Space Flight Center), 11/23, p.116
Measures tool wear while milling cut is made, TO, 7/27, p.36
Space-tested radiation measuring unit, IE, 7/20, p.118

Republic Foil Inc.:
Builds aluminum foil rolling mill, N. C., B, 9/7, p.32

Republic Steel Corp.:
Adds bar mill, Chicago Wks., and continuous weld pipe mill at Youngstown, 7/6, p.33
Awards contract to Koppers for coke wharf facilities, Warren, B, 8/10, p.52
Brighter finish on 304 stainless (2B-N), 10/12, p.51
Continuous casting facilities, Canton, O., plant, 8/31, p.31
Gadsden, Ala. expansion involves plate mill complex, hot and cold rolled sheets-strip, galvanized products, 10/5, p.31
Gadsden plant, pickling line, 12/14, p.28
Gadsden plant: High strength steel plates make lighter pipelines, 12/28, p.24
Gadsden plant: Tower pickler uses hydrochloric rather than sulfuric acid, success may start new trend, 12/21, p.52
Johnson: BOF to spur electric furnace use, 12/14, p.18
Maraging steel supplied Ladish to roll rocket ring, 10/12, p.49
Patton: 'Race for world steel markets underway', 7/27, p.33
Patton: 300 million tons of steel per year by 2000, 8/17, p.17
Plasma makes a better weld (heavy walled stainless tubing), 10/19, p.116

Research-Cottrell Inc.:
Dust removal units for McLouth sintering machines, 12/7, p.145

Rex Precision Products Inc.:
Dewaxing time for investment castings cut by autoclave, 7/6, p.50
Portable magnetic inspector, shows ferrous metal cracks, IE, 9/21, p.103

Reynolds International Inc.:
Launches new aluminum submarine (undersea data), 9/7, p.28

Reynolds Metals Co.:
Aluminum chemicals from domestic raw materials, new process, 7/20, p.17
Big machines highlight expansion program (electronic saw, heat treating furnace, stretcher), 7/13, p.35
Reynolds Jr.: Aluminum industry paid up for over-expansion in '50s, 10/19, p.33

Richmond Equipment Co.:
Melting furnace for gray iron foundry, IE, 12/28, p.63

Ridge Tool Co.:
Deflatable fluid containers (Sealdrums), ship thread cutting oil, TO, 12/7, p.36

Robbins & Myers Inc.:
Fan efficiency, IE, 7/6, p.102
Motors for OEM application, IE, 7/20, p.120

Roberts Co., C. A.:
Buys Sanford Aluminum, renames, B, 8/24, p.32

Robertson Co., H. H.:
Buys Resolite, B, 10/19, p.52

Robins Data Devices Inc.:
Data coder on hand punch, IE, 9/14, p.298

Robinson Co., C. E.:
Rack (Stack Pallet), IE, 12/14, p.114

Rockwell Mfg. Co.:
100 in. metal lathe, IE, 11/16, p.134
Belt grinder-sander, IE, 7/20, p.110
Drill presses, variable power feeds, IE, 11/9, p.127
Northcutt: Instrument sales $1 billion by '75, 10/19, p.43

Rockwell-Standard Corp.:
Double brake cylinder, developed by Nelson Brownyer, 11/30, p.88
Enlarges plants in Ohio and Mich., B, 8/17, p.36

Rolnick Contracts Ltd.:
Foam makes heat barrier for welding, 8/31, p.20

Rotek Inc.:
Slewing rings (ball bearings) of precision forgings, 8/31, p.30

Roth Corp.:
Self-propelled coil car, IE, 7/6, p.108

Roto-Finish/Ransohoff Co.:
Deburring system 'Spiratron', IE, 7/6, p.105

Rotor Tool Co.:
Air tool drives screws, sets nuts to specs, IE, 11/9, p.128

S

Saco-Lowell Shops:
Buys product line from Hupp, 9/7, p.32
Licensed by English textile machinery firm, B, 11/2, p.51

Salem-Brosius Inc.:
Develops steel slab reheating furnace (roof-fired), 10/19, p.47
Furnace-5 zone heats slabs, IE, 9/7, p.102

Salvajor Co. Inc.:
Bandsaw solves trimming problem, 7/6, p.51

Sangamo Electric Co.:
Rotary index tooling with horizontal boring, 12/7, p.121

Sawhill Tubular Products Inc.:
Electricweld tube mill, Wheatland, Pa., plant, B, 11/16, p.36

Saylor-Beall Mfg. Co.:
Dual air compressors mounted on single tank, IE, 7/6, p.98

Scientific Data Systems Inc.:
Integrated circuits in the SDS 92 computer, IE, 11/16, p.132

Scovill Mfg. Co.:
Tire Pressure Maintenance System, IE, 12/7, p.229

Screw & Bolt Corp. of America:
Buys Wyckoff Steel, 11/16, p.35
Moves corporate headquarters, B, 8/3, p.35

Sealed Power Inc.:
Merges with Federal-Mogul, 8/3, p.35

Sentry Co.:
Muffle furnace does atmosphere hardening, IE, 8/24, p.97

Service Machine Co. Inc.:
Press bed adjusts to die heights, IE, 11/9, p.129

Servomechanisms Inc.:
Merges, B, 7/13, p.36

Setco Industries Inc.:
Twin wheel Grindmatic, IE, 12/28, p.60

Sharon Steel Corp.:
Nuflex, nylon strapping, IE, 11/30, p.114
Rolling wider sheets, Bliss mill, 8/17, p.81

Sheffield Corp.:
Acquires N/C drafting machine rights (Ekstrom, Carlson), 9/7, p.31
Angled vanes speed blast cleaner, IE, 10/5, p.99
Cleanroom Modulab, IE, 9/14, p.286
Faster testing devices, optical and (Hedden reports), 7/6, p.33
Jet Wheel Cleaner for longer grinding wheel life, 11/30, p.20
Machine checks, classifies engine bores, 12/7, p.52
Measurement in millionths (new equipment), measuring machine, checkout for N/C, transducer, 11/30, p.29
Measuring machine (layout and inspection), IE, 8/3, p.104
Measuray Gage ties to mill control, IE, 10/5, p.99
Wheel cleaner improves grinding, IE, 11/16, p.130

Sheldon Machine Co. Inc.:
Lathe turns small parts, IE, 10/5, p.106

Shelton Iron & Steel Ltd.:
Aims at continuous steelmaking facilities, 7/27, p.33

Shepard Niles Crane & Hoist Corp.:
Gantry facilitates straight line welds, IE, 11/30, p.112
Stacker crane custom built, IE, 7/13, p.130

Sherbro Minerals Ltd.:
Jointly owned by Pittsburgh Plate Glass to produce rutile (Sierra Leone), 7/20, p.33

Sheridan-Gray Inc.:
Stretch drawpress, IE, 9/14, p.280

Sibley Machine & Foundry Corp.:
Buys induction melting furnace from Hevi-Duty, B, 8/3, p.36

Signode Corp.:
Buys Elastic Co., B, 8/31, p.32
Feeder frame applies straps to coils, IE, 12/14, p.112
Strapping tool lightweight, power operated, IE, 11/16, p.135

Simmons Machine Tool Corp.:
Acquires Czech line of machine tools (built by Skoda), 12/14, p.29

Singer Co.:
Power tool, angle skiving tool for producing small electric motors, 7/13, p.75

Skil Corp.:
Trigger pressure varies speed in drill, IE, 7/27, p.156

Skinner Precision Industries Inc.:
Buys Emco Pneumatics, B, 7/6, p.36

Skybryte Co.:
Synthetic vehicle helps paint resist heat, IE, 12/7, p.224

Smith Co., T. L.:
Buys physical assets of Milwaukee Bridge, B, 8/24, p.32

Smith Corp., A. O.:
Multiple head welding, dev. in submerged arcwelding, 9/28, p.33
Price cut on certain electrodes, 11/30, p.35
Sheet descaling unit, 8/24, p.44
Wire driver feeds solid, cored types, IE, 8/17, p.117

Snow Mfg. Co.:
Unit drills, taps rivets, IE, 10/19, p.207

Snow-Nabsted Gear Corp.:
Sells gearbox line to Cotta Transmission, B, 11/2, p.52

Snyder Corp.:
Five transfer machines 416 ft line (engine blocks), IE, 11/23, p.170
Special balance mills connecting rods, IE, 8/24, p.96
Transfer machine works axle housings, 8/3, p.100

Space Research Inc.:
Organic and inorganic surface residues detected by Cleanometer, IE, 7/27, p.155

Sparton Corp.:
Roll forming cylinders, coil straightener, 8/10, p.89

Special Ground Products Co.:
Flux bars, magnetic chucking, IE, 9/28, p.82

Specialty Products Co.:
Resin Release-N for molding-bonding, IE, 11/9, p.132

Spee-Flo-Corp.:
Airless paint spray unit, two gun capacity, IE, 7/6, p.98

Speer Carbon Co.:
Expansion program, B, 7/6, p.36
High density graphite, good machinability, IE, 10/5, p.105

Sperry Gyroscope Co. Ltd.:
Substrates coated by electroless plating, 10/19, p.143

Sperry Rand Corp.:
Univac displays fluid operated digital computer, 10/19, p.42

Spiral Metal Co. Inc.:
Buys Metal Div. of Peerless, B, 8/3, p.36

Square D Co.:
AC drive system controls tilt of BOF, 9/28, p.36

Sta-Warm Electric Co.:
Packaged hot spray assembly, IE, 7/13, p.134

Standard Gage Co. Inc.:
Gage console adapts to many parts, IE, 12/7, p.224

Standard Pressed Steel Co.:
Boehringer: How to make an incentive pay system do what it should (raise productivity), 8/10, p.90

Stanley Works:
Nylon power strapper, IE, 10/26, p.104
Strapping tool takes magazine feed, IE, 9/7, p.103

Steel Co. of Canada Ltd.:
Pickling line (hydrochloric acid), 8/3, p.64
Production tests on dual open hearth furnace, 9/28, p.88

Steelfab Inc.:
Semiautomatic, short arcwelder used in construction, 11/16, p.75

Sterling-Detroit Co.:
Automation kit for diecasters, 12/21, p.50

Stevens & Co. Inc., J. P.:
Quartz fabrics, woven, nonwoven resist heat, IE, 8/31, p.94

Stocker & Yale Inc.:
Optical projectors aid tool presetting systems, IE, 8/24, p.95
Printed circuit scanner, IE, 10/12, p.226

Stokes Co., F. J.:
Unit removes water from pump oil, IE, 9/21, p.103

Stone Conveyor Co.:
Ball bearing idlers, IE, 11/2, p.162

Stone Machinery Co. Inc.:
Plate cutting saw, 25 hp motor, IE, 11/2, p.164

Studebaker Corp.:
Auto Div. (Canada) production: Grundy report, 9/28, p.127
1st nine month profits, vs. loss in '63, 11/16, p.106
Japanese negotiations confirmed, Toyota line of cars and trucks, 12/14, p.96
Torque wrenches, suggested applications, 7/27, p.89

Sumner Iron Works: See Black-Clawson

Sunbeam Corp.:
Buys Planet Instrument, B, 11/2, p.52

Sunbeam Electronics Inc.:
Pilot operations, Components Div., B, 10/19, p.52

Sunbeam Equipment Corp.:
Aluminum melting, holding furnace, IE, 10/19, p.210
Exogas atmosphere generator, IE, 7/13, p.135
Heat treating furnace for air conditioned shop, 8/17, p.72

Sunbeam Furnace Corp.:
Faster aluminum annealing furnaces built for Bridgeport Brass, 10/5, p.56

Sunshine Scientific Instrument:
Tungsten carbide coating to tool cutting edge, IE, 8/3, p.100

Superior Steel Castings Inc.:
Electric melt furnace added, B, 10/26, p.35

Super-Temp Corp.:
Pyrolytic graphite market potential, TO, 12/28, p.12

Surface Combustion: See Midland-Ross

Swanson-Erie Corp.:
Special machine, standard components, IE, 11/16, p.138

Swift & Co.:
Chemical treatment aids wet temper rolling, IE, 8/24, p.98

Sylvania Electric Products Inc.:
Duplex wire tech., copper conductors clad for higher temperature, 12/14, p.69
Tungsten disulfide for aerosol packaging, IE, 7/13, p.134

Symington Wayne Corp.:
Kenney, Symington Div.: 12 point defense plan for steel foundries (foreign competition), 8/31, p.43

T

Taco Inc.:
Broken drill detector, IE, 7/27, p.154

Tamar Electronics Industries Inc.:
Consolidates to form American Wiancko Instrumentation Div., B, 8/3, p.36

Taylor Co., Halsey W.:
Automatic silver brazing machine, 7/20, p.64

Taylor Corp.:
Echange of info with W. German firm, B, 8/10, p.51

Taylor Instrument Companies:
Jointly organized outlet in India, B, 11/2, p.51

Taylor Machine Works:
Yardster truck lifts 26,000 lb cargo, IE, 9/21, p.95

Taylor-Winfield Corp.:
Resistance welder, silicon rectifier power, IE, 11/23, p.167

Techrand Corp. of America:
Instrument provides record and visual check of temps., 11/2, p.159
PPC portable pulse counter located welder troubles, 8/24, p.96

Tekronix Inc.:
Oscilloscope is portable, IE, 9/14, p.278

Teledyne Inc.:
Merges, B, 7/13, p.36

Teleregister Corp.:
Merges with Bunker-Ramo, B, 7/27, p.52

Temescal Metallurgical Corp.:
Electron beam used in annealing continuous strip, 12/7, p.122

Ternes Steel Co.:
Technique upgrades production (using existing equipment), 12/7, p.134

Testing Machines Inc.:
Materials (paper tissues, towels, gauze) tested by 'feel', Handle-O-Meter, 7/13, p.19

Texaco Inc.:
Additives extend life of hydraulic oil, IE, 11/16, p.135

Texas Instruments Inc.:
Fuel cell uses common fuels (dev. for Army Mobility Command), 12/7, p.144
'Purple plague' solution, 8/31, p.19

Textile Machine Works:
Jigmil-N/C, work simplification, 8/10, p.89

Thermal Dynamics Corp.:
Plasma welding (Thermal-Arc) adapts to common joints, IE, 8/3, p.104
Plasma welding system in integrated package, IE, 11/9, p.131

Thermal Engineering Corp.:
Welded steel tubing reduces driveshaft weight, 8/10, p.88

Thermokinetic Fibers Inc.:
Sapphire whisker paper for aerospace, 8/24, p.20

Thomas & Baldwins Ltd., Richard:
Hot strip mill joins 700 acre hookup, Spencer Wks., 12/28, p.18

Thompson Fiber Glass Co., H. I.:
Graphite cloth aids carburizing, IE, 10/5, p.100

Thompson Ramo Wooldridge Inc.:
Buys Marlin-Rockwell and Ross Gear & Tool, 7/6, p.82
How to stay in auto partmaking (Neal Pritchard), 7/6, p.81
Mercury power generator system for front line use by Army under development, 12/21, p.31

Thyssen-Huette A. G., August:
Blast furnace capacity 2024 net tons, newly installed, 9/21, p.32

Timken Roller Bearing Co.:
British Timken offers crossed (two-row tapered) roller bearings, space saving to machine tool builders, 11/16, p.65
Plastic dip keeps out dirt in slotted collets, 8/10, p.88
Research and development center, Akron-Canton center, 7/13, p.35

Tinius Olsen Testing Machine Co.:
Bench style testing unit, IE, 7/20, p.120
Testing equipment displayed, IE, 10/12, p.217

Tinnerman Products Inc.:
How 'special diet' can reduce fat assembly costs in fastening problems, 7/20, p.58
Special fastener eliminates welding, cuts camper trailer manufacturer's costs, 11/16, p.68

Tool Crib Inc.:
Klear-Kool, water soluble coolant, IE, 11/30, p.113

Towmotor Corp.:
Hydraulic swinging forks optional to lift trucks, IE, 7/6, p.98

Trans World Airlines:
Orders DC-9 transports from Douglas, 7/27, p.47

Transamerica Corp.:
Becomes subsidiary of De Laval, 7/20, p.36

Transue & Williams Steel Forging Corp.:
Ament addresses drop forgers on low price impact ip purchasing, 7/27, p.33

Travers Metal Products Ltd.:
Stretch forming machine (Holtraz), 12/28, p.28

Treesdale Laboratories:
Merged into American Gypsum, B, 10/26, p.36

Trent Inc.:
Electric curing oven cures epoxy coated parts, IE, 7/20, p.114

True-Trace Corp.:
Automatic tracing valve, IE, 7/20, p.119

Trundle Consultants Inc.:
Gould: Cost reduction program in midst of boom, 8/17, p.25

Tubotron Inc.:
High frequency welds tubes, 10/26, p.18

Tydeman Machine Works Inc.:
Tymac tracer for turret lathe, IE, 8/24, p.96

Tyler Inc., W. S.:
Forms divisions, B, 7/20, p.36
Rolling mill drives modernized, 10/26, p.49

Tysaman Machine Co.:
Dual head axle cutoff machine, IE, 12/14, p.111
Grinder removes scale from hot slabs, IE, 10/19, p.207
Pivot rail chop saw makes cuts on material clamped in lathes, IE, 9/14, p.275

U

Udylite Corp.:
Zinc brighteners, Z-Brite, IE, 9/21, p.97

Union Carbide Corp.:
Carbon yarns hold strength at 5000° F, 7/20, p.31
Compact ac-dc power supply, IE, 8/10, p.170
Programer for automatic tig welder, IE, 9/7, p.105
Vacuum furnace (Stellite) improves ingot surfaces, 10/12, p.47
See also Linde

Union Industrial Equipment Co.:
Carbon monoxide detector and alarm unit, IE, 7/6, p.100

Union Spring & Mfg. Co.:
Buying Colber Corp., B, 11/16, p.36

Union Steel Products Co.:
Cargo containers for freight shipments, 8/10, p.106

Unison Corp.:
DedTru grinding fixture, setup in less than 3 minutes, IE, 8/31, p.95

United Aircraft Corp.:
Hamilton Standard: Electron beamwelding chamber (tank with compact car in it), TO, 8/10, p.36

United Engineering & Foundry Co.:
Analyzer balancing system/electronic computer on paper roll, pic., 8/24, p.31

United Instrument Laboratories:
Ultraviolet flashlight, IE, 9/14, p.285

United Shoe Machinery Corp.:
Buys Nylok, B, 8/31, p.32
Buys Rockwell Products and Daras Corp., 7/27, p.52

U. S. Baird Corp.:
Cradles hold 2500 lb coils, IE, 7/6, p.102

U. S. Burke Machine Tool Co.:
Horizontal mill, heavy cuts, IE, 8/17, p.120
Milling machine makes medium, small parts, IE, 12/7, p.232
Option of power feed to knee on vertical miller, IE, 8/31, p.94

U. S. Electrical Motors:
Gear motors handle large overhung loads, IE, 7/27, p.153
Gear motor high torque, high hp, IE, 12/28, p.62

U. S. Steel Corp.:
Announces reorganization (editorial): U. S. Steel's new image, 8/31, p.15
Blough predicts steel demand on 'even keel', 8/3, p.17
Blough pegs gains in output, usage, imports-exports, 11/2, p.33
Buys Lockeford, Calif. plant of Graver Tank, 8/17, p.36
Clairton, Pa., facilities enlarged, B, 10/21, p.51
Containers designed for freight, 8/10, p.106
Containerization, material handling, 10/26, p.44
Expands Geneva Wks. to meet West Coast competition, 7/27, p.51
Fairless Wks. bar mill, self-releasing gripper sling moves stock, 7/27, p.88
Fairless Wks.: Railway type disc brakes control uncoiler tension on a thin tin mill, 9/28, p.86
Fairless Wks.: Vapor deposition of metals on steel going commercial, new mill, 12/7, p.45
Gary Works expansion program, B, 10/12, p.140
Gary Wks.: Five stand cold reduction mill rolls wider, thinner sheets, 9/28, p.146
Gary Wks.: New steel foil mill has unusual features, 9/14, p.47
House built in Ind., steel usage, 8/3, p.31
Maraging steels under study, 11/16, p.19
National Wks.: New electric resistance weld pipe mill makes 80 ft lengths (ERW), 8/10, p.113; 8/17, p.71; 11/23, p.49
Pipe mill finishing facilities, Pittsburg, Calif., 7/13, p.35
Taconite plant for Mountain Iron, Minn., 11/16, p.35
Testing devices developed for large seamless and welded pipe (electromagnetic, eddy current, ultrasonic units), 8/24, p.86
Torrance Works, bar mill facilities improved, 10/19, p.51

United Steel Companies Ltd., (England):
Researchers suggest formula for oxygen injection, 11/2, p.33

Universal Atlas Cement:
Automated plant via GE system built around PAC computer, 8/3, p.20

Universal-Cyclops Steel Corp.:
Buys stainless steel grinding line for Bridgeville plant, 8/17, p.35
Precision shape rolling (InFab mill), now produced in many metals, 9/28, p.104

V

VR/Wesson Co.:
N/C broach speeds cutter milling, 8/24, p.44
Sold investment casting equipment, B, 12/21, p.33

Code: B—*Briefs;* IE—*Industrial Equipment;* TO—*Technical Outlook*

Vacu-Blast Co., Inc.:
Automated transfer machine (one man operation) blast cleans—shot peens jet engine blades, 7/20, p.36
Dry abrasive blast cleaning equipment, IE, 8/31, p.91

Vacuum Industries Inc.:
Buys Mt. Vernon Research, B, 10/26, p.36
Furnace heat treats refractory metals, IE, 8/3, p.101

Vacuum Industrial Applications Ltd.:
Metallizing machine creates own vacuum, 12/7, p.222

Valeron Corp.:
Small boring bar uses throw-away inserts, IE, 8/17, p.114

Valley Mould & Iron Corp.:
Buying Bishop & Babcock, B, 11/16, p.36

Valspar Corp.:
Bright leafing type aluminum utility paint, IE, 12/28, p.62

Van Products Co.:
Van-Air dryer, taking moisture from steel plant, 7/27, p.92

Vanadium-Alloys Steel Co.:
Buys Allvac Metals, B, 11/2, p.52
Capital spending program, 8/3, p.35
Forms Vanac International, B, 9/7, p.31
New finish for tool steels (Redi-Scribe), 11/2, p.51
New finish for diecasting dies (Redi-Mold), 11/16, p.35

Vaughn Machinery Co.:
Buys Crossley Ltd., Albion Iron Wks., B, 8/10, p.51

Vermont Tap & Die Co.:
Flo-Forging, new method for drillmaking (patented by German firm), 8/17, p.35

Vertol Div.: See Boeing Co.

Vickers Inc.:
150 Series angle type position pumps and motors, IE, 10/5, p.105
Directional valves, new features, IE, 9/28, p.158
Hydraulic drives for wide range use, IE, 11/23, p.175
Spacecraft 'steering wheel' test, 12/21, p.90

Viso Corp.:
Radiography for thin steel turbine blades, IE, 11/30, p.103

Vitro Engineering Co.:
Radiation processing plant for 'novawood', plastic impregnated wood (with AEC), 12/21, p.19

Vulcan Metal Products Inc.:
Forms Plastic Div., B, 8/10, p.52

Vulcan Tool Co.:
Buys Arbor Tool, B, 8/31, p.32

W

Walker Mfg. Co.:
Urges smog control device, 10/26, p.82

Wall Colmonoy Corp.:
Forms British subsidiary, B, 8/24, p.32

Wallace Supplies Mfg. Co.:
Jacking tool packs 5 tons in small space, IE, 8/17, p.121
Tube bender, IE, 10/12, p.224

Ward-Riddle Co.:
High pressure oil pumping-filtering system, IE, 12/7, p.226

Ward Steel Co.:
Moves general offices, B, 8/10, p.52

Warehouse Storage Systems Co.:
Storage rack design snaps together, IE, 9/14, p.292

Warner & Swasey Co.:
Bailey addresses NMTBA, 11/9, p.28
Cole forecasts machine tool sales at NICB conference, 11/2, p.41

Waterbury Farrel Div.:
Shrink fitting by cold treatment of bushings to brackets, 8/17, p.66

Watson Spring Co.:
Sold, B, 10/5, p.32

Wean Engineering Co. Inc.:
Contract for U. S. Steel galvanizing line, West Coast, 7/27, p.51

Wean Mfg. Co.:
Expands, B, 11/2, p.52

Weinman Pump Co.:
Roller burnishing for finishing bronze, 7/20, p.64

Weirton Steel Co.:
Pickle tank construction, liquid adhesion barrier, rubber Pliosil layer, prevents brick damage, 9/28, p.88
Warehouse (eight acre) built, 7/13, p.35

Wells Electronics Inc.:
Diffusion bonder needs no heat, IE, 10/26, p.107

Western Gear Corp.:
Makes Swiss continuous casting machinery, agreement with Erik Olsson, 9/21, p.31

Westgate Laboratory Inc.:
N/C table for small work, 11/23, p.107

Westinghouse Electric Corp.:
Adaptable device (rotary index) machines turbine blades at seven stations, 12/28, p.28
Assembly advances with order negotiation communications systems RONS, 11/9, p.61
Astronuclear Lab: Tantalum alloy, with tungsten and hafnium dev., 9/28, p.102
Columbium-titanium superconducting wire, 7/20, p.33
Insta'ls blast furnace control in Italy, 8/10, p.52
Magnetic alloy (hipernik), new material, 7/20, p.66
MHD, electric power source in space, 7/27, p.106
N/C (eight axis) unit machines turbine generator frames (built by Farrel), 8/3, p.59
Pickling with hydrogen peroxide (before porcelain enameling appliances), 7/6, p.59
Polyphase motor has 140 frame, IE, 8/24, p.91
Reliability saves customers: Program headed by Daly and Ockerman, 11/2, p.100
Research lab: Piezoelectric transducer yields ultra-high waves, crystal study, 9/14, p.151
Rocket motor cases 10 ft diameter on production line, 10/12, p.155
Single phase motor, smaller, IE, 7/20, p.118
Ultrasonic degreaser cleans with Freon, IE, 8/10, p.174
Ultrasonics achieve speed in auto bearing-cleaning, and stainless pickling line, TO, 8/24, p.20

Weston Instruments Inc.:
Basic meter uses optical projection, IE, 9/28, p.158

Wheelabrator Corp.:
Blast-descaling unit for sheet, 8/24, p.44

Wheeling Steel Corp.:
Computerized hot strip mill for Steubenville plant, 8/17, p.33
Simon (new chairman) at stockholder meeting clears 'uncertainties' about company future, 11/30, p.29
Steele: Construction requirements spur to steel growth, 11/16, p.17

Whirlpool Corp.:
Capital equipment expansions, 8/10, p.116

White & Bagley Co.:
Opens California facilities, B, 10/12, p.52

White Consolidated Industries Inc.:
Buys Sarco Mfg., 8/24, p.32

Whitney Mfg. Co., W. A.:
Hydraulic duplicator press punches sheets, IE, 8/3, p.100

Whittaker Corp.:
Rotor in Microsync motor, IE, 9/7, p.102

Wilson Engineering Co. Inc., Lee:
AISE report by Lee Wilson: Combine reduction mill and open coil machinery, savings in sheet and stripmaking, 9/14, p.183
New Roller Div. to build leveling equipment for metal sheets, strip, plates, 12/7, p.51
Vertohort unit feature of Acme Steel's new anneal-temper facility, 11/9, p.74

Wilton Corp.:
Milling vise (Pow-Rjaw), table length clamping, IE, 8/3, p.109

Winslow Engineering & Mfg. Co.:
Specifies Ferro-Tic for redesigned extrusion punch, machinable carbide material, 9/21, p.51

Wintriss Controls:
Sensing units aid automation, 11/2, p.111

Wisconsin Steel: See International Harvester

Woodward Governor Co.:
Heat treating unit in shop isolated in panel wall enclosure, 8/17, p.72

Worthington Corp.:
Buys Alco Products, B, 8/24, p.32 and 10/5, p.32

Worthington Air Conditioning Co.:
Climatrol replaces 150 ft assembly lines with shorter ones to hike efficiency, 10/12, p.51

Wyatt Industries Inc.:
Titanium kiln slated for hot acid service, 9/21, p.55

Wyckoff Steel Co.:
Merged with Screw & Bolt, 11/16, p.35

Wyle Laboratories:
Automatic imput system for desk top calculator, IE, 11/9, p.125

Wyman-Gordon Co.:
AF-arsenal may get 200,000 ton press, 10/5, p.29

X

Xerox Corp.:
Chemical reaction, 'excited particles' aids laser, 9/21, p.19
Profit sharing plan, 11/2, p.44

Y

Yale & Towne Inc.:
Compact ram/fork truck carries 25,000 lb coils, IE, 11/16, p.139
Lift truck totes 30,000 lb coils, IE, 9/14, p.287
Minnelli: Material handling automation in embryo stage, 10/19, p.34
Narrow aisle truck handles pallet loads, IE, 10/19, p.212
Solid state electronic control for truck series, 10/26, p.97

Yawata Steel Co.:
Scrap-sorter (Trommel for Scrap Iron), 11/16, p.36

Yoder Co.:
Buys assets of Herrick Mfg., B, 8/3, p.36
Functioneering approach aids salesmen (multiline distributors), expedites order specifications, 12/28, p.21
Tubing with thickness-to-diameter ratio formed and welded from sheets for Phoenix Steel Tube Ltd., 7/27, p.83

Youngstown Foundry & Machine Co.:
Agreement with Swedish firm to sell products, 8/10, p.52

Youngstown Sheet & Tube Co.:
Feters addresses IHEA, advances in steelmaking, 11/23, p.45
Glossbrenner: Unknowns cloud steel price outlook, 9/21, p.19
Hot strip mill (80 in.) for Indiana Harbor Wks., 7/13, p.33
Vacuum degassing unit for Brier Hill Wks., 8/17, p.35

Youngstown Steel Warehouse Co.:
Merger with Hunter Pipe & Supply, B, 12/7, p.52

Z

Zeiss Inc., Carl:
Precision horizontal metroscope for labs, IE, 11/30, p.104

Zero Mfg. Co.:
Buys interest in Teletek, B, 7/20, p.36

Zero-Max Co.:
Variable speed drive, 25 in.-lb, IE, 10/5, p.107

Zimmie Inc., W. E.:
Chemical additive (high molecular weight material) clears mud from water lines (steel plant cooling system), 8/31, p.54
